

Wilmington and New Hanover Registrants of the Class of Sept. 12

Following are the registrants in the class of September 12, 1918, who are within the jurisdiction of the Wilmington city board, with their serial numbers. At the conclusion of the city list, on another page, is the list of registrants in the district of New Hanover county. From these men will be selected in the fair, impartial and democratic selective draft scheme, the men who will in succeeding months go to camp for training, and thence overseas to carry on the work so nobly begun by other Americans who were first called to the colors in the world war against barbarism, military oppression and the rule of armed might over helpless peoples.

Elsewhere in the paper today are the order numbers, drawn in the lottery at Washington September 30, October 1. A registrant will first ascertain in his serial number, and then ascertain the order number corresponding with it. In the county list, he first locate his name, as the list is alphabetical, get his serial number, and then find his order number in the letter list.

Even then, however, his numbers for the present will mean little, because of the various classifications. After his questionnaire is completed and filed, he will be classified, and though his order number may not be called at all, for the other hand, because of this classification, a man's number may be at the bottom of the list, and yet he may be among those called in the course of a few weeks months.

For the present, only those registrants whose ages are between 19 and 31 inclusive, will be classified. When these are exhausted, the registrants between 17 and 18 inclusive, will be called, and last, the 18-year-old boys will be called.
