

Workers Hear Hospital Campaign Outlined and Are Ready to Start

Division Leaders and Captains of 20 Teams That Will Seek to Raise \$100,000 for James Walker Memorial Hospital. Hear Preliminaries Explained and Get Ready to Go Out After Funds Middle of Next Week

To a man and to a woman the leaders of the two divisions and the captains of the 20 teams to be engaged in the \$100,000 drive for the James Walker Memorial hospital met last night and mapped out the preliminaries for the start of the big campaign. The men and women who will lead the team to certain victory, as those back of the movement see it, assembled promptly at 8:30 o'clock at the Variety lunch room and after supper, buckled down to work.

Rev. Frank Dean, who heads the executive committee of the campaign, clearly and forcibly explained the objects of the drive and impressed his hearers with the importance of their work to the city of Wilmington. He declared that while the men and women who had worked in campaigns during the war had been actuated by the high motive of patriotism, that in this campaign they would feel the impulse of the greatest motive in the world—that of charity, which had come down through all the ages in sweetness and glory. Those who work in this campaign will be standing for Wilmington's greatest charity, he declared, and they felt certain that the citizens of Wilmington would quickly and gladly welcome the opportunity of contributing.

He stressed the great need for a nurses home and spoke of the beautiful idea of having such a memorial to the beloved Dr. Alexander D. McClure, and stressed the importance of making a success of the drive so that the community will not suffer through lack of ample hospital facilities. He then introduced to the meeting Edgar T. Honey, who is directing the campaign, and Mr. Honey explained fully all the details of the drive and the workers with increased enthusiasm and made stronger their confidence in the success of the issue.

After a general discussion the meeting adjourned, with each worker expressing the belief that the campaign is going to be a success, believing that the needs of the institution must be realized by the public and the citizens must be appreciative of the opportunity offered them to help and also understand that unless they help the hospital cannot measure up to the requirements, the needs of the city. The campaign will open Tuesday and will continue throughout the week. The actual canvassing will not really begin, however, until midweek. Tuesday being devoted to the final line-up. All captains and their team workers will meet at the Variety lunch room that night to form for the start of the big drive. Every day during the campaign the workers will gather at 1 o'clock to make reports and further map out the work of the campaign.

The members of the executive committee were present at the meeting last night and will be in attendance upon every other session, as well as working ardently in the campaign. Today the Boy Scouts will enter the movement and their first duty will be the distribution of signs for automobiles and every autist is asked to look out for the scouts and aid the great work by displaying the sign, which proclaims the big cause. Headquarters of the campaign felt much elated yesterday over the many expressions of commendation of the drive and the enthusiasm of the workers. The greatest confidence is expressed in the successful outcome of the project, which means so much to Wilmington's great charity.

NEW YORK, Feb. 11.—The New York boxing commission today ruled as illegal the use of rubber mouthpiece protectors such as worn by Ted "Kid" Lewis in his bout at Madison Square garden last Monday with Jack Britton, world's welterweight champion.

The ruling was announced after a hearing before a sub-committee at which Britton, charged with misconduct in the ring, admitted that he went to his opponent's corner just after the second round ended and struck Zelig Goodman, one of Lewis' seconds, during an argument over the use of the protector. Decision in his case was reserved for consideration of the entire boxing commission and license committee.

HAD CASH IN BANK, IS DECLARED NO VAGRANT

Cases Against White Man and Negro Are Dismissed

Albert Biggs, white, and E. J. Crane, negro, both of whom were tried at the same time on the charge of vagrancy by Recorder George Harris yesterday morning, were found not guilty. The white man, according to the testimony produced in court, just arrived in the city on the morning of the day he was arrested; and the negro, who displayed a bank book showing that he had \$2,500 on deposit, also arrived in the city on the same date.

It developed that the white man is a jeweler of no mean ability, but he admitted that his finances were low. He is reported to be highly educated, and to have recently come here from Richmond and Baltimore, producing a license to do business as a jeweler in the latter city.

Recorder Harris warned the two to hurry and get employment, or to seek fields new.

General Counsel Says Road Acts in Good Faith

Morning Star Bureau
Yarborough Hotel
By R. W. POWELL
RALEIGH, Feb. 11.—Matthew's resolution to investigate the agreement between the Atlantic Coast Line and the state was unanimously consigned to innocuous desuetude this afternoon when George B. Elliott, general counsel for the road, told the judiciary committee that the Coast Line had acted in good faith with the state since the agreement was renewed with Governor Craig.

The resolution to investigate was prompted by a local case in Bertie county which was transferred from the state to federal courts at the instance of the director general of railroads while the Coast Line was under federal control. No causes of action have been transferred because of diversity of citizenship, Mr. Elliott explained, and the committee was satisfied.

Merchandising "111" "ONE-ELEVEN" 20 cigarettes 15c

IT is not often that a merchant can seize an opportunity such as this. Such opportunities are rare. After the Armistice, the rate of exchange prohibited the exportation of certain fine types of leaf tobacco. We purchased this tobacco and are using it in the manufacture of "111" (ONE-ELEVEN) CIGARETTES, producing a new product—a quality product—and one that is giving exceptional satisfaction, for these types of tobacco have never previously been used in the manufacture of cigarettes selling in this country.
