Five O'clock

In the old times of golden-gowned Romance
When deeds wore grace, and color
clung to speech,
When days were rich in splendid circumstance
And living had a gesture and a
reach—
Then had we been what figures in a
tale?
You, with your crown of bronze and
cloudy hair,
Child of what castle—till my dented
mail
Gleamed on your drawbridge, and
you met me there.

Who knows what roads we might
have gone together,
Helped by what friars to evening
crust and ale,
With candles sputtering in the windy
weather
Something . . . my soul remembers
and gives hall
To you who sit there, peering out my
tea.
Something remembers—“Yes, ah,
thank you . . . three.”
David Morton.

DELIVERS ADDRESS AT

CAROLINA UNIVERSITY

Dr. Wood of Wilmington Speaks

Before Society

(Special to The Star)
CHAPEL HILL, Feb. 9.—Dr. Edward
J. Wood, of Wilmington, speaking last
night before the Elisha Mitchell Scien-
tific society at the University of North
Carolina on “Our Debt in Medicine to
the British,” paid high tribute to the
work of English scientists, especially
in many forms of sub-tropical diseases.
Many of these diseases, he said, “were
prevalent in North Carolina, although
not generally so regarded by most
physicians.”

Dr. Wood has recently spent much
time studying in London and was in
personal touch with many English
medical leaders who had worked in
Egypt and in other parts of Africa, in
Mesopotamia, and in the West Indies.
He thought the war had demonstrated
their clear superiority in handling
tropical diseases and he described in
detail some of the work of recent
English medical expeditions.

“The English have great respect for
much of the work of the American
public health service,” he said. “They
regard the cleaning up of the Panama
canal country under Gorgas as the
crowning achievement of American
medicine.”

Dr. Wood graduated from the uni-
versity in 1899. His father, Dr. Thomas
F. Wood, a distinguished physician,
gave the Wood collection of a thou-
sand medical volumes to the university
and established the Wood scholarship
in the medical school.

COTTON MILLS AT SANFORD

ADD LOT OF NEW MACHINERY

(Special to The Star)
SANFORD, Feb. 9.—The Sanford Cot-
ton mills, of which John R. Jones is
president and W. C. York general man-
ager, has recently improved and added
to its equipment to the extent of \$225,
000. By so doing it has increased the
amount of production and greatly de-
creased the cost of the same. This mill
has never ceased to run on full time. It
has 200 or more operatives.

This mill has, perhaps never had a
brighter outlook. A steady stream
of substantial orders coming in, with
the cost of production going down, this
institution seems to be in a position to
weather any ordinary storm in the way
of a financial depression.
