BELIEVE PINCHON SPOKE FOR SELF

Early Intervention in Russia Probable?

American Officials Do Not Think the French Government is Opposed to Such Movement by Allies—Chaotic Conditions.

Washington, Dec. 27.—Government officials here expressed the belief today that Stephen Pinchon, the French foreign minister, was voicing his own opinion and not the policy of the French government when he said there would be no immediate intervention in Russia by the allies.

The Russian situation has been the subject of earnest discussion by the representatives at Paris of the associated nations, but so far as is known here, none of the governments has put forward any definite plans. The understanding here is that the whole subject will be left to the peace conference.

It was reiterated today that the allied powers have no desire to interfere with the internal affairs of Russia.

Additional reports of the chaotic conditions in Bolshevik controlled European Russia, reached the state department today. An account said the loyal militia of Estonia and Livonia, poorly equipped and with little or no training, was in no condition to withstand the attacks of the bolsheviks.

Riga, Reval and Limbach were reported as crowded with refugees from the surrounding country.

Advices reaching the state department today from Bucharest said the main force of the bolshevik army in Russia consisted of 500,000 Russian soldiers forced to join the bolsheviks because of fear of starvation, former Austro-Hungarian prisoners of war, 50,000 men from the Balkan provinces and 40,000 Chinese workmen.

The Russian embassy received a report today from the minister of foreign affairs of the Russian government at Omsk that Siberian troops commanded by Gen. Poppeloff captured the city of Perm, Dec. 24.

More than 3,000 bolsheviks were taken prisoner during the day's fighting, the message said, and a great quantity of booty captured.

ARMENIANS STARVING BY THE THOUSANDS

Hundreds of Thousands of Dollars Monthly Needed to Feed the Destitute in Persia.

New York, Dec. 27.—Thousands of Armenians are destitute and starving throughout Persia and hundreds of thousands of dollars monthly are needed to provide for them, according to cable messages from representatives of the American committee for Armenian and Syrian relief, made public by the organization here tonight.

In all parts of the Caucasian territory, the messages said, conditions are pitiable, while at Mosul there are 10,000 women and children refugees from Turkey. The reports said there are 30,000 destitute at Tabriz where 2,000 Christian refugees need immediate aid.

"PRINCESS PAT" BETROTHEN TO COMMANDER RAMSAY

London, Dec. 27.—The court circular tonight makes the following statement: "The king has gladly consented to the betrothal of Princess Patricia of Connaught to Commander Alexander Ramsay, heir to the Earldom of Dalhousie."

Princess Patricia of Connaught is a daughter of the Duke of Connaught, former governor general of Canada and a cousin of King George. She is in her early thirties and has been a favorite in court circles in England and Canada. Known as "Princess Pat" she has been regarded as the most popular of the younger members of British royalty.

She is described as a handsome young woman with great spirit and a keen sense of humor.

Several times she has been reported betrothed, but on each occasion denials were made.

Alexander Robert Maule Ramsay is a commander in the royal navy.

GATHER FACTS FOR SOLDIER COLONIES

(Continued from Page One.) of interior, the department of agriculture, the war department and the department of labor that such assistance should be granted at least in the outset of the resettlement of the uncultivated lands and abandoned farms.

The plan is as generally understood, to pay these men at daily rates of wages while getting land into tillable condition.

"A community land settlement," said Mr. Stewart, "can be held intact and made a permanent institution of the land. Individual unaided farming cannot be made a permanent institution as the history of the world, from the time that every acre of the wheat lands of the delta of the Nile and in fact the whole agricultural area of Egypt, passed into the hands of 12 men, until today has proved."

The investigation and inspection service will place agents in the several counties of North Carolina to make these land lists from the records. In counties where the records are in good shape and the office is well organized, with the machinery to handle the matter, Mr. Stewart stated some of the work may be done by contract by the local clerk. Just how far this will be available has not yet been determined.

Mr. Stewart's office was ordered to do this work on December 7. The work of constructing the blank forms, etc. was taken up at once, and the field work would have been already well under way, but for the intervening holidays, and the uncertainty as to whether the appropriations for war labor administration would be available for peace labor reconstruction work.

"It has, however, been determined," said Mr. Stewart today, "to take a chance on this and begin the work in four or five states on January 4.

Mr. Stewart will visit Wilmington within the next ten days.

666 Cures Malaria, Chills and Fever, or Bilious Fever, by killing the parasite causing the fever. Fine strengthening tonic.

DECLARES FORMER CZAR STILL ALIVE

A. P. Informed He is in a Neutral Country.

M. Tchihatchef Declares His Whereabouts Are Known to One of Allied Governments—Cost Much to Leave Russia.

Warsaw, Tuesday, Dec. 24.—(By the Associated Press.)—"There is no doubt that the czar and his entire family are alive. I am positive of this," was the declaration made to the correspondent today by Michael de Tchihatchef, a nephew of General Skoropadski, and who has just escaped from the Ukraine after a recent trip to Petrograd, Vilna and Dovno.

"I cannot reveal where the czar is, because he does not wish it," he added. "He does not care to be bothered and he wants to be left alone.

"His whereabouts are known to an allied government. It is in a neutral country. Accounts of his flight at Ekaterinburg were manufactured by Trotsky and Lenin for propaganda purposes.

"It took much money and time and also the lives of many officers to accomplish his escape. Among the officers killed were Count Tatischev, the czar's former personal military attaché, who was shot instead of the czar. Documents describing the czar's escape were in the hands of German Consul Koenig at Petrograd, who forwarded them to Berlin."

Mr. Tchihatchef said the allies should send an army of occupation into Russia to re-establish a stable government and business conditions. He said the cost of living in Russia was appalling, a pound of butter costing 120 rubles, and a pair of trousers 1,000 rubles. Frequently there was no food obtainable at any price.

BIG FINANCE REPORT READ TO CONVENTION

Richmond, Va., Dec. 27.—The \$25,000 report of the committee on war finance was read at the convention of the American Economic Association and allied bodies today. This report, prepared by E. R. J. Seligman, of Columbia university, chairman of the committee, comprised 127 pages, in which various phases of the financial situation, together with statistics, are discussed.

It concludes with this recommendation: "While currency and credit expansion has been to some extent unavoidable, it has probably been greater than necessary. To prevent further aggravation during the post-bellum period, the following suggestions deserve consideration:

"The federal reserve authorities should follow a less liberal policy in the matter of re-discount and collateral loans for member banks. A greater effort should be made to discourage the borrow and buy policy in the matter of liberty bonds insofar as borrowing to buy does not involve immediate economies of consumption. Recourse to anticipatory borrowing by the issue of treasury certificates and with the re-establishment of a free international market for gold the control of international exchange should be abandoned.

"Finally, the plan of stimulating gold production by means of some form of government aid is to be deprecated."

"Price levels" proved one of the interesting topics of the day's session, being considered at a joint meeting of the American Economic Association and the American Statistical Association. W. W. Stewart, of Amherst college, read a paper on "Price Fluctuations During the Present War." Another paper was read by Dr. Royal Meeker, commissioner of labor statistics.

PATROL STREETS TO PREVENT MURDERS AND ROBBERIES

Cleveland, O., Dec. 27.—In an effort to check the epidemic of crime that has resulted in 14 murders and scores of holdups and robberies in the past three months, American Protective League operatives patrolled the streets tonight armed with clubs.

ALBERT HOLDS THE EX-KAISER GUILTY

(Continued From Page One.) tribunal. The heir to the imperial throne answered me that the chancellor had made a mistake in accepting that arrangement, because, said the crown prince, 'the French are right in this affair but a powerful state should never accept war even when it is in the wrong, under penalty of losing its prestige.'"

In another talk with Emperor William, the prince says, the emperor reproached him with the Russian czar in his hands. In this connection, Prince Albert writes:

"In the series of crimes for which Germany must bear responsibility, there is one which will revolt humanity for all time. Nicholas II was incapable of lying or betraying his allies. He wished to perform his duties, not agreeing with your wishes, although you told me you had him in your hands. Nicholas eluded your suggestions but was assassinated by your bolshevik accomplices without your intervening to save him."

The prince gives extracts of letters from Prince Von Radin, the German ambassador to France shortly before the war, saying: "Where are they leading us? I fear great catastrophe."

"The emperor's letters expressed solicitude for the Parisians during the Paris floods."

"These are the same Parisians," says the prince, "whom you bombarded, killing women and children and the sick."

The prince relates the following: "Your son, Eitel Fritz Hohenzollern, showed his ideas of the right of the strongest. He occupied the chateau at Avescourt, belonging to my minister to France. A judicial inquiry has established that precious objects belonging to the chateau were packed and marked for shipment to the prince's residence. Thus the imperial palace of Germany was to be the receptacle of these stolen riches."

WANT TO PUT THE BAN ON SECRET DIPLOMACY

Premier Clemenceau Says He Will Reply to Interpellations in Chamber of Deputies.

Paris, Dec. 27.—The socialist deputy, Marcel Cachin, interpellated the government in the chamber of deputies today, asking Premier Clemenceau to state whether secret diplomacy would be abandoned in the peace conference and the discussions given all publicity. The premier is expected to reply tomorrow.

More than 300 deputies were present and the galleries were crowded but the storm which had been expected did not break, the government apparently having the situation well in hand.

Deputy Cachin's reference to the secret treaties of 1916 and 1917 brought him a rebuke from Aristide Briand, who was premier when the arrangements with Great Britain and Italy were made. M. Briand expressed himself as being fully in accord with the idea that the peace conference should be public.

There were lively scenes in the chamber when demands were made on Premier Clemenceau for statements on the budget for January, February and March and the government's policy on the Russian question.

The session lasted until evening when the premier said: "I will reply to these questions."

EAGLE BOATS WORTHY OF PERMANENT PLACE

Ford Craft Exceed Contract Requirements in Speed, Seaworthiness and Maneuvering Ability.

Washington, Dec. 27.—Trials of the Eagle boats have convinced navy constructors that the little craft turned out by the Ford plant at Detroit to fight submarines are worthy of taking their place as permanent units of the fleet. It was learned today that official reports to the navy department giving full details of the trials show that in speed, seaworthiness and maneuvering ability the new boats exceed all contract requirements.

An average sustained speed of 18.3 knots was made by the boat used by the navy experts in their tests. The vessel showed no signs of "buckling" under this gait.

It already has been announced that most of the eagles completed under the war contract will be utilized as gunboats.

GOVERNMENT MUST PAY FOR LOSS OF BARKENTINE.

Boston, Dec. 27.—The United States government must pay \$31,255 to the owners of the barkentine Mabel I. Myers, which was sunk July 30, 1915, by the battleship Nebraska off Cape Cod, in accordance with a final decree which was filed in the United States district court today.

The barkentine was bound for Boston from Barbadoes when run down by the Nebraska while the warship was maneuvering in the fog.

HOW DOCTORS TREAT COLDS AND GRIPPE

Ask any physician or druggist and he will tell you that the best and only effective remedy for a bad cold, sore throat, influenza or la grippe is what he calls "a brisk calomel purge," which means a big dose of calomel at bed time.

But as the old style calomel has some very unpleasant and dangerous qualities physicians and druggists are now recommending the improved nauseous calomel, called "Calotabs," which is purified and refined from the sickening and dangerous effects and whose medicinal virtues are vastly improved.

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your diet, pleasure or work. Next morning your cold has vanished and your entire system is purified and refreshed.

Calotabs are sold only in original sealed packets of three thirty-five cents. Your druggist guarantees Calotabs by refunding the price if you are not delighted.—adv.
