

UNIVERSITY PAPER HAS AN EVENTFUL HISTORY

Heel of Chapel Hill Has Enjoyed Services of Notable Writers

(Special to The Star)

CHAPEL HILL, Feb. 25.—Twenty-eight years ago last Wednesday, February 23, 1893, the first issue of the Tar Heel, student newspaper at the University of North Carolina, appeared on the campus under the leadership of Charles Baskerville, editor-in-chief, and head of the chemistry department of the College of the City of New York. Walter Murphy, of Salisbury, the well known legislator, managing editor, and A. H. McFadden, business manager.

The present Tar Heel, many times as large and accounted rather more of a metropolitan publication, celebrated its birthday in a special edition in which it grows its own whiskers and wears its illustrious past.

Associated with Editors Baskerville and Murphy and Manager McFadden were the original Tar Heel were such well known North Carolinians as A. C. Pitts, W. P. Wooten, Perrin Busbee, and J. Crawford Biggs. The publication flourished from its birth, survived several newspapers, The Blue and White, and has been a vital factor in campus life during its 28 years.

The present staff, headed by Daniel Grant, of Sneed's Ferry, editor-in-chief, and Jonathan Daniels, of Raleigh, son of soon-to-be Editor Josephus Daniels, managing editor, has turned this year what is general considered the best of all Tar Heels. The paper comes out twice a week, carries far more news than its predecessors, handles its material with more of a professional manner, and overcomes successfully the handicap of having to do copy to a printer many miles away. The printing is done in Burlington, there being no adequate facilities at Chapel Hill.

of the New Bernian; H. G. West, of the Thomasville Chairtown News, and many others.

Among the former editors-in-chief who are not now in newspaper business are D. B. Smith, of Charlotte, the late Edward K. Graham, W. J. Brogden, R. D. W. Connor, P. C. Whitlock, Marsden Bellamy, H. M. London, Whitehead Klutz, Brent S. Drane, J. C. E. Ehringhaus, N. W. Walker, E. W. Myers, James A. Gwyn, W. A. Graham, S. S. Lamb, W. Frank Bryan, Frank McCann, H. B. Gunter, Frank P. Graham, O. W. CONTENDING FORCES IN GERMANY

Maximilian Harden in the World's Work for March:

"In October, 1918, Germany was prepared to admit that the imperial government had acted wantonly, unconsistently, and untruthfully, and had sinned against humanity. On the right, the beautiful cloud shapes of understanding between nations, disarmament, and the reign of international justice disappeared, the significance of the reality to acknowledge sin and repentance vanished. Out of this there grew on the left the faith that capitalism, the chief offender, must everywhere, in republic or in monarchy, be destroyed by a violent mass attack. On the right, the determination grows to strive with all forces, even those of cunning and deceit, for the resurrection of the old Germany, strong in military strength, and determined upon the will-to-power. Thus it is in November, 1920."

A THOROUGH-GOING BEAST

Carl E. Akeley in the World's Work for March:

"A hunter I met once told me an experience he had with an African buffalo which shows in rather a terrible way the characteristics of the animal. He and a companion wounded a buffalo and followed it into the long grass. It was lurking where they did not expect it and with a sudden charge it was upon them before they had a chance to shoot. The buffalo knocked down the man who told me the story and then rushed after his companion. The first victim managed to climb a tree although without his gun. By that time the other man was dead. But the buffalo was not satisfied. For two hours he stamped and tossed the remains while the wounded man in the tree sat helplessly watching."

COUNSEL FOR THE NEEDY

Maximilian Harden in the World's Work for March:

"Every country knows three or four tried men and women whose opinion it values, from whose advice and acts it hopes for sane action, but who strive for no official position, no seat in parliament, nor do they reach after place or position, because they are strong personalities not to be adapted to a party yoke. These must be heard in this hour of deepest need."

DECLINE IN EXCHANGE HITS CHILE VERY HARD

Peso Has Dropped From 12 to Nine Pence, While American Dollar Soars

VALPARAISO, Jan. 25.—(Correspondence Associated Press).—The fall in the rate of Chilean exchange on London from nearly 12 pence to nine pence per peso in the last few months and the abnormal rise of the American dollar until it has been quoted above seven pesos, the highest in five years, had a depressing effect in financial and commercial circles throughout the country. The normal quotation of the dollar is above five pesos.

Chilean firms and importing agents with connections in the United States virtually suspended all purchases there owing to the premium on the dollar. Meanwhile, quantities of American merchandise, variously estimated at \$1,000,000 to \$2,500,000 accumulated in the customs houses, the consignees having refused to accept the goods against the high rate on New York. Commercial bodies here and in Santiago have been closely observing the general situation with a view to suggesting to the government measures to relieve what has been described as an "acute commercial crisis."

The financial condition of the country and the problem of stabilizing Chile's money, which has a wide fluctuation, are now occupying the attention of the new government which came into power December 23 last. President Alessandri is known to favor establishment of a central bank, under government control, to facilitate the conversion of paper money into gold. The country's conversion fund now amounts to 114,110,000 Chilean gold pesos. It is estimated 150,000,000 gold pesos are required before the conversion law, passed by congress several years ago, can be applied. Its application has just been postponed until December 31, 1921.

Chilean paper is calculated in terms of British currency. Weakness of the pound sterling against New York is said in some quarters to have contributed to the drop in Chilean exchange. Another reason is said to be the lack of sales of nitrate from which the government derives more than 50 per cent of its annual income.

WOMEN ARE INVALUABLE IN MODERN BUSINESS WORLD

So necessary are women employees to the successful accomplishment of business these days, according to the officials of the Columbia Graphophone company, that this company has arranged for special women's rest rooms in the new quarters which it will occupy shortly in the Gotham National bank building on Broadway at Columbus circle.

AMERICAN EXPLORERS GO TO SOUTH AMERICA

To Search for a Vast Store of Wealth in Diamond Country of British Guiana

NEW YORK, Feb. 25.—Two young Americans sailed from this port today for South America to search for a vast store of wealth supposed to lie in the "chimney" of the diamond deposits of British Guiana. At Georgetown, the capital of the British possession, they will be joined by a third adventurer—some American who has outfitted in Paris.

KHAN OF KHIVA AND STAFF ARE RELEASED BY SOVIET

COPENHAGEN, Feb. 9.—(Correspondence Associated Press).—The Khan of Khiva, his prime minister, members of his military staff and dignitaries of his court are imprisoned in Moscow, says a Danish business man, who recently arrived here after having been in a Moscow prison for about a month.

The khanate of Khiva, of which the city of Khiva is capital, is in Russian Turkistan and formerly was an important kingdom of Asia. In 1873 it became virtually subject to Russia, though for a time thereafter it maintained a certain amount of independence.

That the soviet government of Russia has been active in Turkistan has been indicated by recent wireless messages from Moscow, stating that a congress of young bolsheviks was recently held at Tashkent. Other Moscow dispatches have told of meetings of some of the Mohammedan races of central Asia ostensibly for educational purposes.

SUMMER TIME IN FRANCE

PARIS, Feb. 8.—(Correspondence Associated Press).—Summer (daylight saving) time this year will begin in France on the night of March 14. Last year summer time was inaugurated in February but the cows are reported to have gone on strike and refused to be milked an hour earlier, the cocks failed to crow until their regular hour and the farmers made numerous complaints to the ministry of agriculture against the bringing in of summer time in the worst winter month, summer time will end October 24-25.

SOON GIVE SUFFRAGE TO URUGUAYAN LADIES

Little Latin-American Country Well in Forefront of Modern Legislation

MONTEVIDEO, Uruguay, Jan. 25.—(Correspondence Associated Press).—President Baltazar Brum believes that Uruguay is well in the forefront of advanced legislation in many respects and that it will soon take steps which will lead eventually to full suffrage for women.

The laws enacted by the Uruguay congress for the protection of workingmen, he said, had made labor contented in this country. One of the laws now pending provides that labor can not be employed in the country districts for less than \$20 a month with board and lodging. In the city the minimum is set at approximately \$45 a month.

"We also have a law," said Dr. Brum, "giving an obligatory day of rest each week and this has been made to include domestic servants. Our labor is satisfied. Ship all your agitators here; we are not afraid of them. They will not find congenial soil in which to work."

In regard to woman suffrage, he said, the constitution of Uruguay provides for votes for women but that the machinery for their balloting has not yet been provided by the act of congress. He added that he believed that within two years women would be given the right to vote for municipal representatives and that would lead to complete suffrage for them.

Dr. Brum spoke with some pride of the educational facilities in Uruguay, saying it was now possible for a child to be educated from the time when he begins to learn to read, through the national schools and universities until he receives his degree as a lawyer, without having to pay any kind of a fee whatever.

With regard to prohibition, the president stated that there was quite a strong feeling among the legislators of the nation in favor of curtailing the facilities for the sale of alcoholic beverages, as well as their distillation. This tendency apparently was in favor of allowing the people to consume wines and beers but to restrict, to a large extent, the sale of spirits containing a large percentage of alcohol.

CONFER ON BASEBALL CASE

CHICAGO, Feb. 26.—Daniel P. Cassidy, attorney for Ed Cloutte, today conferred with attorneys of other American League players who will go on trial March 4, charged with conspiracy in connection with the alleged rigging of the 1919 world series. Mr. Cassidy refused to say what attitude Cloutte would take in the trial.

North Carolina Home Building Association Announces the Thrift Series for Children

Thrift should be taught to your children from the time they enter school. We are impressed each day by the necessity of saving a small part of our wages each week, while we are young, for the ages have taught us that the only time to save is while we are young. Therefore, thrift should be taught in the school as well as at home. To celebrate its thirty-first birthday, THE NORTH CAROLINA HOME BUILDING ASSOCIATION will open the seventy-sixth series next Saturday, March 5, 1921, which series will cater especially to the young people. This association has been doing business for nearly half a century and has never lost a dollar. It does strictly a building and loan business, and is run on a safe, conservative and yet progressive plan.
