

REED ATTACKS HOOVER RALEIGH VIEW OF THE ON FOOD RELIEF WORK "FUSS" IN THE SENATE

Charges He Diverted Supplies From Civilians to Feed the Polish Soldiers

WASHINGTON, Jan. 6.—Herbert Hoover's administration of food relief enterprises in Europe was criticized and praised in the senate today during an hour of debate resulting from recent charges of Senator Reed, Democrat, Missouri, that Mr. Hoover had used a portion of America's relief appropriations for maintenance of the Polish army.

Senator Hitchcock, Democrat, Nebraska, and Kellogg, Republican, Minnesota, defended the former food administrator, while Senator Reed renewed his criticism.

Mr. Hoover should be given credit for an accomplishment whose magnitude the whole world wonders at," Senator Hitchcock declared in presenting his report of his investigation of the relief work. "The Missouri relief packages had been turned over to the Polish army. American army officers, the senator said, were vigilant in their efforts to keep the supplies for civilian use."

FAREWELL ADDRESS IS DELIVERED BY BICKETT

(Continued from Page One) holders. These are always appointed by the president of the corporation or by an executive board. This general assembly would do the state a fine service if it should submit to the people a constitutional amendment providing for the appointment of the governor by the people rather than by the legislature. It is the best way to select the candidates for governor. Let the people have the fairest opportunity to elect the best man for the job. The speaker said that he would support the amendment in the subsequent general election and then let the governor so selected and elected use his own judgment in the selection of his executive staff and hold him rigidly responsible for results.

Much has been said about giving the governor the veto power. Possibly this would be wise, but the moral of the governor of North Carolina in shaping legislation is tremendous. During this administration I have submitted 48 specific measures to the general assembly. Forty of these were acted upon favorably by the general assembly and are today the law of the land. The veto power is of minor importance, compared with giving the governor the right to name his own lieutenant.

In Behalf of Negroes The special session of the general assembly of 1920 authorized me to appoint a commission to investigate and report on the physical, moral and mental status of the negroes of the state. I appointed W. M. E. Edwards, V. C. Gardner, Dr. A. M. Moore, Prof. G. S. Atkins and Dr. A. M. Moore. These men have made their reports in which they strongly urge the establishment of a sanatorium for the treatment of negroes afflicted with tuberculosis, reformatory for delinquent negro boys, a larger and more liberal system of teacher training for negroes and has called upon the corporation commission to exercise the power already has to require equal accommodations for negroes and whites on the trains. So impressed was the budget commission with the justice and the wisdom of this report that it has fully endorsed the same and made provision for carrying it out. In the name of the God and Father of us all I beg you to endorse this act of true nobility, and to carry out a program supported by both Christianity and common sense.

Truth on the Tax Books The sole purpose of the revaluation act is to make the tax books of North Carolina speak the truth. If at any time the tax books fail to tell the truth, then the spirit of the revaluation act is violated. Let it never be forgotten that the revaluation act is always and everywhere seeking after the truth. The truth gave it birth and the truth dominated its administration. This same spirit of truth now calls for a revision of the real estate values that were determined as of March 1, 1919. World-wide conditions have paralyzed the markets for our staple crops and this is of necessity reflected in the value of the lands that produced those crops. The value should be revised to meet actual conditions. But this revision should be made along constructive and not destructive lines. The best and sanest way to make the revision is to call upon the men who made these assessments to revise their work in view of changed conditions. These men could do the work with maximum intelligence and at a minimum expenditure of time and money. In this connection I call attention to the very able report of the state tax commission, which deals with this subject and desires to give that report my hearty and unqualified indorsement.

A Word of Farewell This concludes my message and marks the end of the last chapter of my public service to the state of North Carolina. Before closing the book I desire to express to you and through you to the people whose representation you are, my grateful appreciation of the innumerable courtesies and kindnesses shown me during these four years. I want to register my everlasting gratitude for being permitted to serve a great state and through her all humanity in the grand and most tragic hour of the world has ever known. During these years all that I have been able to do has been to serve the people of this state and to share with them the joys and sorrows of life. It is today to me a benediction and down to old age will continue a blessed inspiration.

I shall carry with me from the office many sweet and glorious memories, but the one memory that will forever outline them all is of the 30,000 sons of Carolina who at their country's call marched forth to fight and die for God and for humanity. Let me forget I write it down in this last chapter and certify to all the generations that the one stupendous immortal thing con-

BILL AND BOB FETZER TO BE UNIVERSITY COACHES

(Special to The Star) CHAPEL HILL, Jan. 6.—William McK. Fetzer, present director of athletics at North Carolina state college, has accepted a similar position at the University of North Carolina and came to Chapel Hill today to start his duties. As assistant he will have his brother, Robert A. Fetzer, who is now coaching at Woodberry Forest school in Virginia.

Bill Fetzer himself will have personal charge of varsity football and baseball teams, who will not come to the university until next September, will assist in football and will coach the varsity track team. The two together will have entire charge of university athletics and will develop all forms of sport among the students. The union of the two brothers is regarded here as the strongest coaching combination in the south.

ORGANIZE TO RUN OUT THE CUMBERLAND BLOCKADERS

(Special to The Star) FAYETTEVILLE, Jan. 6.—A law and order league has been organized by the citizens of upper Gray's Creek township in the Sherwood church section, along the Wilmington road, for the purpose of running out the illicit whiskey distillers, who are very numerous in Gray's Creek township. W. L. Bunce and W. B. Matthews, of Pine Hill township, in this county, are the proud possessors of a real live deer. The animal, described as a "last spring deer," was captured by Bunce and Matthews in the latter's hog pasture.

IVY YOPP OF JACKSONVILLE SHOT BY HUNTER, LOSSES LEG

(Special to The Star) JACKSONVILLE, N. C., Jan. 6.—Yesterday afternoon while quail hunting on the Roper farm near Jacksonville, with a party of northern friends, Ivy Yopp, a young hunter, was accidentally shot in the calf of the leg by one of the hunting party. Fortunately a car was near at hand and Mr. Yopp was rushed to town where medical aid was secured. Dr. Cyrus Thompson was located and on examination it was found that amputation was necessary, so the wound was dressed and Yopp was taken to the New Bern City hospital on the 4:52 p. m. train, where the amputation will be made.
