

### INDIAN PHYSICIAN MUST LEAVE STATE TO KEEP HIS WIFE

#### White Consort Married in Georgia Not Recognized by North Carolina Laws

(Special to The Star.)  
Lumberton, Jan. 27.—Dr. G. W. Locklear, Indian, of Pembroke, must leave the state in order to live with the white woman whom he married in Atlanta, Ga.

Locklear was indicted by Solicitor S. B. McLean on the charge of fornication and adultery, the indictment being brought upon the grounds that the laws of North Carolina do not permit the intermarriage of races. Locklear pleaded guilty of the charge and prayer for judgment was continued upon payment of the cost. Locklear and his wife are to return to the state in which they were married.

The father of Locklear's wife, who it is said is a prominent attorney of Atlanta, attended the trial and lent his efforts in the doctor's behalf. Locklear married another white woman in another state several years ago and was later divorced upon the ground of illegal marriage, it is said. This is the first case of its kind to come up in Robeson.

This was the first case disposed of at the week's term of criminal court, which convened Monday morning with Judge Oliver S. Allen of Kinston presiding.

It was decided to increase the capital stock of the Robeson Fair association from \$3,000 to \$10,000 at a recent meeting of the stockholders and directors. It was also decided to allow the colored people of the county to "put on" a fair the week following the one put on by the white people next fall. A building committee was appointed to prepare plans for the erection of an exhibition building on the ten-acre lot recently purchased just north of Lumberton by the fair association. It is planned to offer more than \$1,000 in cash prizes at the fair this year.

The Lumberton graded schools have been closed on account of the appearance of two cases of spinal meningitis among pupils of the second grade. The school will be closed for at least a week. No new cases of the dread disease have been reported since Thursday of last week and the health authorities are trying to prevent the spread. The two children that have the disease both live near together and are about eight years old.

Gatewood Small, who lives near Lumberton, spent several months in the army and returned home to be shot by his brother. The shooting was accidental and did not prove serious. The gun was accidentally fired while the Small brothers were bird hunting and the lead struck Mr. Small in the legs, more than thirty shots taking effect.

The Robeson County Marble & Granite Works is a new business enterprise for Lumberton. L. C. Hall and C. R. Rutledge are the promoters and they expect to open their place of business on West Fourth street in a few days. They will make a specialty of making monuments and tombstones. This will make the second business of the kind in Lumberton.

The Lumberton Red Cross chapter has been re-organized with the following officers: J. P. Russell, chairman; Mrs. R. E. Lewis, vice chairman; C. B. Skipper, treasurer; F. Grover Britt, secretary. It is planned to put on a drive for members early in February.

Indications are that a number of new business houses, as well as many residences will be erected in Lumberton in the near future. There is a crying demand for both, especially for residences.

### SEEK HEADQUARTERS OF DIXIE CATTLEMEN

#### Three Cities Now in Contest For The Honor

Montgomery, Ala., Jan. 27.—On recommendation of President John D. Eldridge that permanent headquarters be selected for the Southern Cattleman's association, a contest developed here today with New Orleans, Montgomery and Memphis as contenders. The claims will be considered by a special committee appointed by the president. Savannah, Ga., thus far is the only bidder for the 1921 convention.

More than 600 cattlemen, bankers and animal industry experts gathered from all parts of the south are in attendance.

Tonight's session was given over to addresses by prominent men on subjects related to grazing and pasturing.

R. C. Lambert of Darlington, Ala., discussing the winter grazing problem developed the advantages the south has to offer in view of its mild climate, while Paul F. Tabor of Athens, Ga., an interesting summary of the pasture grasses of South Georgia as excellent forage crops for cattle.

### STOPS BACKACHE IN FEW MINUTES

#### Rub lumbago, pain, soreness, stiffness right out with "St. Jacobs Liniment"

When your back is sore and lame or lumbago, sciatica or neuritis has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Liniment" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating liniment takes the ache and pain out and ends the misery. It is magical, yet absolutely harmless and doesn't burn or discolor the skin. Nothing else stops lumbago, sciatica and lame back misery so promptly and surely. It never disappoints!—adv.

### TWO MORE CHANGES IN CABINET, THIRD IS EXPECTED SOON

#### Houston Succeeds Glass; Meredith Replaces Houston; Lane To Retire

Washington, Jan. 27.—Two more changes in President Wilson's cabinet were made today and a third is expected within a short time.

David Franklin Houston, of St. Louis, Mo., who has been secretary of agriculture since the beginning of the Wilson administration, was given the treasury portfolio, and Edwin L. Meredith, of Des Moines, Iowa, was named to succeed him as head of the department of agriculture.

The third change expected soon is appointment of a secretary of the interior to succeed Franklin K. Lane, who desires to retire to private life. Mr. Lane's successor has not yet been selected and officials generally would not hazard a guess as to whom it would be.

In selecting Mr. Houston to succeed Carter Glass, as secretary of the treasury, the President ran counter to the guesses of a majority of officials, most of whom expected Secretary Leffingwell to be given the office.

Mr. Meredith is editor of "Successful Farming," and before establishing that paper was publisher of the "Farmers' Tribune." He is president of the Associated Advertising Clubs of the World; a director of the Chicago Federal Reserve bank and was one of the excess profits advisers of the treasury department appointed in 1917.

In a statement today at Miami Mr. Meredith said one of his first acts as head of the department of agriculture would be to work out a method to get crops to market "without too much lost motion." He is expected in Washington within a few days to take up his duties.

Meantime Mr. Houston will succeed Mr. Glass, who will take his seat in the senate to fill the unexpired term of the late Senator Martin, of Virginia, after serving as secretary of the treasury for a little more than a year.

When Secretary Lane passes out of the cabinet only four of the President's original official family will remain. Besides Mr. Houston they are Secretary Daniels, of the navy department; Secretary Wilson, of the labor department, and Postmaster General Burleson.

President Wilson has had two secretaries of state—William J. Bryan and Robert Lansing; two secretaries of war—Lindley M. Garrison and Newton D. Baker; three attorneys general—James C. McReynolds, now an associate justice of the supreme court; Thomas W. Gregory and A. Mitchell Palmer; two secretaries of commerce—William C. Redfield and Joshua W. Alexander, and three secretaries of the treasury—William G. McAdoo, Carter Glass and David F. Houston.

### TERMS ACCEPTED BY JUGO-SLAVIA

#### Will Agree To Allied Adriatic Plans

Berne, Switzerland, Jan. 27.—The Jugo-Slav government has decided to accept the allied ultimatum with regard to the settlement of the Adriatic controversy, according to a dispatch from Belgrade.

Under the settlement plan as set forth in the allied ultimatum to Jugo-Slavia, now reported accepted, the city of Fiume was to be independent under a league of nations guarantee. The port and the city proper were to be controlled by the league of nations. The suburb of Suzzara was allotted to Jugo-Slavia. A strip of territory along the coast was eliminated to connect Fiume with Italian territory.

In Dalmatia, it was provided that the city of Zadar should constitute an independent state under a league of nations guarantee. The terms stipulated that Italy should retain Avlona and a mandate in Albania, except that the northern part of Albania, as set forth should be made an autonomous province under Jugo-Slav administration. Italy was given the islands of Lussini and Lisa, the remainder to go to Jugo-Slavia. All the islands are to be demilitarized.

### REPORTS COMPENSATION CONTRACTS AS SIGNED

#### Underwood Reports To Director General Hines

Washington, Jan. 27.—Compensation contracts between the railroad administration and 232 railroads under government control had been signed on January 1, last, E. Marvin Underwood, general counsel of the railroad administration, stated today in his annual report to Director General Hines. These involved \$717,153,123 or seven and one percent of the total annual rental of \$917,000,000 paid by the government to the companies.

Claims for special compensation in addition to the standard return had been filed by 124 roads, the aggregate being \$92,318,759. Thirty-five of these had been allowed in part, the total being \$7,493,618, while sixty-seven totalling \$45,686,276, had been denied, and eight, totalling \$55,764 had been withdrawn, leaving still pending fourteen totalling \$3,224,238.

Mr. Underwood said negotiations with railroads as to many additional compensation contracts for the standard return were being actively pushed.

He said also that in addition to the standard contracts there have been 133 co-operative contracts made between the administration and smaller roads, mostly short lines.

Describing the works of the claims and property protection section, he declared gratifying progress had been made in avoiding loss and damage claims presented.

### HUNGARIAN TREATY UNSATISFACTORY

Basel, Jan. 27.—A dispatch from Budapest says Hungary's military representatives at Neuilly have submitted to the entente plenipotentiaries a memorandum declaring that the military clauses in the treaty drawn up for Hungary are not acceptable. It is asserted that the army of 25,000 as allowed by the treaty, is not sufficient to maintain order in the interior, in view of present conditions.

### LITTLE INFLUENZA IN NORTH CAROLINA

#### Call For Reports Brings Negligible Response From Quarantine Officers

(Special to The Star.)  
Raleigh, Jan. 27.—The telegraphic request of Dr. F. M. Register, of the bureau of communicable diseases, sent to all the quarantine officers in the state, asking that wire reports of influenza epidemics be made to the Raleigh office every day, has so far brought little response. The largest number of cases reported from any one place today was eight, and it was said that these cases were mild.

The health authorities believe that with the continued practice of caution of the public as to getting in crowds and watching out about catching cold, there is little danger of the "flu" epidemic becoming serious in North Carolina.

Likewise, the small epidemic of small pox which broke out in two counties last week, is gradually subsiding. A large number of people are being vaccinated, it is learned from the heavy demands for vaccine. An order for 500 doses came from one small town in the state today, and other smaller orders have come in.

Raleigh Doctors Meeting  
The fifteenth anniversary dinner of the Raleigh Academy of Medicine will be held at the Yarrowborough hotel on Monday evening, February 2, at which time some of the best known doctors in the state have been invited to be present and deliver addresses. The Raleigh Academy of Medicine is one of the oldest in the state, and special preparations are being made to celebrate the reaching of the half century mark of the society in Raleigh.

Dr. Cyrus Thompson, of Jacksonville, ex-president of the North Carolina society, will be one of the speakers. Among the other speakers in-

cluded for this occasion are Dr. George Thomas, of Wilmington; Dr. Charles O'H. Laughinghouse, of Greenville; Dr. Carl V. Reynolds, of Asheville, president of the state society at this time, and Dr. L. B. McGrayer, of Sanatorium, who is secretary of the state society.

### WOMAN COULD NOT WALK UP STAIRS

#### Had Suffered Six Years From Rheumatism

Los Angeles Resident Says She Ached All Over And Suffered Night And Day—Nothing Did Her Any Good Till She Took Tanlac

"I had rheumatism so bad that life was simply miserable for me, but Tanlac has entirely overcome my trouble," said Mrs. Martha Ashbuck, of 2226 1-2 Duane St., Los Angeles, Cal.

"For the past six years I was in such a wretched condition I can hardly understand how I held out as long as I did," she continued. "I had rheumatic pains in my knees so bad that it was impossible for me to step up or down the stairs, and my hands were so swollen and stiff it was all I could do to hold the brim or dishes. At night—simply ached all over so bad I could not sleep, and in fact, I suffered all the time night and day. I became very nervous and worried so much over my condition that I became very despondent.

"I tried all the medicines I could hear of but none of them did me any good until I got Tanlac. I was overjoyed to find that it more than met my expectations. All signs of the rheumatism has left me and I am back doing my housework for the first time in several years. My nerves are as steady as they can be and I sleep all night long and never wake up till morning. I haven't felt so fine in years and it certainly is a pleasure for me to tell everybody about Tanlac."

Tanlac is sold in Wilmington by all good druggists.—adv.

### Get This Map of Europe FREE

It shows the tracks of the God of War left upon that continent which, for two thousand years, has directed the destiny of the world. It shows the literary trimmings that has been given Germany. It shows the manner in which Austria-Hungary has gone to pieces and ceased to exist as a geographic unit. It gives the first authentic picture of that half dozen baby nations that have been born from the great conflict. It is a map of many colors which indicates old and new boundaries, plebiscite areas, undetermined zones. It is a foot and a half wide and two feet long—just the right size to tuck above your desk or on the wall at home.

### AN OFFICIAL AND AUTHORITATIVE MAP

This map of the New Europe was made by the United States Geological Survey. It is being used by the Savings Division of the Treasury Department in its campaign of thrift. It is given away through the Washington Information Bureau of this paper, together with a pamphlet on HOW OTHER PEOPLE GET AHEAD.

Any reader of this paper may get it by filling out the attached coupon, enclosing a two-cent stamp for return postage, and mailing as indicated. Send for it today.

# Shall North Carolina Lag

The Constitution of North Carolina Says:  
"The People have the right to the privilege of education"

Have we been true to the splendid courage and idealism of the founders of our state?

The Illiteracy in leading states is:

North Carolina	18.5%
Connecticut	5.6%
New Jersey	5.2%
Massachusetts	3.7%
California	3.3%
Washington	2.-%

Teachers' salaries per month in 1916 were:

North Carolina	\$42
Connecticut	68
Michigan	70
Indiana	75
Massachusetts	88
Washington	99
California	113

The contribution per individual for education was:

North Carolina	\$2.29
Massachusetts	7.35
Connecticut	7.78
Michigan	7.88
Indiana	8.53
Minnesota	9.17
California	10.93

Can we afford to do for our children what other states do for theirs?

Our assessed wealth increased 250 million dollars between 1914 and 1917. The value of musical instruments increased three million. The value of automobiles increased in the past five years, seven million.

Our wealth, our self-respect, our traditions of valor and patriotism, our love for our church, our home, our nation challenge us to lead and not to lag.
