October Tapestry.
 Like a weaver's hand, October,
 For his warp he uses sunbeams—
 Threads of palpitating gold—
 And the loom spread out before him
 Is the forest dim and green,
 While his shuttle flying swiftly
 Is the wind of autumn keen.

For his loof he chooses colors—
 Amethyst and purple loof,
 In the grain of early frost;
 Vivid carnine, saffron, amber;
 Faded tints the summer left—
 Mauve and lilac softly blended—
 All these from October's weft.

All day long I hear the music
 Of his shuttle and his loom;
 All day long I watch him weaving
 Till the stars begin to bloom.
 And the figures on his loof,
 As each day they brighter grow,
 Seem the forms and flower-like faces
 Of the Junos I used to know.

MR. AND MRS. BELLAMY ANNOUNCE ENGAGEMENT OF DAUGHTER
 Of state-wide interest is the announcement of Hon. John D. Bellamy and Mrs. Bellamy of the engagement of their daughter, Mary Hargrove, to Lieut. John Leeds Barroll, Jr., of Philadelphia, Pa., who is now in active service with the American forces in France.

Miss Bellamy, since making her debut a few winters ago, has been a most popular member of Wilmington society and the announcement of her engagement will be received with much interest by her large circle of friends, both in the city and throughout the state.

LIEUT. BELLAMY'S ESCAPE AND SUBSEQUENT REPORTS
 Mr. and Mrs. R. Bellamy of this city, although official sources have been searched vigorously, have been unable to secure official news of their son, Lieut. R. R. Bellamy, whose wound and capture, have been reported, as well as his subsequent escape and arrival at an allied hospital. Yesterday's Charlotte Observer carried the following:
 "Mrs. Hargrove Bellamy, formerly Miss Sarah Erwin of Durham, recently a cablegram Sunday stating that her husband, Lieutenant Bellamy, had lost an arm and was in a French hospital, after having escaped from a German prison.
 "For some days Lieutenant Bellamy

WOMEN VOTERS SPENT OVER \$7,000 IN THE CAMPAIGN

Washington, Nov. 5.—The National Women's Suffrage Association, through Mrs. Carrie Chapman Catt, its president, reported today that the campaign had expended \$7,693 "to defeat Senator Biard in New Jersey; Senator Weeks in Massachusetts and Mr. Moses in New Hampshire." The sum of \$4,293 was expended in New Jersey in behalf of Charles O. Hennessey candidate for the senate, and much smaller amounts in Massachusetts and New Hampshire for printing and mailing circulars.

Louisiana Defeats Suffrage

New Orleans, Nov. 15.—Early indications are that the woman suffrage amendment to the state constitution in Louisiana will be beaten. With 60 per cent of the total vote in New Orleans counted the amendment is running 6,113 votes behind. It is estimated that the majority against the amendment in the city will reach 11,000. Scattering returns from the state show small majorities against the amendment.

 carried overwhelmingly. Senator Simmons proved "strong as hell," to use an expression of one of his ardent supporters. Very little interest was manifested in any of the precincts and the republican vote was unusually light.

Scotland Gives Simmons 715

Laurinburg, Nov. 5.—Scotland county gives a democratic majority of 715, with the same for Simmons and Congressman Lee D. Robinson and the amendments and state ticket generally. The republican vote was 34.

1,500 Majority in Edgecombe

Tarboro, Nov. 5.—The estimated majority for the state and county democratic tickets is 1,500 with 1,300 for the two constitutional amendments.

Lenoir Democrats Won

Kinston, Nov. 5.—Lenoir county today elected the following democratic candidates:
 John G. Dawson, representative in the general assembly.
 Jesse T. Heath, clerk of superior court.
 A. W. Taylor, sheriff.
 Carl W. Prigden, register of deeds.
 John H. Dawson, treasurer.
 D. Eugene Wood, coroner.
 R. F. Churchill, D. W. Wood, A. T. Dawson, T. G. Sutton and Parker Howard, commissioners.

Major Stedman's Majority 3,000

Greensboro, Nov. 5.—Friends of Congressman Stedman tonight estimate his majority over John K. Kurfess of Germantown at 3,000. The vote was rather light in all counties except Forsyth, where a big vote was polled. Guilford county gave majority of more than 1,000 for the democrats. Solicitor Bower is re-elected by majority of 800. Alamance, Caswell, Durham, Forsyth, Granville, Guilford, and Rockingham have gone for Stedman, while Stokes and Surry went for Kurfess. Orange and Person are about even.

Robeson Outdoes Itself

Lumberton, Nov. 5.—Robeson county has gone democratic by the largest majority in several years. The vote was around 3,000 and the democratic majority around 2,000. This is considered a very good vote considering the number of men in the army and the conditions brought about by the recent influenza epidemic. Several townships that have been going republican for several years went democratic today. A few townships went solidly democratic, not a republican vote being cast. Simmons and Godwin led the ticket apparently. Both amendments were carried by large majorities.

Status Quo in Brunswick

Southport, Nov. 5.—The democratic county ticket received a majority of 127 in this township in the election today. Late tonight nothing had been heard from other parts of the county. In this county both parties agreed in their respective platforms to have a politicsless year and the status-quo as to the county offices was preserved in the voting by both parties today, it is estimated.

Sampson as Usual

Clinton, Nov. 5.—Official returns from the 16 precincts of this county indicate that Sampson has gone republican by its usual majority of 1,500. The voting, however, was lighter than usual, indicating that many voters did not come to the polls. There has been some soreness among farmers over the decline of cotton prices which they attributed to the president's threat to fix prices.

Large numbers of these people have been moving east from Greensboro during the past few weeks.

Last Call For Bonds.

Persons holding Liberty bonds bearing four per cent interest have little more time to take advantage of the treasury offer to convert them into bonds bearing four and a quarter per cent. The time limit is the 15th, but that means that the bonds must be in the treasury at Washington by that time, and locally, anybody who wants to take advantage of the offer of an extra quarter per cent, had better attend to it today.

Mr. Dempsey has 10 acres this year and his yield will average about 300 bushels the acre. The yield of tubers varies from 200 to 400 the acre. Important Points For You to Remember

About Children's Shoes

COMFORT—Children's feet are growing feet. They grow both ways. It's not only necessary to get shoes long enough, but they should be built on lasts that allow plenty of room for the little feet to expand in a natural way.

SERVICE—Because of the rough usage to which children's shoes are exposed, they must necessarily be made well of thoroughly reliable leathers.

STYLE—The element of "style" is important because no matter how good the quality or how comfortable the last, you wouldn't want your child to wear shoes that were not good looking.

Our children's shoes embody all these important points and in addition, they are very reasonably priced.

We have the shoes that give comfort and service and live the style. See our window for full display.

NEWS OF THE SOLDIERS.

First Sergeant "Bill" H. Kelly, who is proud to hail from the good old town of Wilmington, has been enjoying the very exciting life at the front in France, together with his battery, the 8th anti-aircraft, which, as is well remembered by many, left the fort on a sunny Sunday early in the spring amid joyous shouts from the boys and thrilling music by the fort band. "Bill" writes to friends in the city thus: "We have had some very exciting experiences that most of us will never forget. We have been through many villages and towns that have been occupied by the Germans, and while at the front we were quartered in an old deserted house that had received a puncture or two by the Boche shells, none of which were delivered, though, while we occupied the house. Quite a few did drop pretty close on a number of occasions and we had a good chance to see how they acted. We are now located a good ways back, away up in the hills of hilly France, and there is some of the prettiest scenery imaginable surrounding us. We are getting good food and have a fine place to sleep, so what more could we wish for? From the looks of things over here now I don't think it will be so very long before we are back in good old 'Etats Unis.' The Boche is surely on the run now, and I for one hope he will forget to stop."
