

AND FORMER FOES TO FEED CIVILIANS

Col. House's Resolution Adopted At Versailles.

American and Allied Governments to Co-operate with Austria, Bulgaria and Turkey in Relieving Famines Stricken.

Washington, Nov. 5.—The allied and American governments are to co-operate with Austria-Hungary, Bulgaria and Turkey in furnishing food and supplies for the suffering civilian populations of those countries.

At the conclusion of the meeting of the supreme war council yesterday, said Colonel House's message, "I proposed a resolution in the following sense and the same was adopted:

"The supreme war council in session at Versailles, desires to co-operate with Austria, Turkey and Bulgaria in the making available as far as possible of food and other supplies necessary for the lives of the civilian population of those countries."

This announcement is expected to have far-reaching effect in Germany where, from all accounts, the food situation is only a little less serious than it is in the countries until recently allied with Germany in the war.

Food administrator Hoover, it was said tonight, is working out new food conservation plans to assure supplies not only for the people of the nation that have been eliminated from the war, but also the liberated populations of Belgium and northern France and even Germany when that country has accepted armistice terms now in the hands of Marshal Foch.

RUSSIAN NEWSPAPER MEN SUFFER MOST

Are Condemned by the Bolsheviks to Lateral Starvation—Unable to Find Employment.

London, Sept. 27.—(Correspondence of the Associated Press).—Newspaper men have suffered more than any other class of Russians from the Bolshevik regime.

From the very first day the Bolshevik assumed control of the country fines, imprisonment, and suppression of papers were more frequent than even in the worst periods of the emperor's rule.

The only republicans elected in Tennessee, North Carolina and Georgia with the race between Senator Shields and Henry C. Evans in Tennessee the most formidable contest in the South since the war.

State tickets were contested in only two states, Alabama and Tennessee, and in the former democrats were elected by overwhelming majorities.

Whenever public dissatisfaction became too pronounced the government suppressed all non-Bolshevik, "bourgeois" newspapers.

Barring the official Ivestia, the Police Gazette, as some workmen call it—published by every local soviet, and the organs of the Bolshevik and Left Social-Revolutionary parties, not a single newspaper is published in soviet Russia at present.

DEATH OF MRS. JONES

Suffered Attack of Influenza, Improved and Died a Week Later.

(Special Star Correspondence.)—Mrs. Jones died early Sunday morning at the residence of her mother, Mrs. Lizzie Morris in Monroe Park of this city, after a brief illness.

Immediate relatives surviving her husband, mother, and four sisters, Misses Ina, Lillie and Flora Morris, of Sanford, and Miss Minnie Morris, of Asheville. Drs. W. A. and J. P. Monroe are uncles.

CONFERENCE VOTED IN FOREIGN MINISTER PINCHON

Paris, Nov. 5.—Pierre Renaudel, leader of the moderate socialists, interpellated the government in the chamber of deputies this evening, stating that a declaration should be made on all negotiations, thus ending secret diplomacy.

Mississippi Amendments Defeated. Jackson constitutional amendments voted on today one seeking to lower the qualifying age for governor from 30 to 21 years and the other providing for a classified property tax.

SOLDIERS RECEIVE PURE WHITE BREAD

Is Distributed Daily By the Trainload in France.

American Regulation Base, France, Sept. 30.—(Correspondence of the Associated Press).—Bread for the American soldiers is brought here by trainloads from the great army field bakery a few miles distant—one train of thirty cars a day all loaded with white bread from the best wheat flour.

One such train was arriving as the Associated Press correspondent visited the base. Another trainload of refrigerated beef arrived soon afterward from the great refrigerating plant at Gievre.

It was the same with other classes of supplies, rations, forage, fuel and oil—all came in huge bulk to this concentrating and distributing point, for this is one of the great nerve centers of supplies for the fighting men.

Here the trainloads are broken up into fifteen parts, two cars to a part and each part goes toward making up a new "automatic train" carrying supplies of all kinds to the front.

Putting yard engines were doing the work of splitting up the trains and reforming them. Gradually the confused mass of cars, the bread and meat trains melted away and the 15 automatic trains took definite form.

As they were completed they moved out to sidings to take their turn in the steady stream of trains moving out to the fighting front. This is the process, repeated day after day, in the formation of the automatic trains, that marvel of transportation that has so bewildered and surprised the foreign observers.

The last stage as the supplies pass to the troops at the front is where the automatic train reaches the rail-head of the division. Each American division has its fixed rail-head, or terminal, where the train delivers its daily quota. This is as near the troops in the field as fighting conditions will permit.

But in many cases it is not possible to bring the division rail-head close to the front, so that in these cases camions transit fill the gap between the rail-head and the actual line.

A rail-head officer is in charge at the division rail-head, and he reports to headquarters here as to the strength of men and animals in the division, and its varying needs caused by active fighting or periods of repose.

From the very first day the Bolshevik assumed control of the country fines, imprisonment, and suppression of papers were more frequent than even in the worst periods of the emperor's rule.

ALL S. C. DEMOCRATIC NOMINEES ELECTED

Congressman Lever's Opponent, a Negro, Receives Less Than One Hundred Votes.

Columbia, S. C., Nov. 5.—With probably not more than 20,000 votes cast and little interest shown, all democratic nominees in South Carolina were elected today. Only one representative in congress had opposition. A. F. Lever, chairman of the agricultural committee being opposed by R. H. Richardson, a negro. Indications are that the negro candidate received less than 100 votes in the six counties of the district.
