

THEATRICAL

Beginning today, Virg. Downard and his Dreamland Maids will present their third big bill for the delectation of Royal patrons, another roaring musical comedy farce in which the inimitable comedy artist Virg. Downard will have his funniest role. New scenery and specialties, new wardrobe and new song and dance numbers will make this big week-end bill the biggest of the week. There has seldom been a show at the Royal which called forth more applause than this one, and a single kick is yet to be heard.

"The Bull's Eye"—Bijou. Eddie Polo and his co-stars will present at the Bijou today the latest two

NORMA TALMADGE IN 'THE MOTH'

real chapter of thrills of that big serial of punch and thrills, "The Bull's Eye." Polo is winning a new name for himself in this serial, and it bids fair to break all records for attendance before the week is out. Each chapter is replete with thrills and there isn't a moment the wonderful star is not pulling off some stunt that seems impossible.

The latest of the Little Mary McAllister's features in two reels, with this charming child star at her best, will entrance both children and grown-ups, in today's bill.

Famous Dolly Sisters Coming. The famous Dolly sisters, Broadway's favorite dancers, are the greatest advertised women in America, and their advent into the land of the mov-

THE DOLLY SISTERS IN 'THE MILLION DOLLAR DOLLIES'

ies by way of that imposing screen classic production, "The Million Dollar Dollies" at the Grand next Monday and Tuesday is a rare event in movieland. The charm of these clever girls fairly permeates the entire production which has been prepared with an oriental splendor in keeping with the brilliant story that has been written to display the talents and charms of the famous Dolly Sisters. It is a seven reel Screen Classic.

"The Moth"—Grand Today. From a would-be modern Cleopatra trifling with fate and forever in pursuit of pleasure, to an unselfish and devoted woman wrapped up in her two small children—for is the character transition portrayed by versatile Nor-

YOUR DAUGHTER'S CAREER.
The sensible mother realizes that she hasn't an enormous amount to do with the actual choosing of her daughter's or her son's career, because the factors that should govern such a decision as that are those of temperament and aptitude. Perhaps the best thing the parent can do besides providing opportunity for something of an education is to help suggest to the growing child those possible callings for which he may be best suited, or those callings which in the parent's mature judgment offer best chances for success and usefulness.

Relief from Eczema
Don't worry about eczema or other skin troubles. You can have a clear, healthy skin by using a little Zemo, obtained at any drug store for 35c, or extra large bottle at \$1.00.
Zemo generally removes pimples, blackheads, blotches, eczema, and ringworm and makes the skin clear and healthy. Zemo is a clean, penetrating antiseptic liquid, neither sticky nor greasy and stains nothing. It is easily applied and costs a mere trifle for each application. It is always dependable.
The E. W. Ross Co., Cleveland, O.

ma Talmadge in her latest screen drama, "The Moth" at the Grand today and tomorrow. This picture tells a story of life in a gay social set, of a loveless marriage and a marital tragedy that brings final happiness to the heroine and is a picture of elegance abounding in emotional possibilities and dramatic incidents. It is in seven reels.

MAXTON NEWS BRIEFS.

Chaplain at Home on Furlough—Personal Notes of Interest—Crops. (Special Star Correspondence.)
Maxton, June 28. Lieut. John Allan MacLean, chaplain at Camp Lee, Va., is on a ten days' leave spending the time here with his family.
He is just out of the hospital where he spent six weeks with a fractured right arm caused by his horse falling with him on a concrete road at the camp. His regiment left for France a month ago, and he expects to join them in the near future. His sister, Miss Essie MacLean, who has been visiting him the past few days, returned with Chaplain MacLean.
Miss Elizabeth Aiford returned Saturday from a visit to Bishopville, S. C. Dr. J. D. Croxson returned from Wrightsville where he attended the meeting of the North Carolina Dental association last week.
Mr. J. W. Carter and family have gone to Black Mountain to spend the summer in their handsome summer home there. Dr. D. W. Harris, his physician, accompanied them and will spend some time there also.
Mrs. D. O. Houser and children of Camden, S. C., are visiting her father, Major T. J. Wooten of this place.
Mr. J. S. McRae and family have just returned from Wrightsville where they spent two weeks. Mrs. Wiswell and children of Washington, are guests of Mrs. McRae for some time.
Cool nights the past few days have retarded the growth of cotton in this section materially. Up to this week, however, the prospects for cotton have never been better in this section. Corn has not done so well, but with good seasons recently, will make some improvement, no doubt.

CAPRONI HAS A MACHINE.

Decides It Capable of Flying From America to Europe.
New York, June 27.—Signor Caproni, the Italian airplane inventor, already has a machine capable of flying across the Atlantic and is ready to send it to this country or to build one here, according to his plans, the executive committee of the Aero Club of America was advised tonight by Lieut. Bolton, of the Royal Italian Flying Corps. Hundreds of aviators, he declared, would undertake the initial flight.
The plan, it was stated after the meeting, will be laid before the proper government officials in Washington, with the recommendation that Signor Caproni's offer be formally accepted through the Italian government. In his statement to Alan K. Hawley, president of the club, Lieutenant Bolton pointed out that the machines could be built in American airplane factories in large numbers and as there were plenty of airmen available for the service, there only remained organization, faith and skill to make trans-Atlantic flying successful.

Paris Street for Wilson.

Paris, June 27.—The municipal council of Paris, meeting in budget committee today, voted unanimously by acclamation that the Avenue Trocadero should henceforth bear the name of President Wilson. It was also decided that the nameplates should be in place before the fourth of July. The vote as a formality must under the law be approved in a public meeting. The council in honoring President Wilson, suspended one of its own regulations forbidding the names of living persons in naming streets.

Pure Water for Soldiers.

Washington, June 27.—To provide pure drinking water for American soldiers in the trenches and at other places where permanent waterworks have not been established, mobile water trains have been constructed and are operating in France under jurisdiction of the army medical department. A statement today by the surgeon general says each train is a miniature water filtration plant and carries an expert chemist, bacteriologist and pump man.

No Bolshevism for Benson.

New York, June 27.—Allan S. Benson, socialist candidate for president in 1918, resigned from the party tonight. He described his withdrawal as "a protest against the foreign-born leadership that blindly believes a non-American policy can be made to appeal to many Americans." He declared that he could not remain in a party which places all the belligerent nations, including those dominated by German imperialism, on an equal footing.

Services in Demand.

At the present juncture there are not nearly enough domestic science and household arts experts to meet the demands. Education is the great patriot's way of the average woman and the best way to show the average woman how to do her bit in this way is to have her instructed along the lines of scientific food preparation and conservation. You know yourself that of all the courses you had in high school the one that has made you best able to do your part to help the Food Administration was not the course in United States history in which you learned to say the Declaration of Independence or to name the 13 original states, but the course in domestic science.
Wars of the future are all going to be waged partly as this has been, that is, from the inside out—and the importance of the right handling of food question will never again be overlooked. Not only wars—for we are somehow hoping that there will be no more for us in our day—but all national or social crises are going to be faced as something that the housewife can help to solve through the application of scientific knowledge to the household economies. Periods of financial or industrial depression that come in the future will doubtless be regarded in part as questions for the housewife, and there is going to be an enormous demand for leadership in this new field of knowledge. Already a long, loud call has come for more experts in this line. It is going to be a tremendously important profession in the future and this you should remember when the time comes to giving suggestions to your daughter for the choice of her future calling.

AMERICAN CASUALTY LIST

Washington, June 27.—The army casualty list today contained 80 names, divided as follows:
Killed in action, 28; died of wounds, 5; died of accident and other causes, 4; died of airplane accident, 2; died of disease, 2; wounded severely, 31; wounded, degree undetermined, 4; missing in action, 2.
The list includes the following from southern states:
Killed in action: Bugler Richard M. Luter, Martin, Tenn.; Privates Porter M. Pifer, Clanton, Ala.; Loony Smith, Iuka, Miss.
Died from accident and other causes: PPrivate Jack Brown, 1413 Gadsden St., Columbia, S. C.
Wounded severely: Corps. Omer G. Smith, Fouke, Ark.; Rayburn E. Williams, Clifton Forge, Va.; Privates Ernest Kimbrell, E. E. D. 2, Sparta, S. C.; John F. Mumaw, Dayton, Va.
Jewish Helpers Wanted.
Washington, June 27.—A call for 100 workers for overseas service with the American expeditionary forces was issued here tonight by the Jewish welfare board, army and navy. Volunteers must be men between 21 and 50 and they will be required to pass a physical examination.
Rotary for Service.
Kansas City, June 27.—A resolution pledging "unqualified support of the principle of universal obligatory training for all young men before the voting age," was adopted unanimously today at the ninth annual convention of the International Association of Rotary Clubs.

HOW THIS LITTLE BOY

Recovered Strength After Sickness.
Garrett, Texas.—"The measles left my little boy aged nine years in a very weak, run down condition—he coughed a good deal, and as medicines did not seem to help him, we finally took him out of school, and thought he would never be strong again." One day I read about the cod liver and iron tonic known as Vinol, and such a change as it has made in my little boy—it stopped his cough, he is now back in school, strong and well."—Mrs. E. A. Wright.
There is nothing like Vinol to restore strength, appetite and vim to pale, sickly children. We strongly recommend Vinol for this purpose. R. R. Beasley and druggists everywhere.—Adv.
