

## ROBESON FAIR TO OPEN ON TUESDAY

Will Last Four Days and Be "Bigger and Better."

Peace Demonstration in Lumberton Monday Surpassed Anything That Ever Happened in That Town—Robeson News.

By F. GROVER BRITT.

Lumberton, Nov. 16.—Everything is being put in readiness for the annual Robeson county fair which will open here Tuesday morning, November 19. The fair will last four days and indications are that the fair this year will be "bigger and better" and draw larger crowds than previous fairs. Besides the farm exhibits, the midway and other attractions will be here.

A feature of the fair will be the better babies contest on Thursday. The best all-around baby will be awarded a prize. The fair will be held in the Star tobacco warehouse, First street.

The biggest demonstration Lumberton has experienced in many years, perhaps, ever, was put over Monday. The four cotton mills here closed down for a non and the employees were given a half-holiday. Everything calculated to make a noise was brought out and in the practically everybody took part in the celebration brought about by the news that Germany had signed the armistice.

A crowd that filled the court room attended a peace celebration Monday evening. The celebration was held in connection with a meeting called in the interest of the united war workers drive for funds. J. P. Russell, a Lumberton man who heads the drive, gave the address. He said the drive has been going on for several months, was the principal speaker of the occasion.

A telephone message from the Star office first brought the glad news to the Lumberton and soon the arrival of the Star satisfied many minds that the armistice had actually been signed. The demonstration lasted well into Monday night.

Indications are that Robeson will reach its allotment in the united war drive. Many townships are way "over the top." The campaign has progressed very satisfactorily in Lumberton, regarding the fact that the drive has been some noted opposition. Home will not be sweet to some after the boys come home.

The remains of Duncan Kinlaw of the U. S. navy arrived here Tuesday from Portsmouth, Va. where he died Sunday. Deceased was a son of G. B. Kinlaw of Route 3, Lumberton and had been in the navy two years. Death resulted from influenza-pneumonia. Interment was made at Back Swamp church Wednesday at 10:30 a. m. Mr. Kinlaw is survived by his wife and three children, the youngest one month old.

A memorial tablet, bearing the names of Robeson soldiers and sailors who have given their lives in the fight for freedom of the world, is soon to be erected in the court house. Robeson has a public instruction in the cause of liberty and these will not be forgotten.

Reports of the banks in Robeson make a fine showing. Many farmers have got their money. Bishop Darst of Wilmington will preach at Trinity Episcopal church here tomorrow at 11 a. m. The Pastime theatre opened yesterday after being closed for seven weeks on account of the influenza epidemic. All Robeson schools will open Monday, November 18, having been closed during the same time on account of the epidemic.

Relatives of two more Robeson soldiers have been advised of their death at the front in France. Duncan C. Shaw of Lumber Bridge was killed in action and John McLean of Route 6, Lumberton, died October 16 of wounds received in action.

Examinations for white, Indian and colored teachers will be conducted by Prof. J. R. Poole, county superintendent, at 10:30 a. m. to 6 p. m. at the court house here November 22 at 10:30 a. m.

T. W. Trogon, local government cotton grader, left Thursday for Lumberton in response of a wire message stating that his sister, Miss Trogon, died there early that morning.

License has been issued in Robeson for the marriage of Charles F. Phillips, Jr., and Janie Williamson; Wm. H. Tolar and Beulah Bayley; B. Sam Edwards has been elected assistant chief of Lumberton succeeding the late H. C. Rogers.

Various papers have recently been commenting on the fact that certain ladies whose husbands were called into the army are conducting the affairs at home with marked success. There are several instances of that kind in Lumberton. The Star correspondent has in mind a few where the ladies took hold when their husbands were called into military service and the business has continued apparently as successfully as before.

There is much to be said among farmers, as well as others, about the slump in cotton prices. Most farmers are holding on to their staple, however.

**FARMING IN FRANCE DANGEROUS BUSINESS**

Many Unexploded Shells Scattered Over the Fields—Rehabilitation An Army Problem.

Behind the American Lines, Oct. 25.—(Correspondence of The Associated Press.)—Recommendation that the American military authorities in France should, after the war, take charge of reestablishing the devastated regions of France and that German prisoners should be made to repair the damages they did in France, will be made by the American agricultural commission now here.

"We are going to report to the secretary of war and the secretary of agriculture," said W. O. Thompson, president of Ohio State University, and chairman of the commission, "that the work of rehabilitating the devastated territory is an army problem and that the military authorities should deal with it."

"The problem of tilling the land which has been the scene of the battles is a very serious one for it is filled with unexploded shells. The fruit trees have been completely eradicated by ruthless felling. You can charge indemnities but you cannot get land ready to plough without danger."

"The Germans should take the risk as part of the price to be paid for their wanton devastations. From the economic point of view, if we allow German troops to repair the damage to French farms without this French rehabilitation, Germany has again the lead on France. France is left flat on her back and Germany gets a long start. Even after suffering a military defeat, she wins an economic victory."

"This devastation was admittedly intended to ruin France so that she could not recover for years, while Germany untouched is ready to profit by her breaches of international law. Yet, as this commission sees it, as soon as the country is ready for agricultural restoration, the agricultural population will be on the spot waiting to rebuild their shattered farms and farm equipment."

"They are pitifully attached to their homesteads though in thousands of cases there is only the cellar remaining. Though not their war alone, France and Belgium have furnished the battlefields, so are here to fight with France for our common defense, the battlefield being furnished by circumstances. The restoration of these battlefields far mounds is an inter-ally problem."

**Clemson Defeats Citadel.** Columbia, S. C., Nov. 16.—Clemson college defeated the Citadel here this afternoon 7 to 6. The only touchdown was made by Odell in the first quarter on a forward pass following Citadel's fumble on the 30-yard line. Citadel pushed the ball over in the final quarter but was penalized for crawling and thereafter lost the ball on down in the shadow of the goal posts. Reames, running for Clemson and Kollock's kicking for Citadel were features.

**Premier of Poland.** Basel, Nov. 16.—The Gallician socialist leader Daszynski has been appointed premier of Poland and charged with the formation of a cabinet by General Pilsudski, according to a dispatch from Warsaw.
