TRADING WAS LIGHT CORN GOES UPWARD

Aside From Oils, Motors and Other Speculative Specialties Which Gained, There Were No Features.

New York, Dec. 11.—Aside from oils, motors and other speculative specialties, which registered gross gains of 2 to 8 points today's stock market presented no features of interest.

The petroleum group contributed far more than its usual quota, Mexican recording a gross gain of 8 points after an early setback, while Royal Dutch, Texas Company and Pan-American common and pfd made extreme advances of 2 to 4 points.

U. S. Steel and associated issues were steady to firm during the early and intermediate periods, but fell back later.

Rails were apathetic throughout, even the secondary or low-priced shares of that division evincing none of their recent activity or strength.

Shipping rose and fell within narrow bounds, advices from London sent the Mercantile Marine deal occasioning restraint.

Metals, tobaccos, leathers, fertilizers and the distilling issues lacked definite tendencies on greatly reduced operations, becoming moderately unsettled, however, in the general reaction of the last hour.

Dealings in bonds were without special feature, both domestic and foreign issues showing moderate irregularity. Liberty bonds eased again, but held above recent low records.

Total sales, par value, aggregated \$9,650,000. Old U. S. bonds were unchanged on call.
