Raids Conducted In 33 Cities Reaching From Coast to Coast of The Nation.

FIND "RED" PAPERS

Indicating Plot to Overthrow Government and Establish Soviet Republic.

Washington, Jan. 2.—The greatest round-up of radicals in the nation's history was conducted tonight by the government, acting through department of justice agents in 33 cities, stretching from coast to coast.

At midnight reports indicated that more than 1,500 members of the communist and communist labor parties, against whom the raids were directed, were in custody and department of justice officials expressed the opinion that daylight would see twice that number behind the bars.

Not alone was the round-up the largest yet conducted by the government in its effort to rid the country of radicalism, but in the view of officials it was the most thoroughly carried out.

Department of justice agents had been instructed several days ago and at 9 o'clock tonight the move was begun, whether in Portland, Maine, or in Portland, Oregon.

Federal agents were directed to catch the radicals "with the goods on" and that these directions were carried out was evident in reports from New York city and Brooklyn, where the offices of communist papers were raided, and from New England, where much literature prepared for dissemination by the two parties was seized.

The primary object, Assistant Attorney Garvin announced, was the obtaining of evidence on which the department of labor might proceed with deportation of undesirable.

The larger cities in which raids were conducted follow: New York, Baltimore, Boston, Buffalo, Chicago, Cleveland, Denver, Des Moines, Detroit, Grand Rapids, Hartford, Indianapolis, Jacksonville, Fla., Kansas City, Los Angeles, Louisville, Milwaukee, Newark, Omaha, Philadelphia, Pittsburgh, Portland, Maine; Portland, Oregon; Providence, San Francisco, Spokane, St. Louis, St. Paul, Springfield, Mass.; Syracuse, Toledo and Trenton.

Raids in Many Cities

Minor raids were made in other cities. The biggest "bag" was made in New York, where at midnight more than 300 had been arrested and sent to Ellis Island.

From a dozen New England cities 300 or more communists were gathered and in Detroit the raiders found plentiful supply, taking about 300 into custody. Philadelphia and Chicago supplied more than 150 and Buffalo about 100. A larger number than in any previous raid was reported from practically all of the cities.

The objects of the raids, Assistant Attorney General Garvin said, was to obtain for submission to the department of labor cases for deportation of "a very large number of our most dangerous anarchists and radical agitators." Agents of the department, he added, went out prepared to catch the radicals "with the goods on."

The general charge of attempting to overthrow the government by force and violence was placed against the persons arrested during the raids. Officials declared they believed that several thousand members of the communist and communist labor parties would be behind the bars before morning.

Officials here declared the nationwide roundup was the most completely planned, and the machinery used against the radicals. It was arranged (Continued on Page Seven).
