## DER TAG UND DIE NACHT.

Der Tag their daily toast  
With lust abtirst,  
And new worlds bubbled as the corks  
were drawn,  
And honor was a ghost  
And good was cursed  
As red-rimmed eyes grew redder with  
the dawn.  
But ho for die Nacht! Die Nacht is  
here,  
As black as the Pit's own dust,  
With only the glint of a flaming spear  
In God's right hand out-thrust.  
Der Tag! A word of steel!  
A clang of speech!  
A sword that carved huge helmets out  
of stars!  
A breath so hot to feel  
It could outreach  
And forge pale crescents into scimitars!  
But ho for Die Nacht! Die Nacht at  
last.  
Comes sweeping its sabies wide,  
A pall for the bad Kings overcast,  
The bad gods who have died.  
Der Tag! How tigers' teeth  
Bit out the word  
A precious morsel to the cankered  
tongue.  
As from the skies beneath  
The watched dawn stirred  
And down the world the madmen's  
chariots swung!  
But ho for Die Nacht! Die Nacht sweeps  
down  
Like ebony waves unrolled!  
O night of the King! O night of the  
crown!  
O night of the lava cold!  
—John O'Keefe, in N. Y. World.

The officers carried with them a search warrant but were able to find only one pint of liquor on the premises. The woman has been under suspicion by the police for some time and her arrest last night was the result of a quiet investigation going on for some days and nights.

**City Water Brackish.**  
Because of a protracted period of dry weather, the tides are bringing salt water far up the river and the city water has been affected, having become brackish. Local laundries have made complaint that it cannot be successfully used in their operations. Dr. Charles E. Low, health officer, states that nothing can be done about it, and only rains will remedy it. He declares that while the water does not taste so well, the fact that it doesn't is no indication that it is unfit for household use, that from a health standpoint it is all right.

## SIGHTSEERS EAGER TO SAIL FOR EUROPE

**Steamship Office in New York Already Receiving Hundreds of Inquiries Regarding Passage.**

New York, Nov. 13.—Already American sightseers wish to go to Europe. Allied steamship offices today received hundreds of inquiries as to when the ban on passenger travel would be removed. Inquirers were told that the rigid war restrictions would remain in effect "until further notice," all allied ships, as well as American, being still under government control. It was the opinion among steamship officials that the time for resumption of private steamship travel on any extensive scale was a long way off. The neutral lines, however, were preparing today for a prospective large increase in business and a resumption of regular sailings. Several of the largest neutral flag steamships are in this port, the Dutch steamer Nieuw Amsterdam, the Norwegian steamer Storkholm, the Swedish steamer Stockholm and the Danish steamer United States, all being made ready for sailing. For all of these ships, it was said at the offices of their owners, there are applications for more than sufficient passages to fill all accommodations, but no passage is definitely booked until the applicant has complied with all war-time regulations imposed by the United States government.

## To Avoid and Relieve Influenza

By Dr. Franklin Duane.

Many people have been frightened by what they have read or heard of influenza. The more you fear the disease, the surer you are to get it. Go right about your business and forget it. As the disease is spread principally by contact through sneezing, coughing or spitting, many health authorities have advised that everyone wear a gauze, which is daily washed and saturated with a one to five hundred solution of zinc sulphate in water, and then dried before wearing over the nose and mouth. You should avoid crowds, common drinking cups and public towels. Keep your strength up by taking lots of exercise in the open air and plenty of nourishing food.

If you have any of such symptoms as chilliness, nasal obstructions, flushed face, headache, feverishness, restlessness, weakness, or irritating cough, give up work at once and go to bed. This will save your strength to help overcome the disease. Put your feet in hot water for fifteen minutes. Thoroughly loosen the bowels with some such mild and non-irritating physic as Dr. Pierce's Pleasant Pellets. Drink principally hot lemonade and then cover up with plenty of clothes in same way as to get a good sweat. When sweating is free and the fever reduced take a dose of two Anuric Tablets every four hours, followed by drinking at least a glass or two of hot water. Anuric Tablets help quickly to relieve the soreness of the muscles and bones from which most patients complain and help the kidneys flush out the poisons.

To relieve nasal obstructions and excessive discharge from the nose, probably nothing is better than a mild, soothing, antiseptic wash as Dr. Sage's Catarrh Remedy. It will give great relief. Employ a syringe, in same strength as made up for use in the nose and as hot as can be borne, it quickly arrests soreness and dryness in the throat.  
Influenza weakens the patient's resistance to disease, so that there is danger of bronchitis and pneumonia developing. To combat this tendency and fortify the patient's strength insist that he keep in bed at least two days. Probably nothing will at this stage hasten the recovery and strengthen the patient more than an iron-ionic tablet called "Frontin" or that well known herbal tonic, Dr. Pierce's Golden Medical Discovery, which has been used by thousands in the past two generations.—adv.

## NOTICE!

Effective Tuesday, November 12th, our present daily city delivery service will be curtailed for the winter, as follows:

**RETAIL WAGONS** will make one delivery north of Market street and east of Tenth street on Monday, Wednesday and Friday. South of Market street and west of Tenth street on Tuesday, Thursday and Saturday.

Service to stores and offices in business districts will be maintained daily, except Sunday, as far as possible.

**WHOLESALE WAGONS** will serve north of Market street on Tuesday, Thursday and Saturday. South of Market on Monday, Wednesday and Friday.

Special service will be rendered customers handling perishables in bulk, such as fish, meat, etc., upon reasonable notice of requirements.

There will be no increase in prices for the present, and we hope not at all. This depends upon the success of our efforts to reduce excessive delivery service and cost. The present minimum wholesale delivery will, however, be increased from 1,500 pounds to 2,100 pounds. That is, customers must buy 2,100 or more pounds for one delivery in order to get the benefit of the wholesale price.

These changes are made in order to conserve man power, mule feed, gasoline and wear and tear, in accord with the wishes of the War Industries Board. The co-operation of the public is earnestly requested. Please try to help us by having your ice box ready when wagons call, have proper change or ticket ready for quantity wanted, and see that proper weights are delivered. Generally speaking, our drivers are good reliable men, but it is not possible to carry experienced ice men on wagon at all times. Worthy complaints are welcomed. They help us to maintain good service.
