

PLANNING TO GOBBLE BICKETT'S PET LAMB?

National Republicans Are Looking This Way.

Washington Reports That Carolina Democrats Won't Enjoy a Partisan Year—Republicans After North Carolina.

BY S. H. WINTERS. Washington, May 12.—While Gov. T. W. Bickett's pet lamb, a partisan political campaign is slumbering in its lair, the republicans at national headquarters are shaping plans for making political capital out of any democratic inertia in 1918 in North Carolina.

Will H. Hays, national republican chairman, is to spend a week in the Tar Heel state, according to plans unrolled here yesterday. The information was obtained from a thoroughly trustworthy source, although the exact date of his North Carolina visit has not been fixed.

Senator James E. Watson, of Indiana is scheduled to spend ten days in North Carolina as one of the big guns of the republican party. The republican party boasts of his ability to defeat Thomas Tammert for the senate from Indiana and he is to aid in the campaign in North Carolina where rosy tinted hues have been pictured by some republicans. The information here is to the effect that Tennessee and North Carolina are the two southern states where active campaigns will be conducted by the national republican party.

E. C. Duncan of Raleigh recently gave out an interview to the Washington Post in which he stated that prospects were bright to rattle the republican party to defeat Representative Zebulon Weaver of the Tenth district and Representative Robert L. Doughton of the eighth district. The claims caused merriment in democratic circles in Washington.

LONDON PAPER ALLEGES TREASON IN LONDON

Recent Crises in Government Attributed to Crookedness in High Places. Same Influence in America.

London, May 12.—A great deal of attention is being attracted to the article in the current issue of the Observer in which the letter of Major General Maurice accusing the government of making misstatements about the military situation is described as the most perilous episode of public life during the war. The Observer says that General Maurice is not the leading figure in the affair, and that the source of the mischief is Colonel Repington, the military critic, working through the Morning Post, and that dubious sheet, the Naturalized News.

What the Observer refers to as the "Naturalized News" is the National News, a Sunday sheet started some time ago by a naturalized alien whose antecedents, the newspaper says, "ought to have prevented the board of trade from giving him a license."

The Observer declares the whole aim of the intrigue is to stab in the back at present the cabinet of the imperial staff, by Major General Sir Henry Wilson, by cause Colonel Repington has a private enmity against him and because the general has been the chief military addition of allied unity of command. The newspaper says this faction is playing the enemy's game on both sides of the Atlantic by attempting to bring the present war administration into disrepute, to breed dissension among the allies, especially between Premier Lloyd George and Premier Clemenceau, to spread suspicion and doubt, to mislead America and to insult Italy. Another purpose, it says, is to plead for Austria in a newspaper edited by a naturalized Austrian.

The Observer demands that the government ruthlessly put down treachery and assert the constitutional control of the army. "The ramifications of the recent mutiny must be traced," it adds. "Military intrigue must be crushed without compunction. The events of the last few days justify the hope and belief that Premier Lloyd George and Viscount Milner are the men to make an end to this mutinous nuisance."

WATERLOGGED AND ABANDONED SCHOONER HERALD TOWED IN

A Gulf Port, May 12.—Badly waterlogged, the four-masted schooner Herald, lumber laden, was towed into this port today by the Carrie W. Babson. Capt. Herman Woods, of the Babson said he found the Herald adrift about a hundred miles off this port on May 8. Indications were he stated, that the crew got away safely. All instruments and papers had been removed from the cabin. It is believed in marine circles here that the Herald, whose home port was said to be New York, was wrecked during a northeaster that swept the Gulf several weeks ago.

DOCTOR SAYS VINOL IS THE BEST TONIC

Honest Opinion Doctor Gave His Patient

Bedford, Ohio.—"I was in a pitiful condition, weak, nervous and run down so I could not do my housework. I had doctored for years and tried everything under the sun. A friend told me about Vinol. I asked my doctor about it, and he replied, 'It certainly is the best medicine that can be had today. I couldn't give you any better.' I took it, and today I am as well and strong as any woman could wish to be, and it was Vinol that saved me."—Mrs. Frank A. Horkey, Ash St., Bedford, Ohio. We guarantee this famous cod liver and iron tonic for all such conditions.

AMERICAN LABOR PARTY WELCOMED IN LONDON

George Nicoll Barnes, Speaks on the Irish Question—Cabinet Crises Soon Forgotten.

London, May 12.—George Nicoll Barnes, labor member of the war cabinet presided this afternoon at a great meeting in Kensington theatre under the auspices of the national war aims committee, held to welcome Martin F. Ryan, president of the Brotherhood of Railway Carmen, and Miss Agnes Nestor, president of the Women's Trade Union League of Chicago, who are members of the American labor mission now in London. Mr. Barnes said the letter of General Maurice to the press charging the government with concealing the real facts of the military situation was an incident which soon would be forgotten. There was a far more grave question in the situation in Ireland.

"It might seem that while we are fighting for small nationalities and leaving Ireland alone we are rather inconsistent," Mr. Barnes continued. "Things, however, are not so simple as they look when seen from a distance. Ireland has two units as they are widely separated in ideals and the outlook of ordinary life as it is possible for two peoples to be and the difficult problem is to harmonize public feeling in Ireland and at the same time uphold unity in the United Kingdom."

"Labor is in complete sympathy with Irish nationalist sentiment," the speaker asserted, "but the problem is the most difficult that the cabinet face today. The difficulties, however, must be solved. Ireland must have its parliament; so must Scotland and so must Wales. At the present time Ireland is doing little to take part in a war, which concerns her as much as any other part of the empire. Moreover, Ireland is absorbing many thousands of our soldiers who would much better be employed in fighting the Germans. It is up to us to find a way out of the difficulty and we must try to bring the two parties together."

The American labor representatives who have returned to London after a visit to France were under fire several times during their trip to the front, but none of them was hit.

EVERY ONE CAN HELP.

Government Solicits Aid of Citizens in Catching Traitors.

Washington, May 12.—Every citizen may act as a volunteer detective to assist government officers in detecting and exposing persons suspected of disloyal action or utterances, says a statement issued today by Attorney General Gregory. United States attorneys have been told to co-operate with newspapers in their districts so that public notice can be given of the nearest offices of attorneys or the bureau of investigation to which citizens may refer information that they think will be valuable in running down suspicious persons.

Hundreds of letters already are received daily by the department here from persons who believe they have discovered evidence of disloyalty. Although only a small part of the information proves of value, the department considers the system of sufficient worth to warrant its extension.

GERMAN MINE FIELD HAS DESTROYED SWEDISH TRAWLER

London, May 12.—A dispatch to the Exchange Telegraph from Copenhagen says the German mine field north of Gotheburg has brought disaster to the large Swedish trawler Agnes which struck a mine between Vingaa and Scavy. The trawler sank immediately. Eight Swedes on board were killed. Only two of the ship's company were saved.

DU PONT COMPANY DECLARES BIG RED CROSS DIVIDEND.

Wilmington, May 12.—A Red Cross dividend amounting to \$1,177,084 has been declared by E. I. Du Pont de Nemours & Company on its common stock to aid the Red Cross drive which begins May 20. This dividend is 2 per cent the largest amount yet set aside by any corporation to help win the war.

SWISS TROOPS AND CIVILIANS SUFFER GERMAN POISON GAS.

Geneva, May 12.—Swiss troops on the Alsatian frontier have begun to suffer from German poison gas blowing back from the western front toward the Rhine, Swiss newspapers say. The civilian population along the Rhine has been warned to provide itself with gas masks. The school children in Mulheim and Freiburg wear the gas masks daily.

Death to Traitors.

Paris, May 12.—Captain Mornet, the prosecutor in the case of the directors of the Bonnet Rougiam, the Germanophile paper, on trial for treason, ended up his summing last night by dramatically declaring sentence of death upon "Dussard and Marion. His words caused a sensation. He said he would leave the other defendants to the decision of the court.

Women's Committee Approved.

Washington, May 12.—Formal approval and support of the work undertaken by the women's committee of the cointactofaoinletactoin shrdiu council of national defense is given by President Wilson in a letter made public tonight on the eve of the conference of the committee which will continue through Wednesday.

DEATH BATTALION'S LEADER IN AMERICA

Madame Botchkareva, Russian Heroine, Laid at 'Frisco on Her Way to France, to Die.

San Francisco, May 12.—Mrs. Leonina Botchkareva founder of the famous Russian woman's "Battalion of Death," arrived here today from Russia, en route to France, where, she said, she expected to meet death on the battlefield.

Mrs. Botchkareva said since she left Moscow disguised in a Russian peasant's garb, she had been followed by agents of the Bolsheviks who sought to carry out instruction which, she said, have been issued by the Bolsheviks, to kill her on sight.

At a Far East port, Mme. Botchkareva said she was given sanctuary on an English man of war. "I formed the battalion of death," Mme. Botchkareva said "to avenge the death of my husband and to combat Prussian aggression in Russia. I am on my way to France where I will enter the military situation which that will accept me. I expect to die on the battlefield."

The Bolshevik regime, according to Mme. Botchkareva undermined the battalion of death and several members of the organization turned upon their leaders and administered a beating which, she said, had resulted in her being under treatment for some time.

GERMANY EMPLOYED TO QUIT FIGHTING RUSSIA

Bear That Walks Like a Man Is Lying On His Back Roaring For Peace. No Fight in Him.

London, May 12.—In a wireless message to Ambassador Joffe at Berlin, the Russian foreign minister, M. Tchitcherin, instructs the ambassador to "try to obtain from Berlin cessation of every kind of hostility." The Dispatch adds:

"Captures of our territory are in violation of the state of peace with Germany and are causing great unrest among the masses of our population. M. Joffe has been made to notify Germany that part of the Russian Black Sea fleet which has left Sebastopol, now is at Novorossysk, on the east coast of the Black Sea, which port the Germans are threatening to capture on the ground that their own warships are in danger of attack by the Russians. M. Tchitcherin says the Russian warships there will make no such attack.

A Reuter dispatch filed at Moscow May 12 says Germany announced that all armed vessels in the Black Sea, including any ships on which are sailors of the Russian Black Sea fleet, will be treated as enemies. The reason assigned for this action is an attack said to have been made on a German submarine in the Black Sea.

ALLEGED LYONERS OF PRAGER TO GO ON TRIAL TODAY

(Continued From Page One) acting on the advice of Attorney General Brundage of Illinois, immediately ordered an inquest, at which 30 witnesses were examined, one of them being Joseph Riegel. As the result of this inquest indictments were returned against six men. All were arrested and have been in the county jail at Edwardsville without bail.

Edwardsville, Ill., today held a grand jury met at Edwardsville on April 26 a transcript of all testimony given before the coroner's jury was introduced and as a result 16 indictments were returned, 12 being against civilians and four against soldiers; four being against policemen and charging malfeasance in office.

The case of Prager has attracted international attention. The mob acts were deplored on the floor of the United States senate. Federal officials at Washington instructed their agents in Illinois to lend all possible assistance in bringing the guilty parties to justice. Within a few days after the burial of Prager, the minister at Washington instructed Secretary of State Lansing that the German government had expressed a desire to bear the expense of the man's funeral. Later the secretary advised against such action and the state of Illinois paid all bills.

Reprisals on Americans. Heager reports that German officials were incensed over Prager's death were heard at intervals and this feeling apparently was reflected in a dispatch from Amsterdam on May 6 quoting the Zeitung am Mittag of Berlin. The editor of this paper declared that the German government might decide upon reprisals on American prisoners of war as to prevent the lynching of Germans in America from becoming a fashionable sport.

Prager was buried in St. Louis by the Odd Fellows' lodge of which organization he was a member. In answer to a request said to have been made by the dying man, an American flag was draped over his coffin.

IMPORTANT GAINS MADE BY FRENCH IN LATEST ATTACK

(Continued From Page One) again becoming active. The enemy last night deluged the place with machine gun bullets.

On the same front one of the American patrols found a number of bodies of Germans in advanced enemy trenches where they probably had been left during the heavy American bombardment on the night of May 4.

American patrols have entered the enemy lines in the sectors of Luneville and south of Verdun, but did not encounter resistance.

Official reports of the German losses in the Selcheper battle, according to prisoners recently captured, give 600 killed, wounded or missing.

AMERICANS FIND VILLAGE ABANDONED BY GERMANS.

With the American Army in France, Saturday, May 11.—By the Associated Press.—In the unenviable sector, our patrols early this morning established the fact that the hamlet of Ancerville has been abandoned by the enemy. The Germans had not even attempted to occupy shell holes in the salient which recently was torn up by our artillery. Quiet prevails today on all fronts in which there are Americans, according to reports. Poor visibility has prevented extended aerial activity.

BRITISH MINE SWEEPING BOAT SUNK BY HUN SUBMARINE

London, May 12.—The admiralty announces that a British mine sweeping boat was torpedoed and sunk by a German submarine May 9. Two officers and 13 men are missing and are presumed to have been drowned.
