Tax Problems

Plans of the ways and means committee members for the imposition of taxes are varied. There seems to be a general opinion in favor of the suspension of the excess profits taxes as the year closes. In the place of this form of taxation a "turnover" sales tax is proposed. Much opposition is heard against the sales tax. Another plan suggested by the house leaders is a tax on undivided profits of corporations. This is opposed by Representative Fordney of Michigan, chairman of the ways and means comittee.

Anoher year was devoted to the ef forts of anti-packer members to pass legislation to regulate the packing industry. Such legislation will not be passed during the year.

Several thousand refugees from Alsace are sheltered in long wooden shacks which formerly housed British leaders. That is the formation of a tax prisoners in the main recreation park and tariff program to be followed after in the center of Karlsruhe. These former prisons have all been converted into residences by Alsatians who have draped the windows with lace curtains and given the wire-enclosed compound potted plants.

The Alsatian refugees are bitter in their denunciation of the French. They tell tales of how the French expel families from Strasbourg and other cities on the statement of unfriendly neighbors that the suspects have been propagandizing for Germany and working against France.

The Alsatians are especially indignant because German has been abolished from the schools of Alsace where they say a great majority of the population is German-speaking and will language.
