"Undoubtedly, the weekly payment plan, which is in operation by the several Building & Loan Associations, of Wilmington, is the easiest and most systematic method I know of for those of limited means to provide homes for their families.

"To those who may build homes, as an investment, I wish to commend, for they not only aid to build up this city but also are aiding our country, in its time of need and are performing a patriotic act by providing homes for the ship builders."

MR. LEWIS R. FERGUSON, General Manager of the Liberty Shipbuilding Company Writes:

"I regard the Building & Loan plan of saving money to build and pay for one's home, when properly regulated, the surest, safest and most systematic plan yet devised, and I heartily recommend it to every ship builder who wishes to own his home.

"In this connection, it is the patriotic duty of those of means to build houses and provide accommodations for the ship builders."

DARDANELLES BEING CLEARED OF MINES

Latest Types of British Mine-Sweepers Begin Work.

If the War Continues a Few Weeks Longer It is Believed the Allied Fleet Will Have Engagement in Black Sea.

London, Nov. 1.—A large fleet of the latest types of British mine-sweepers today began the tedious task of clearing the Dardanelles of mines and other obstructions. This work, together with other safeguards which the allies consider to be necessary before the allied fleet enters the tortuous waterway leading past Constantinople and through the Bosphorus to the Black Sea, will take several days in the opinion of the British admiralty.

A fortnight ago the allied fleet tested the efficiency of the forts inside the Dardanelles by dropping a few shells on them. The reply of the Turks was quick and fairly accurate, showing that the fortifications are still probably in good shape. The 50-mile passage through the waterway is a veritable sea of mines and there are other obstructions which it will take some little time to remove.

The allied fleet, it is believed, is sure to come to grips with the old Russian fleet in the Black Sea, if the war continues a few weeks longer. There is every reason to believe that the Germans have put their fleet in good order. It consists of seven pre-dreadnoughts, two cruisers and 12 submarines, besides at least 26 other types of war craft. The enemy has the advantage of three good bases in the Black Sea—Odessa, Sebastopol and Nikolaiyev—but it is likely they are short of ammunition. At Nikolaiyev four cruisers are being built. One of them is nearly completed.

SAYS MR. WILSON'S LOYALTY IS SELFISH

Colonel Roosevelt in Message to Senator Fall Defends His Record in The War.

Oyster Bay, N. Y., Nov. 1.—In a telegram tonight to Senator Albert B. Fall, of New Mexico, Col. Theodore Roosevelt again charged that President Wilson "puts loyalty to himself above loyalty to the war."

Col. Roosevelt said he had learned of the president's act with "amazement" declaring the socialist platform "denounces the war and declares for what is in effect a German peace in language which makes it out of the question to treat as a loyal American can any man who at this crisis runs on such a platform."

The colonel said no man in congress during the last five years had a "more absolutely straight American and war record" than Senator Fall and expressed the hope that he would be returned to the senate "with practical unanimity."

Col. Roosevelt's telegram was in comment on a message of the president to the socialist candidate for the senate in New Mexico, expressing the hope that Senator Fall would be defeated on the ground that he had not been a supporter of the administration.

Friends in the city will be glad to learn that word has been received from Lieut. Edward Roberts of the royal artillery corps of Canada of his safe return to St. John's, Nova Scotia, on a hospital ship, having been gassed in one of the recent battles on the front.

The boys together with his friends will be glad to learn that he anticipates visiting Wilmington some time during the coming winter.

WOULD PUT CHECK REINS ON WILSON

Taft Urges Election of a Republican Congress.

So That the President Would be Held to Unconditional Surrender and Not Allowed to Make Peace By Negotiation.

Portsmouth, N. H., Nov. 1.—Former President Taft urged New Hampshire voters, in a speech here tonight, to elect republicans to congress so that President Wilson would be held to an unconditional surrender by Germany and not be allowed to make a peace by negotiation.

Mr. Taft objected to the president's appeal for the election of democratic candidates for congress on the assumption that a democratic majority in both houses would make the president the unembarrassed spokesman in affairs at home and abroad.

"The character of the president's appeal," said Mr. Taft, "discloses his utter misunderstanding of our constitutional form of government. The appeal is a demand for power during the next two years equal to that of the House against which their faces are set like flint, to wit, peace by negotiations. His appeal for unrestrained power is unprecedented in the annals of the country and it is as un-republican as it is unnecessary."

Speaking of the settlement of questions of industry, transportation, government ownership and operation, labor and capital after the war, Mr. Taft said these measures needed "the deliberations of an independent and courageous congress, not under the control of the executive and not subject to academic ideals and theories except as these are modified and made practicable by a consideration of existing conditions and a practical knowledge of what can be achieved in human nature's daily regime."

"Never in peace or war," continued Mr. Taft, "have we had a more partisan administration than during this critical period in the nation's life."

DECLARED A NON-RESIDENT TAXES CANNOT BE COLLECTED

Richmond, Va., Nov. 1.—Marie Marshall was today declared a non-resident held due on \$6,000,000 worth of stocks, could not be collected, according to the decision of Judge D. Gardner Tyler, of the circuit court for the county of James City. The court held that the fact that a person testified to being a resident of a state did not constitute a legal residence.

Some years ago an action was filed by the state of Virginia to collect the taxes held due for the past thirty years. Investigation developed that Marie Marshall was escaping the payment of the taxes in New York on the claim that she was a resident of Virginia. She has been an inmate of the eastern state hospital since she was 13 years old.

LENOIR COUNTY MURDERER MAY HAVE JOINED THE ARMY

Made His Escape From the Authorities Several Years Ago. (Special Star Correspondence.)

Kinston, Nov. 1.—That Alfred Lynch, much-wanted murderer, who evaded the police of New York and possibly other cities several years, has prospered and may have joined the army recently is information to the Lenoir county authorities.

Lynch, part negro and part Indian, killed Manley Hatch, white, who handled funds at timber operations in a county south of here, some years ago. The crime is regarded as one of the worst ever committed in this part of the state. For many months the authorities endeavored to locate him. When intelligence came that Lynch was in New York the aid of the metropolitan police was requested. They failed to locate him, and an officer went from this city to search through the city for the slayer.

When Lynch killed Hatch and robbed the body, which he took little pains to conceal, he made a sensational getaway. He came to Kinston. He escaped from the police in an exciting automobile race. The recent information regarding him came from a negro who states that he saw Lynch at New York and that the latter paid his fare home and insisted upon his departure. Lynch considered the other's presence a menace to him.
