farding Expected to Appoint Him Secretary Interior in Spite of Objections

FUGHES IS CERTAIN

While Dawes Will Take Treasury Portfolio

BY MARK SULLIVAN

(Copyright 1921, New York Post) WASHINGTON, Jan. 5 .- Here is the way the probable cabinet lies today: It can be taken as practically positive that the secretary of state will be Exjustice Hughes of New York, and that the secretary of the treasury will be harles G. Dawes, the Chicago banker. These two selections are practically made. Only some extraordinary, uncomplication could change the public announcement of hem can be expected at almost any

No other appointment is so nearly fixed as these, but the following things is.

For secretary of the interior Mr. larding is seriously considering Herif Harding's mind connues to run as it has run, more and ore in the direction of excluding men hose recommendations are political mly, and more and more in the direcon of naming men on the basis of heir standing in their professions and ith the public generally, the great kelihood is he will appoint Hoover. Hoover Is Being Opposed

Hoover is being vigorously opposed some of the politicians on the failiar grounds of his prolonged abnce from America and the recentness his identity with the Republican On the other hand, some of the big-

If Harding were choosing his attorney general the same basis that he has already osen Hughes for secretary of state and Dawes for secretary of the treasery, he would not choose Daugherty. can be taken for granted that larding's overwhelming wish is to fill his posts with men as exceptional unius and Dawes. If he appoints

Daugherty, it will be a yielding on his part to personal and political consider-

So far as that goes, a majority of the more substantial leaders in the Republican party prefer that Daugherty should not be appointed and look forward to it with apprehension. They has it to be apprehension. hesitate, however, to lay their arguments before Harding because of what is assumed to be the personal relation between Harding and Daugherty.

If Daugherty is not made attorney general, the probabilities run in favor of Ex-Senator George Sutherland of That would be an appointment of the

highest class. Sutherland as attorney would be in the same class with Hughes as secretary of state. Three Other Probabilities Further than what has already been

He Will Be Secretary of State Said, there are three men likely to be put in the cabinet. They are former Senator Weeks of Massachusetts, Chairman Will Hays of the Republican national committee, and A. T. Hert of

Practically all three of these are certain. So far as there is any difference among them, the most certain is for-mer Senator Weeks, probably for secretary of the navy. In the later switching of pegs, Weeks might finally turn up as secretary of war.

As to the other two, Harding would undoubtedly have to have them in his cabinet, and their position as Republican leaders entitles them to the strongest kind of political consideration. As to these two, Hert is said to want the department of commerce, but the fact is he is more likely to be consid-

ered for postmaster general. Postmaster general also is the most obvious office for Will Hays. Of these two men, Hert is probably more eager for a cabinet position than Will Hays

Must Co-operate With Hughes Hert is a rich man of 56, with a completed business career behind him Will Hays is a poor man and a young man of 41, with his career ahead of Hays, because of his known achievements as an organizer, might be considered for secretary of commerce. In Harding's mind, one essential qualification of the man chosen for sec-retary of commerce will be that he must be especially approved by Hughes as secretary of state. It is Harding's intention that the secretary of state and the secretary of commerce shall work strongly hand in hand for the extension of our commerce abroad.

COOLIDGE DIDN'T MILK COW BUT PICTURE SAID HE DID

SPRINGFIELD, Mass., Jan. 6 .- Vice President-elect Coolidge can milk a cow, but he did not milk the one he was represented as milking in a photograph taken last July while he was on a vacation at his father's farm in Plymouth, Vt., after his nomination at Chicago an any of the other Republican lead- However, it was the cow's fault and not the governor's.

Made with Dainty Flour, they'll be even better than usual, for Dainty is milled by a special slow process from the very finest soft winter wheat. It retains all the unusual baking qualities found only in such grain.

Naturally Dainty costs more than ordinary flour-in the sack. In the long run it costs less, for Dainty requires less lard. And think of the better baking!
