URGES SELF-DENIAL FOR CHILDREN'S SAKE

Mr. Buck Believes It Would Also Help at Home

Writing to The Star, James W. Buck suggests a period of self-denial in behalf of the suffering children of Europe. Mr. Buck believes that, by his plan, great benefit will accrue to the donors as well as to the needy little ones. His letter follows:

"In this drive for funds for the impoverished children of Europe, I believe if we return to some of the denial practiced by our citizenry during the war, that Wilmington can make a very substantial contribution and her citizens physically benefitted, and also gain the consciousness of having aided in saving some of those from a fate that makes one shudder.

"Let this denial be voluntary now instead of compulsory, and watch for results.

"I suggest that on one day of each week during a period of four weeks, each man, woman, and child who is physically able to stand it live on the very simplest food available, and give the balance between an average day's expense and the simple day's living to this fund.

"The rest thereby gained by our many overfed and overworked organs will doubtless prove of such benefit that many may make it a permanent feature of their lives, thereby causing better health and insuring an added lease on this grand old earth.

"The giving along this line will not only amount to a very substantial sum, but it also will permit of a greater volume of food to be disposed of overseas, while at the same time we are having the goods that we are buying making it a blessing to both.

"If a person gives a dollar, and has still a sufficiency left, he has given but little. When a person gives, and by that very act increases the world supply, his self-denial has proved a lasting benefit, and should the good people of the old U. S. A. act together, what a wonderful cargo could be shipped to Europe on account of what I firmly believe would be four days of beneficial self-denial.

"I like the idea of the Rotary club having a soup luncheon, and honor bound to eat nothing else between breakfast and their evening meal, be it dinner or supper, and giving the usual cost of their luncheon to this worthy cause.

"We men might carry this denial a bit farther by doing without our cigars, cigarettes, and tobacco, the ladies may be prevailed on to dispense with candy, chewing gum, and carafes, while the children can always be counted on to devise some way in which they can also help, and make these days red letter days for the helpless kids of Europe.

"I make this plea not because I think I am a big-man, or a small-man, but just because I am a hu-man."

TWINS ARE BORN 20 MILES APART IN COLORADO STATE

DENVER, Jan. 20.—Although they were born 20 miles apart and in different counties, Reuben and Ruth Walden are twins.

The stork visited the home of Mrs. Nancy Walden, wife of a Hill Top, Douglas county, farmer, and left a lusty boy. The attending physician chattered Mrs. Walden post-haste to a Denver hospital, 20 miles distant, where a daughter was born to Mrs. Walden six hours later.

CAILLAUX IN TROUBLE AGAIN

PARIS, Jan. 10.—Former Premier Joseph Caillaux is in trouble again. By a recent sentence in the French high court he was banished from Paris and is only allowed here by special authorization. But Caillaux leases a big flat in the aristocratic Monceau quarter and his lease is now running out. He applied to his landlord to have the lease renewed but the latter refuses and has appealed to the judicial authorities to break off his contract with Caillaux definitely and resume occupation of the flat himself.

OPEN BURLEY MARKET AGAIN JANUARY 17TH

Warehousemen Decide to Ignore Growers' Request

LEXINGTON, Ky., Jan. 13.—All loose leaf tobacco markets throughout the burley district of Kentucky, Indiana and Ohio, closed for more than a week because of unsatisfactory prices offered by buyers, will open January 17, American College of Surgeons; Dr. J. B. Deaver, Philadelphia, president-elect of the college; Dr. H. M. Stephens, director of hospital activities, Ky., and Walton, Ky., voted solidly against a reopening, while two out of three Carlisle warehouses voted to open and one to remain closed.

Growers' representatives, however, in a prior meeting, had authorized formation of an organization for holding the 1920 crop until April 15 and cutting out the 1921 crop entirely. A committee of one man from each tobacco growing county in Kentucky, Ohio and Indiana, and four from Tennessee counties, was appointed to work out the plan of organization which calls for signed pledges by growers that they will carry out the agreement. Decision of the warehousemen to reopen the markets to action taken at meetings here January 7, when resolutions were passed stating that bankers and warehousemen would back any decision taken by growers. Practically all markets of the state were closed January 4, when growers refused to accept prices offered by buyers and many hauled their tobacco back to storage.

CRADOCK MAY BE "DRY"

NORFOLK, Jan. 13.—Cradock, the orphan city, will be cut off from its United States drinking corporation supply on February 1, unless the United States drinking corporation pays the city of Portsmouth for past services and guarantees future payments. Notice to this effect was served today on the Washington officials who have thrown the government project of 1,500 homes, on its own resources, despite the fact the property is a federal reservation specifically taken from state jurisdiction.

"OF THE BRITISH PEOPLE"

Thus someone has described George Barnes, whose articles on affairs in England will begin appearing regularly in The Star with next Sunday's issue.

CORSETS

Many women wait until January to buy their Corsets for the entire year. Reason, the striking reductions. This year they are better than ever.

Good Corsets are the secret of a good general appearance. There are none better than Warner's Celebrated Rust-proof Corsets, and "La Camille" Front Lace, Ventilated Back Corsets.

The reductions we have placed on these Corsets are an added inducement.
