HOW FIRST TWO HUN PLANES WERE DOWNED

Lieut. Winslow Gives Vivid De- 10,000 Red Guards Defeated By scription in Diary.

He and Lieut. Campbell the First Members of Pershing's Expeditionary Forces to Bring Down German Airplanes.

Washington, June 15 .- How Lieutenants Alan F. Winslow and Douglas Campbell, taking the air together, shot down the first two German airplanes to fall victims to American aviators with General Pershing's expeditionary forces, is vividly told in the personal diary of Lieutenant Winslow, made public tonight by the war department. For their feat the officers were decorated by the French government and later proposed for the American distinguished service cross.

The account discloses that the two machines were sent down within a minute of each other and almost on top of an American airdrome. Lieutenant Winslow, who was the

patrol leader, wrote that he and Lieutenant Campbell, since designated as the first American "ace," were on emergency call duty on Sunday morning, April 14, last, when, at 8:45 o'clock, information came that two German planes were about 2.000 metres above a city only a mile from the airdrome. "I had made a complete half turn," Lieutenant Winslow wrote, "and was at about 250 metres when straight above and ahead of me in the mist of the early morning, and not more than coming toward me with huge black crosses on its wings and tail. I was

so furious to see a Hun directly over the same time, to avoid my bullets, he elipped into a left hand reversement, and came down, firing on me. I climbed, however, in a right hand spiral and slipped off, coming down directly behind him and 'on his tail.' Again I violently opened fire. I had him at a rare advantage, which was due to the greater speed and maneuvreability of our wonderful machines. I fired 20 to 30 rounds at him and could see my tracers entering his machines. Then, in another moment, his plane

Never Equaled Opportunity for Men and Women Men's New Summer Suits

We know most men do not expect such unparalleled value-offers from a credit house, where they pay only a little each week or each payday. But we are giving you these values in the way you can see the values are bona fide. The prices stipulated by the manufacturers are still on these garments-the same prices you find on the same makes in the cash stores where you pay spot cash. That's one startling fact! But there's still another fact more startling: We give you full lines and sizes to select from, and besides beat the cash houses on new ideas and selection. Where the ordinary cash house shows you one or two makes, we give you nearly a dozen, including famous productions.
