Academy : Bijou : Victoria : Royal : Grand

GRAND
Clyde Cook, upon the presentation of his first screen production "Don't Kicker" at the Grand two weeks ago, had the rare distinction of breaking all records for Saturday attendance at that theatre. Today he comes back to break it again. "The Huntsman," said to be even better than the first release. Those who are familiar with Cook, either from seeing him on the Metropolitan Opera House stage in New York or through seeing his previous screen comedies, can well imagine him carrying off this role, and he is assured that a rare treat is in store for them today. "Hoot" Gibson, of course, is on the bill this time in one of his greatest screen super-drama treatments, "Superstition," a drama packed with thrills from beginning to end.

Topics of the Day and Paramount Magazine are two additional features on today's bill which many declare are the most interesting offerings on the Saturday variety programs at the Grand.

COTTON UNSETTLED IN NEW YORK PAST WEEK

Conflicting Influences Contribute to Condition

NEW YORK, Jan. 21.—Conflicting influences have been reflected in the unsettled ruling of the cotton market during the past week. Local bulls have found no fault with reports from the goods trade of the south. Sales of cloth have continued larger, with the business at Fall River for the week estimated at 300,000 pieces, while almost every day has brought reports of increasing mill activity.

With reference to the spot situation, southern hedge selling has been regarded here from day to day, but it has been in no great volume with no indication that recent advances have brought out any material pressure of spot offerings. This has been regarded by some of the local traders as indicating that weakly held cotton had been pretty well liquidated before the end of the old year, and that remaining holders were more certain of their position.

These features, however, have been modified in their effect on the market by reports of depressed trade conditions abroad. Liverpool has been weak since the failure of Manchester business to show any improvement, and because of the large supply of cotton still available in the south, some of the local traders have expressed apprehensions that advances here could not be maintained until export business improves. The firmer ruling of foreign exchange rates has been an encouraging feature in this respect, but there have been unfavorable reports from Czechoslovakia and the statement that the re-established war finance corporation would not aid exports to countries with which we are still at war, seemed a disappointment in some quarters.

The strength of January contracts was a sustaining factor early in the week and the January long interests continued to stop notices, but a fear that part of the cotton might be tendered on March seemed largely responsible for heavy liquidation of the early spring month during today's trading. It is estimated by the end of this month there will be a stock of not less than 75,000 bales in the local warehouses.

CHECK FLASHERS' BONDS
(Special to The Star)
GREENVILLE, S. C., Jan. 21.—Bonds of \$1,000 and more now are required in cases of check flashers arrested in Greenville, this figure being unusually high for this offense here, and magistrates state that this step already is aiding in putting a stop to the bad check evil.

LENOIR COUNTY BOASTS OF FINEST ROAD IN CAROLINA
(Special to The Star)
KINSTON, Jan. 21.—What is termed "the finest road in North Carolina" is being pushed to completion between this city and Elm Grove, on the line between Jones and Lenoir counties. Members of the local road commission declare the "Elm Grove highway," later to be renamed for some enthusiastic influential in the better roads movement in the section, is a masterpiece of its kind.

Three miles of the highway have been asphalted, and a greater stretch concreted preparatory to the laying of asphalt. The road is a hard-surfaced ribbon traversing level country, with few bends and grades. The top surface rests upon more than six inches of concrete, crude asphalt and rock.

The highway will bring additional trade here from Jones county. Industrial railways are taking the place of motor trucks on the local road work, which involves an expenditure of more than \$2,250,000. The trains are hauling three times as much material as the trucks were capable of, according to members of the commission.

TO PRISON FOR RUNNING
DOWRY REY, H. HERNON
WINSTON-SALEM, Jan. 21.—In superior court Judge Webb, who is presiding, sentenced John Mays, a 17-year-old Greensboro boy, to a term of five years in the state prison at hard labor, the defendant having plead guilty to a verdict of manslaughter, through his counsel, ex-Judge S. B. Adams, of Greensboro. Mays was charged with recklessly driving an automobile just before the Christmas holidays through Wauhtown, when it ran over and killed Rev. John R. Hennon, pastor of the Wauhtown Presbyterian church.

NOVELS DRIVE NEGRO CRAZY
(Special to The Star)
NEW BERN, Jan. 21.—Will Jayman, negro, arrested for insulting ladies of this city, when given a hearing before Mayor A. E. Dill, was pronounced crazy, and will be sent to Goldsboro. He denied his guilt. His uncle, Saha Edwards, testified that his nephew had been a bright and well-educated negro, but that a mania for reading novels had brought him to his demented condition.

ROCKY MOUNT, Jan. 21.—R. C. Murray, young white man of this city, and a brakeman on an A. C. L. freight train, in some way fell in front of the engine of his train before day this morning.
