

SOMEbody.

Somebody's boy is going to France; Somebody's heart goes with him along; Somebody prays, "Oh, give him a chance, Keep him courageous, well-girded and strong." Is that Somebody you?

Somebody's boy finds cold and Wet—The trenches are deep with death and mud; Somebody's boy cries, "Don't forget—'Tis for Freedom, and you, I'm spilling my blood." Is that Somebody you?

Somebody's home is safe and warm Far from the fighting and snug from the cold; Somebody now is sheltered from harm, Laying up income of silver and gold. Is that Somebody you?

Somebody hears the call for aid, "Lead of your money for Liberty's need"; Somebody's hand is strangely stayed; Somebody's waiting, while brave men bleed. Is that Somebody you?

Somebody leaps up, eager and true, Working and lending and giving his best; Somebody's loyalty, flaming anew, Is answering the summons—is meeting the summons? Is that Somebody you? —New York Times.

Face Peeling Habit Becoming Fashionable

Women of fashion and refinement in this country as in Europe seem to have been acquiring the mercurized wax habit, depending less and less upon cosmetics for their complexion difficulties. It does seem a lot saner to just peel off the worn-out skin when it loses its youthful color and appearance—now that this can be done so easily, safely, painlessly and economically.

There's no trouble getting mercurized wax at any drug store (an ounce will do), since its virtues have become generally known here, and there's no trouble using it—just as you use cold cream, applying it at night, washing it off next morning. The wax takes off the old scurf skin, in tiny flakes, a little each day. This new under-skin which gradually appears, is velvety soft and beautifully white, radiant with girlish loveliness. Any surface trouble like chaps, pimples, freckles, or yellow patches, freckles, etc., vanishes or courses with the discarded cuticle.

TO THE PEOPLE OF NEW HANOVER.

Regardless of occupation or place of residence, the call to help in the army Y. M. C. A. comes to every man and woman in this country. This money is to be used to provide the connecting link between home and fireside and the young men of the army. The soldiers are recruited from town and country—the Y. M. C. A. is for all alike.

Your boy may be in the army. You, if neither may be there. Or you yourself may soon be an enlisted man. Think what a place for writing letters would mean to you. Think what a spot where you might have the pleasant environment of home would be, if you were in some camp. Then give of your means as freely as possible.

This has been a good year for the farmers of the South. They have been able to make money. The call comes now to use some of this in helping our soldiers. We must not fail them. We cannot afford to. Give if neither may be there. Or you yourself may soon be an enlisted man. Think what a place for writing letters would mean to you. Think what a spot where you might have the pleasant environment of home would be, if you were in some camp. Then give of your means as freely as possible.

New Hanover must and will give her quota. The call is imperative and must be met. It will be, but to delay is dangerous. Give today and give liberally.

THE COMMITTEE.

Miss Mary Clifford Bennett, and a lecture by Mrs. Annie P. Pretlow. This is the first club in the county to begin the study of domestic science. The class will start Tuesday morning at 11 o'clock. Under the leadership of Mrs. E. I. Especially noteworthy of the spirit of the community is the fact that every family in the school district except three signed the food pledges of the Food Administration.

French War Pictures.

A few invited guests yesterday witnessed the first production of the French war picture, "France in Arms" at the Royal theatre at noon. This picture was produced under the direction of the French war department, and shows every phase of the work and equipment of the armies of France. The film is booked by the Pathe Exchange, Inc., and is a very realistic picture of the tremendous preparations that the French have made for this great war. To see these pictures is to be impressed with the great magnitude of the war and the great cost of men and machinery that it takes.
