

## STATE COLLEGE NEEDS AS SET FORTH BY PRESIDENT

In Order to Serve the State Properly There Must Be Enlarged Facilities to Take Care of the Constantly Growing Numbers Seeking Admission At the Technical Training School—President's Report

(Special to The Star)  
 WEST RALEIGH, Jan. 22.—The biennial report of State college for the years 1919 and 1920 has just been issued in printed form by President W. C. Riddick. The progress of the institution for this period, its all-the-year service to the people of the state, and some of the plans for the future are discussed in detail.  
 Under the head of faculty and students, Dr. Riddick says:  
 "The faculty now consists of 73 members. Twenty-six of these are engaged in teaching agricultural subjects; 21 in engineering subjects; six in the textile school; seven in chemistry; seven in mathematics; five in English; one in modern languages; one in economics and marketing; four in military science.  
 "The total enrollment last session was 1,048, not including the summer course for dental students, of whom there were 77; the enrollment this session is considerably in excess of that of the corresponding period of last session. The number enrolled by date is 970, and should reach 1,100 by the end of the session. These figures do not include the farm demonstration courses, 80 of whom were given short courses during the summer; nor the summer school, in which there was an enrollment of 671. Nor do they include the club boys, who were here for a few days instruction.  
 Student Courses, 1920  
 "The students during last session were divided among various courses as follows:  
 Agriculture, 559; civil engineering, 116; electrical engineering, 171; mechanical engineering, 174; chemistry, 38; textile industry, 169; special, 22.  
 "The students of the present session will be divided among the different courses in about the same proportion as last session.  
 "The summer courses keep the college plant busy throughout the entire year. These include the regular summer school for teachers, last year with an enrollment of 671; the training school for farm demonstration agents, school for farm courses for the boys' agricultural clubs of the state, and the farmers' and farm women's convention.  
 "Under a contract with the federal board for vocational education, the college is giving vocational training to about 125 partially disabled soldiers. The physical condition and poor preparation of many of these men make it rather difficult to give them proper instruction, but the college seems to be succeeding with them as well as could be expected. The federal board pays the college liberally for teaching these men, and they are no burden on its finances.  
 Disabled Soldier Students  
 "We have been able to admit only about one-third of the state's disabled soldiers who are ready to come, and those here are overcrowding the capacity of the college and preventing the admission of regular students. No other institution in the state is prepared to give this training, and even where many of these men are unprepared for regular college work, our board of trustees thought they were entitled to some share in the benefits of the college.  
 "The majority of them are studying agriculture. Each individual being required to specialize in that branch in which his particular disability least interferes with his success. The federal board estimates that this work will need to be continued about four years.  
 "Frankly, the increase in the number of students wishing to enter the college since the war has been a great surprise, in view of the disorganized condition of the secondary schools throughout the state.  
 "From an enrollment of 563 for the session of 1916-17, the number increased to 1,050 in 1919-20, which was considerably above the real capacity of the college. The enrollment of the present session would have been much larger, had the college been able to accommodate all applicants.  
 "The number applying for admission next session will be undoubtedly greater, and still greater the year following—while the number of new students that can be admitted will be less each year on account of the great number of upper classmen."  
 Most Expand Facilities  
 "It is evident that the college cannot properly care for and instruct even its present number of students, to say nothing of future growth, unless there is expansion of its facilities in every direction.  
 "There must be more teachers, more dormitories, more classrooms, a larger dining hall, a gymnasium, and a larger appropriation for maintenance. A summary of the urgent needs of the college, the details of which have been presented to the budget committee, is as follows:  
 "Agricultural extension building, \$275,000; three dormitories to accommodate 500 students, \$240,000; completion of mechanical engineering building, \$120,000; laundry, \$20,000; oil mill building, \$20,000; boiler house heating mains and sewerage extension, \$75,000; five cottages for farm laborers, \$35,000; enlargement of dining room, kitchen, serving room, bakery and cold storage, \$200,000; gymnasium, auditorium and armory, \$300,000; agricultural engineering building, \$50,000.  
 "The above is presented as a two-year building program and provides only the most immediate and pressing needs of the college, allowing an increase of 200 students each year, which we think is about as rapidly as the college can grow with safety.  
 "As this growth occurs, which seems now to be certain, succeeding legislatures will be asked to provide the necessary increase in buildings and equipment.  
 "Several departments now using buildings jointly will, in the near future need separate buildings; for example, the departments of chemistry, physics, mathematics, English, horticulture, biology, economics, vocational education and the experiment station. These buildings will be asked for as the imperative need for them arises.  
 "The present appropriation for the maintenance of the college is \$1,000,000 a year, which I must say is all the legislature of 1919 was asked to appropriate. At that time the war had just closed and it was the general opinion that commodity prices would decline. Basing their opinion on this assumption, and not expecting any rapid increase in students, our board of trustees estimated that this amount would be sufficient. Contrary to expectation, however, prices continued to rise, there was a large increase in registration, and it was absolutely necessary to make a substantial increase in the salaries of teachers and other employees.  
 "For these reasons, the college faces a deficit of about \$60,000, as indicated in its report to the budget committee. In order to meet this deficit, to prevent its recurrence, and to provide the necessary expansion in teaching force and equipment, an increase of \$125,000 in annual appropriation is imperative, from \$150,000 to \$275,000 a year."  
 MOVIES FOR THE FRENCH  
 PARIS, Jan. 22.—Movies are henceforth to play an important part in the education of French school children. Every afternoon children are taken from their classrooms to a vast movie hall where history and geography lessons are thrown on the screen. Pictures depicting factory and farming life are also shown.  
 The site for the white house was selected by President Washington and Maj. Peter C. L'Enfant, when they laid out Washington in 1791.

JONES-MARSH WEDDING  
 A VERY LOVELY AFFAIR  
 Fair Bluff Young Woman Bride of Danville Man  
 (Special to The Star)  
 FAIR BLUFF, Jan. 22.—A wedding of much interest was solemnized at the Baptist church here Wednesday, January 22, at 5 o'clock, when Miss Isabel Jones, the charming daughter of Mr. and Mrs. A. Y. Jones, became the bride of Wesley C. Marsh, of Danville, Va.  
 The church was beautifully decorated by friends and presented a vision of loveliness as the shaded lights cast their mellow glow upon the glittering crystals and branches of holly entwining the arches which spanned the aisle.  
 At the appointed hour W. D. Brown sang "O Promise Me," followed by Mrs. Guy Bailey, of Chadburn, who sang "At Dawning," both accompanied by Mrs. W. D. Brown at the piano.  
 To the strains of the wedding march from Lohengrin, played by Mrs. B. F. Rogers, the ushers, Archie Harris Gray of Danville, Va., Ernest Walker, Walter Jones and Van R. Powell, all of Fair Bluff, entered the church followed by Master B. L. Townsend, Jr., wearing a faultless suit of black velvet and white satin, carrying the ring in the heart of a calla lily.  
 The bride had as her maid of honor Miss Eva Mildred Elvington, who wore a lovely costume of garnet velvet with trimmings of maline and gold lace hat and slippers to match, carrying a bouquet of American Beauty roses tied with green tulle.  
 Next came the bride, who was attired in a going-away suit of taupe velvet with furs and accessories to match, carrying a shower bouquet of Bride roses and lilies of the valley, entering the church with her brother, Ernest Jones, who gave her in marriage. Her only ornament was a lovely platinum and diamond bar pin, a gift of the bridegroom. She was met at the altar by the bridegroom and his best man, Erle M. Blair, of Lynchburg, Va. Standing under a large white wedding bell twined with old English ivy, the words were spoken that made them man and wife. The impressive ceremony was performed by Rev. H. C. Haddock, pastor of the bride, the ring ceremony being used. During the ceremony "Remembrance" was softly rendered at the piano by Mrs. Rogers.  
 As Mendelssohn's wedding march was played the bridal party left the church in reverse order. After congratulations and good wishes of a host of friends and showers of rice, Mr. and Mrs. Marsh left on the afternoon train for Florida and Cuba. After their honeymoon they will be at home at the Leland hotel, Danville, Va.  
 Among the out-of-town guests were Mr. and Mrs. F. L. Wesley, Marion, S. C.; Mr. and Mrs. Guy Bailey, Chadburn; Mr. and Mrs. Lee Williamson and daughter, Miss Eva Guy, of Cerro Gordo; Erle M. Blair, Lynchburg, Va.; and Archie Harris Blair, Danville, Va.  
 A reception was held at the home of the bride Tuesday evening. The home was decorated with holly, smilax and potted plants. The guests were received by Misses Blanche Martin and Eva Mildred Elvington, Miss Irene Walker being in charge of the guest book. Misses Amoret Rentrow and Vernon Townsend presided at the punch bowl early in the evening. Later the guests were ushered into the dining room, which was decorated with holly overhead by a circle of candles on a table, the light of the candles casting their beam upon a lovely centerpiece of red and white carnations. Mrs. J. B. Williams being in charge, the guests were served by Misses Alice Jones, Lucille and Myrtle Elvington, Hilda Rollins, Dorothy Dick and Hazel Rogers with a salad and pickle course and coffee.  
 Mr. and Mrs. Marsh were the recipients of many lovely and useful gifts, showing the high esteem in which the couple are held.  
 The site for the white house was selected by President Washington and Maj. Peter C. L'Enfant, when they laid out Washington in 1791.

MONDAY  
 -: AT -:  
 Fuchs' Cash Department Store  
 Sale of White Lingerie at Great Savings  
 Well-made lingerie—the kind you like to wear, and the kind that wears and washes well. All sorts of styles and materials, in many dainty colors besides white. And prices are so moderate you can buy a great deal more for the same money.

 only .....  
 Sizes 2½ to 5½, a pair ..... \$4.95  
 only .....

## VISION

By HARRY E. VEDDER, D. C., Ph. C.  
 Author and Professor of Chiropractic Physiology

Vision is the driving force that impels every great organization. The Chiropractic profession is an organization made up of men and women who have a vision of millions of human souls searching endlessly for relief. This is the vision which led them to Chiropractic, and this is the vision which is always with them, ever urging to more stupendous efforts and more effective service.

It has been said that Chiropractors are not professional; that they overstep all bounds of ethics when they resort to printers' ink to place their message before the people. They see the finger of scorn extended toward them because they dare to tell the people openly the facts about Chiropractic and its results.

Let it, however, be said to their credit, that they endure that censure, knowing full well the price they pay. Why? Because every Chiropractor knows that he has something for which the world has been searching—something which will bring permanent relief when everything else has failed. With such a service to render, it would be nothing short of criminal to stand on ceremony for fear of creating antagonism. With a world full of suffering, holding in their hands the means of affording succor, it becomes a privilege, yes a duty, to send the message broadcast.

Your Chiropractor is one of ten thousand who is carrying this message to a world of sickness. He has the vision of your need and he has the vision of health which can be yours, if he can but impress this message upon you. It is with the sincere wish that you may know the results of Chiropractic upon others that Chiropractors use printers' ink. If you will give yourself the privilege of calling, you will get a clearer and more logical explanation of the cause of your disease that you have ever heard before.

## HOMES FOR SALE

LOOK OVER FOLLOWING LIST BEFORE MAKING A SELECTION

115 NORTH SIXTH STREET—Located as it is, near the downtown section, will doubtless please you, especially at the price we are quoting. The house has six rooms; the lot is 165 feet deep. We can arrange good terms.  
 WOULD YOU LIKE to own a nice six-room bungalow in Winoca Terrace? We have one formerly priced at \$6,500.00 that we can sell you for a short time at \$5,250.00; good terms.  
 FARM FOR SALE—Located on hard road, about one mile from city limits, with two dwellings, garage, stables, etc. We can sell this at a big sacrifice. Phone us Monday.  
 AT WRIGHTSVILLE BEACH, we have a five-room cottage, facing the ocean; large lot; which we are offering at \$3,500.00. The furniture also is included at this price. Don't wait until the season opens, but jump at this opportunity.

WE HAVE SEVERAL small cottages in the southern part of the city at prices and terms to suit the working man. If you want to save your rent money, see us.

1736 ORANGE STREET—Has six rooms and is in a location that is very popular. On account of owner leaving the city, we can sell you this property for \$4,250.00. Better see us at once. Immediate possession.

1606 CHESTNUT STREET will probably meet your requirements of a home. It is located in the choice Winoca section; has five rooms, with large porches, is moderately equipped; has good-sized lot and garage. We can offer attractive terms.

1902 WOOLCOTT AVENUE—Five-room cottage, large lot, house in excellent condition. Can sell at a moderate figure and on good terms.
