Must Be Solved By World Leaders

ference at Versailles and is now at- to C. Le Roy Meisinger, government tached to the League of Nations' secre- meteorologist here. tariat staff, is the author of the forely special commissions, the personnel nated by the council at its forthcoming meeting.

The subjects that will be handled by the commission are enumerated by Mr. Sweetser as follows:

Reduction One Subject Reduction of Armaments.-Technical examination into the present condition of world armaments, now under way by the permanent military, naval and air commission of the league will be completed. In addition a temporary commission of experts in the political, social and economic world will be asked to submit plans for a reduction of armaments. The aim of this commission will be to get members of the league to agree to a proportionate and simultaneous reduction in military budgets, and to accept the principle of scientific and comprehensive reduction; of armaments to the least figure compatible with national security. Invesmunitions and war material, denounced as "a source of danger to the world through an extended sale throughout

Africa" will be undertaken. Permanent Court of International Justice.-Nominations of 11 judges, city to another. chosen for a period of nine years, are to be made next summer and the selections announced at the second assembly to be held in September next. The Japan, have signed the protocol pro- different route more favorable. the Leagen of Nations has yet registered in international relations.

Two important problems which had have the power of compulsory adjudication? And, second, should it be orvidual nations? These questions were laltimeter. decided by the assembly providing that

An international commission of nine is to be appointed by the council in accordance with an agreement reached on November 29. The question of mandates for the 13.000,000 or more people Turkey and Kiao-Chow, freed from opens one of the least advanced of all have been proposed by the allied powers so that the league is now in posmandates. These will be analyzed and, when necessary, possible changes rec-

International Economics and Finance formed within the league by the appointment of an advisory, economic and financial committee, the memberleading world financiers and economists. This committee in a sense will be the successor of the supremeteconomic council. It grew out of the Brussels' international conference and will be charged with the duty of considering the immediate application of that body's recommendations.

Other subjects to be dealt with by commissions are proposed amendments to the covenant of the league, registration and publication of treaties between member nations, methods of apthe international blockade and means of providing funds for the secretariat and auditing its ac-

Other commissions or organizations will take up methods of improving means of communication and transportation in Europe and co-ordination of international health organizations in combatting epidemics.

Humane Problems Under the head of humanitarian work come such subjects as the Armenian massacres and the white slave and opium traffics which are to be handled by the co-operation of several or all

white slave traffic is to be held this ably would have saved this money. summer. A commission of three qualthat part of the world.

Deliver to Lakeside Park and has taken the lead in the suppression 380 feet in the altimeter reading. of the opium trade by co-operative action, has turned the whole problem over to the league.

In conclusion, Mr. Sweetser declared

JUSTICE CRITICALLY ILL CHESTER. S. C., Feb. 6 .- Geo. W.

REVIEWS PROBLEMS SAYS "OCEAN OF AIR" NOW FACING LEAGUE IS STILL LITTLE KNOWN

Series of Important Questions Government Expert Believes Long Study Essential to Air Service

NEW YORK, Feb. 5.-Twelve import- WASHINGTON, Feb. 7.-The "ocean ant cogs in the machinery of the of air," which followers of aviation League of Nations, many of which are believe some day will be filled with to we set in motion when the council great air liners playing their way of the league convenes in Geneva, from city to city on regular schedules, Switzerland, February 21, and the must be studied from a meteorological problems which await their action, are standpoint and the whims and fancies defined in a forecast of the work of the of the elements must be reduced to league which has just been received easily understood data before the Arthur Sweetser, an officer of the dream of world wide commercial avia-American commission to the peace con- tion can become a reality, according

Mr. Meisinger, in a paper discussing cast. He says the twelve cogs are real- the effect of air conditions on commercial aviation, says, that meteorolof which will in some cases be desig- ogy is the mainstay of aviation, regardless of the confidence a pilot may have in his motor and in his plane.

The 'ocean of air," he says, constantly is changing and does not contain steadfast currents such as the gulf stream and the Japan current which are found in oceans of water. He points out that even the prevailing belief that far above are strong westerly winds which never change sometimes is shocked by facts revealed through scientific study of aerial con-

Must Have Data

condition of the aerial routes through which the air liners of the future would nurse and cook are employed. Salary travel, Mr. Meisinger declares that small, but conditions pleasant. Apply before big commercial aviation companies can operate on a large scale, at all times of the year, in all places tigation of the private manufacture of and under all circumstances must be gathered. He suggests placing consulting meteorologists on the staffs of all aviation companies, these men to the less civilized areas in Asia and study the air as it affects aviation and to decide daily what altitude and what route a plane should take from one

Air conditions are so changeable, Mr. Meisinger says, that a plane traveling between the same two points might have to take a different route almost list of candidates will be prepared every day in order to make the trip mainly by The Hague court of arbitral with the least danger. Also, a plane justice and all nominees will be voted flying from New York to Chicago might upon separately by the assembly and find a certain route the best, while one the council. So far 22 nations, includ- traveling from Chicago to New York ing Great Britain, France, Italy and on the same day might find an entirely

viding for the court whose adoption by Some of the things which airplane held to be the greatest single advance aerial commercial lines will have to consider, he says, are the speed and direction of the wind in the area to to be decided before the court begins clouds and fog, the frequency and into convene were, first, should the court tensity of thunderstorms, the vertical temperature distribution, the normal values of precipitation at flying fields ganized by resolution of the assembly and the effect of atmospheric pressure or submitted to ratification by indi- on aerial instruments, particularly the

the principle of compulsory adjudica-sary information in a single pathfindtion, and that the organization of the ing flight over the area, he continues, court should be subject to ratification but by gathering data in numerous of individual nations. Action for or flights at all times of the year and against the court will be taken in a under all circumstances, a system of number of parliaments which meet averages could be devised which would aid greatly in dispatching planes over aerial routes.

Mr. Meisinger discusses the various members from non-mandatory powers. meteorological factors in aviation in

the following manner: Discusses Factors "Wind-It is necessary in commercial

aviation to take advantage of any conof the Pacific islands. South Africa, ditions which will aid in economy of must determine the speed and direction N. C .the league's problems. Tentative drafts of the prevailing winds over the proposed route. These winds should be determined, not at the surface alone, session of the terms of all prospective but to as great altitudes in the free air as possible. It is likely that certain elevations will, in the long run,

"Cloudiness and fog-The influence A permanent, centralizing economic of the lower clouds and fog upon flyand financial organization is to be ing is very great. As a rule it is essential to retain sight of the earth. When there are low clouds and fog. ship of which will be composed of obviously is a hazardous proposition. however, to keep in sight of the earth "The danger of flying in clouds is great, not only because the pilot may the clouds may reach the ground without the pilot's knowledge, thus mak

ing a crash likely "It is necessary, therefore, in laying out of proposed aerial routes to consider carefully the frequency of low clouds and fog.

"Thunderstorms-It is true that usually the thunderstorm is essen- WANTED-A position as chauffer or frequency of occurrence of thunderstorms along a given route is a thing that it is vitally important to know "Temperature-The knowledge of

perhaps, the most unimportant of the weather factors. With improvement of aircraft engines so that they function at low temperatures and the heating of cabins of planes, the influence of the temperature factor is lessened."

Concerning the meteorological factors in selecting a flying field, Mr. Meisinger says: "The meteorological aspect cannot governments in the league. The Unit- be neglected, for it is conceivable that, ed States. Spain and Brazil, at the in spite of a hundred desireable featcouncil's invitation, have agreed to use ures on a landing field, there may be their influence to end the Armenian certain meteorological characteristics horrors and the allied powers, through which would make it utterly unfit for SINGLE physician wants place to live

Ganzer to George T. Johnson and D. L. Latta, partners trading as Globa Baking Company, by lease duly recorded in the office of the Register of Deeds of New Hanover County in Book 74, at page 610, etc., and by the

said Johnson and Latta to the Globe Baking Company, (Corporation), by instrument in writing bearing date the 12th, day of December, A. D. 1914, and duly recorded in the office of Register of Deeds of New Hanover County, and by the said Globe Baking Company, (Corporation), to the Wilmington Savings and Trust Company, trustee, by FLOORS LAID, scraped and finished; deed of trust duly recorded in the office old floors scraped at attractive of the Register of Deeds of New Han. prices. A card will bring M. L. Broth- over County, and by the said Wilming. tee, to M. J. Corbett by instrument in writing bearing date of the 10th day by not reading the Literary Digest corded in the office of the Register of Deeds of New Hanover County, in Book 103, at page 259. Together with all the rights, por

> tions set forth in said lease from the Latta the intent and purpose of this instrument being to convey to the party of the second part all the rights. powers, privileges, property, estate and interest in the property conveyed by the said lease and also Second: All the right, title and in

ers and privileges granted in the said

papers or either or any of them and

terest of the Globe Baking Company in and to all the buildings and structures on the property mentioned in said lease and commonly known as the Ganzer property. Third: All machinery, tools, personal property of every nature and kind on said premises belonging to the Globa Baking Company which were by the said Globe Baking Company conveyed to the Wilmington Savings and Trust Company by the deed of trust hereinbefore referred to, as well as all property thereafter acquired, by the said Globe Baking Company which were by said trust deed conveyed to the Wil mington Savings and Trust Company, trustee, and by it conveyed to M. Corbett, including three ovens, one

cake oven, one dough divider, one rounder, one automatic proofer, on sifting outfit, one dough mixer, with automatic flourer and scaler, seven steel troughs, 32 bread pan racks, two cake machines, pan racks, ple racks, bread cases, shipping baskets, two Iron safes, four cases Silent Salesman, office supplies and fixtures and any other property conveyed and transferred my the said deed of trust and now in existence and not particularly enumerby the party of the second part to the 2-7-2tc said George T. Johnson by instrument in writing bearing this date. Also all improvements, additions, and replacements which the said George T. Johnson may make to said property, as well as all other like articles which he may hereafter acquire during the existence of this mortgage, and the said George T. Johnson hereby stipulates and agrees to replace any of the property herein

mentioned which may be worn out it

its use with other like articles, which

when acquired shall be conveyed here-

by as security for the payment of the

notes herein mentioned. Terms of sale,

M. J. CORBETT,

"A BEAUTY!"

That's what you'll exclaim, my boy, when we show you the fine points about this Harvard Bicycle. We cannot describe all of the advantages about this dandy wheel in this small space, but we would like to have you call and examine this handsome "bike."
