# COTTON OFF \$5 A BALE NET GAIN FOR CORN STOCK TRADING DULL

Made By January and All the Later Months.

New York, Nov. 30 .- There was a fore the publication of the order prohibiting short sales. The close was at the lowest point of the day with the tone barely steady at a net decline

The market opened irregular at unchanged prices to a decline of 55 points. There was enough covering and scattered buying on reports of continued irm short markets to cause slight hulges right after the call, but the market soon turned weak on the unavorable view of the drygoods situation, continued liquidation and scatterd southern selling. Reports that hedges were being sold

gainst stocks of goods for which here was no immediate civilian demand, increased the nervousness of ecent buying and the market broke he more rapidly. December contracts gold off to 26.50, or 100 points net ower, while March touched 24.45 and May 24.05 in the late trading. Except or a moderate demand from spot house rokers who were said to be fixing rices for spinners, there was very ttle buying, and general sentiment was very much unselfed during the entire morning.
