(A NORTH CAROLINA CORPORATION)

\$1,250,000.00

8% Cumulative Participating Preferred Stock

250,000 Shares Par Value \$5 Per Share Dividends Payable Semi-Annually

This is a real Southern automobile enterprise, and the directors of the company feel that they can assure the success of the company in future years by taking investors in the States in which the car will be sold into financial association with them.

The remarkable thing about this issue of Preferred Stock is that it shares equally in the earnings with the Common Stock, besides drawing a dividend of 8% before any earnings are distributed to the Common stockholders.

As you know, the AMERICAN Balanced Six is a proved product, with national distribution and four years' advertising behind it. The first year's estimated output of 2,400 cars of our Greensboro plant is already far oversold. The men behind the company are, with two exceptions, Southern business men noted for their enterprise and conservatism.

This investment is sound, safe, with earning possibilities such as you may never meet with again. You cannot, in justice to yourself, allow this opportunity to slip by without at least investigating further.

If you are satisfied that this is the splendid investment opportunity thousands of other Southerners are convinced it is, we take the liberty to suggest that you reserve the amount of stock you desire, at once. This issue is being subscribed so rapidly by those already familiar with it that your opportunity to become a shareholder in AMERICAN SOUTHERN MOTORS CORPORATION is liable to be open but a very limited period.

Because we desire a wide distribution of this stock, we strongly advise that you immediately send in the attached coupon and your check or money order for 25% of the price of the stock you wish to reserve. CAREY Asphalt Roll Roofings cost but a fraction of the price of tile, slate, metal, or wood shingles.

They can be laid in a small fraction of the time it takes to lay other kinds of roofing.

They are so much lighter in weight that the roof supports can be made of lighter and less expensive lumber.

In spite of their low cost Carey Roll Roofings serve from 10 to 20 years—depending on the weight of the particular roofing. If coated occasionally, they will last much longer. Thus Carey Roll Roofings represent the LOWEST POSSIBLE COST PER YEAR OF SERVICE.
