curther Recovery Follows Continued Reports of Crop Deterioration and Good War News.

New York, Aug. 9.-There was a furbut the close was steady at 29.18 for October and showed a net advance of ports from the southwest. There was considerable realizing but otherwise offerings were very light and the marsome 80 to 100 points offerings increased sufficiently to cause setbacks of 20 or 30 points, but they were well absorbed and the market was very firm during the middle of the afternoon. December sold up to 28.90 and January to 28.80 or 94 to 95 points net higher and the close was within a few points of the best.

NEW ORLEANS COTTON.

New Orleans, Aug. 9 .- War news was again the one great factor in the cot ton market, although the drought in Texas still attracted attention and i caused enough buying to put prices up nearly a cent a pound. The opening was at the advance and a wide improvement in values was maintained Montgomery-Middling, 29.50; sales, 6. throughout the session, although there was considerable profit-taking at times and moderate reactions were frequent At the best of the session the active Comparisons are to actual dates not months were 90 to 95 points over yesclose of corresponding weeks. In terday's close. Last prices showed net gains of 82 to 85 points.

Favorable war news caused the higher opening. The dry weather map and the forecast of continued fair weather for Texas increased the demand after the call and during the morning the inquiry was further stimulated by reports of fresh successes by the allies Port receipts same date last year, 50. These reports throughout the day kept the undertone firm. Offerings by satisfied longs were constantly absorbed United States Steel, pfd. 110 by the new buyers.

Mill takings for the week were small. 133,000 bales, but bearish traders were unable to make use of them because of the excessively small into-sight movement into sight for the week which amounted to only 23,066 bales, causing a decrease in the visible supply of 110,889 bales.
