Police headquarters yesterday received notification from Warsaw that yesterday morning three young white ooys and one negro man escaped from the town jail and had stolen a Ford touring car in which they were headed towards Wilmington. The white boys were described as being about 20 years of age and all dressed in Uncle Sam's sailor uniforms.

The police were also notified yesterday of a robbery which occurred Friday morning at Wallace, a short distance from Warsaw. A pressing club was entered and four suits of clothes and two suit cases were stolen. Local officers are inclined to believe that the four men who broke jail are the ones who stole the four suits of clothes at

AT WAVE-SWEPT BEACH HANSON-ELLIS BOUT IS DECLARED A DRAW

Referee's Decision, Halting the Battle, Was Final-Match Thrown Out

Referee John Heracle's ruling governing Thursday night's match between Ellis and Hanson which was halted at midnight without either having gained a fall, given in writing today, throws the bout out of the series which is being wrestled for a purse of \$1,000, and puts the two men back where they were prior to the match-Ellis with one match to his credit and needing only one to cop the decision and Hanson with only a zero on his side of the ledger.

Heracle's ruling on the match is that here was no winner, that his decision rendered at midnight and calling off the bout, stands and that neither man accomplished anything through their work which extended over a period of three hours and 23 minutes, breaking all known records. The referee's decision, given in writing today and

bearing his signature reads: "I, John Heracle, referee of the Hanson-Ellis series of matches being wrestled here, do rule there was no winner of the match wrestled at the Academy on the night of January 27, 1921. I called the match at midnight, declaring it a draw, according to Queensbury rules. The match was a draw and there was no winner."

Since Heracle was declared the official referee and since the contract gave him absolute power in running the matches Hanson, even after coming back on the mat and gaining one fall was obliged to be governed by this ruling. Following Heracle's statement Promoter Cates issued the following:

"I regret very much that complications that tended to mar one of the prettiest matches ever staged here arose at a critical time but I was and the twelve staunch concrete pillars am powerless to change any decision sociation had secured a long term lease upon which the club's pier rested. FT. LAUDERDALE HOST TO PARTY OF HARDING

President-Elect Plans Fishing Trip After Today

MIAMI, Fla., Jan. 28.—The houseboat Victoria on which President-elect Harding is cruising down the Florida east, tied up tonight at Fort Lauderdale, about 30 miles above Miami, and is expected to complete her southward voyage to this port tomorrow.

Miami is the southernmost point on the Victoria's schedule, but after a short stop here Mr. Harding will transfer to a faster boat for a trip to a fishing ground to the southwest. He will remain there in seclusion for several days before beginning his return cruise to St. Augustine. In her sailing today through the

cortuous passages of the lower Indian river the Victoria, halted several times by obstructions of the channel, had to wait several hours for the drawbridge. With her arrival at Fort Lauderdale, however, her troubles were practically over, and she probably will dock here about noon tomorrow to put her distinguished guests ashore for a game of golf. An elaborate reception

was planned here for the Presidentelect and his party, but after consultation with him, officials of the local committee announced that his visit would be celebrated only by a display of flags and other patriotic emblems. It is now expected that tomorrow's call here will be more or less perfunctory, but Miami business men still hope that he will make a longer stop on his way back from his fishing
