

COMMITTEE TO QUIT JEWISH RELIEF WORK

Joint Committees to Withdraw from Poland, Where \$25,000,000 Was Spent

WARSAW, June 19.—(Correspondence Associated Press.)—The American joint distribution committee which has been doing relief work among the Jewish population in Poland nearly two years is preparing to greatly reduce its activities early in July. It was announced in Warsaw recently. Approximately \$25,000,000 has been expended to date.

One of the principal tasks undertaken by the joint distribution committee was the sending of money from individuals in America to poor relatives in Poland. This work has already been discontinued.

While the welfare work of the joint distribution committee is to be cut down about one-third, the care of a limited number of orphans in Poland and Jewish refugees coming from Russia is to be continued. Reconstruction work in the war-torn districts is also to go on. 300 villages scattered along the eastern borders of Poland already having been benefited by water supply stations.

An educational campaign, under direction of Dr. Harry Plotz, of New York City, designed to teach the benefits of sanitation, was inaugurated this year. In the future it is planned to reach virtually every Jewish home in the smaller towns throughout Poland, which has a Jewish population of something like 4,000,000. The total population of the new republic is approximately 30,000,000.

Sixteen doctors from America who began their work in Poland last fall are to continue indefinitely, working in the districts where there is the most need. Under supervision of the joint distribution committee medical department, 22 hospitals have been established in various Jewish settlements. Some 500 public bathhouses have been erected in as many villages, many of which had never had such an institution until this spring.

Within the last few months more than 100,000 children have been vaccinated against smallpox by the joint distribution committee doctors and their assistants.

Hereafter virtually all efforts are to be directed more toward productive work designed to help permanently the thousands of war sufferers and others who have been aided to get a new start in life and who are gradually becoming independent of charity.

WOMEN FORCED TO LIVE WITH CALVES IN RUSSIA

Frank Statements of Newspapers Reveal Conditions

REVAL, Esthonia, July 9.—(Correspondence Associated Press.)—Those who have the idea that the Bolshevik newspapers printed in Russia say only rosy things about the country could quickly be disillusioned by perusal of the papers themselves. During the past four months the principal Moscow and Petrograd newspapers have been startlingly frank about some of the conditions that communism has produced.

The Moscow Economic Life not long ago wrote a following description of conditions on one of the communist "model" farms:

"The farm presented a picture of complete desolation for years that have been no repairs. Windows are broken, walls are falling in and some of the buildings are in ruins. Workers live in tents and huts that leak from smoke. In one of the rooms there lives a calf, placed there by the foreman despite protests of women tenants.

"There are neither potatoes nor vegetables for the workers. In the summer no one has bothered to store them. People are starving, cattle are starving. In the farm there are 32 persons, of these six are orphans."

The old program of the bolshevik government consisted for an increase in the number of these "model" farms. The new program by which the peasants are given nine years' tenure of their land, practically does away with them.

No less frank were more recent admissions in the Moscow newspapers about the economic state of Russian factories, some of which were shown to be producing less than five per cent of what they produced before the war.

BRITAIN'S CHIEF POST-MASTER WANTS ADVICE

Asks Business Men to Lend Aid to Eliminate Deficit

LONDON, June 21.—(Correspondence Associated Press.)—The postmaster-general has called upon the business men of Great Britain to assist him in solving the problem of how to operate the postal telegraph and telephone services efficiently and without a deficit.

A council of business men has been appointed to assist in the management of the department. H. Gordon Selfridge, the American merchant in London, is one of the 19 appointees. The other include bank directors, presidents of chambers of commerce, railroad managers and other leaders of industry. One is a newspaper proprietor, Viscount Burnham, of the London Daily Telegraph.

The postoffice department estimates for the current year show a deficit of \$500,000 pounds. The postmaster-general had proposed to cover this by increasing the rates on the second-class mail, but now this project has been abandoned.

The question why the department should show a loss has been the subject of much debate in the newspapers. The department has a monopoly in the United Kingdom of the mails, telegraphs and telephone, thus making it the greatest business in the country. Yet, on a combined revenue of 70,000,000 pounds a year, it has been run at a loss. One writer has attributed the deficit to the doubling of the penny postage on letters which took place during the war and its retention since.

CALVIN'S BURIAL PLACE IS DISCOVERED, IT IS CLAIMED

GENEVA, July 9.—Leaders of the Protestant church throughout Europe are showing lively interest in the announcement that the burial place of John Calvin, the Swiss divine and reformer, has been revealed after having been unknown for 357 years.

Calvin died in 1564 and was buried somewhere in the Plain-Palais cemetery here, but no stone has marked the spot. According to the legend, he was buried secretly from fear that his grave would be desecrated.

Knowledge of the location of the grave is said to have been held by one family for more than three and a half centuries. The secret is said to have been handed down from father to son for all these generations.

Disclosure at this time is accounted for by the statement that the last holder of the secret, Eugene de Speyr, has no descendant and, being 71 years old, decided to reveal the site of the grave to the council of the Protestant church in Geneva.

BIG BIRD PURSUES PLANE

LIMA, Peru, July 9.—(Correspondence Associated Press.)—A condor, a huge bird which inhabits the Andes mountains, pursued an airplane in which Signor Rolandi, an Italian aviator, recently flew from Lima to Cuzco. The Italian made the flight of 700 miles in three hours and forty minutes.

When the aviator reached the ancient capital of the Incas the big bird was still accompanying the airplane, apparently preparing to attack it.

WAYS OF THE SENATE

In view of the attack by certain United States senators on Mr. Mellon's plan for refunding the allied war debt, it is interesting to note that the total interest on this debt, namely, \$500,000,000, is approximately the same as the senate, some time ago, voted as a naval appropriation. In other words, \$500,000,000 is to be spent as a defensive measure against a world so impoverished that it is at present unable to meet a debt of his account.—Exchange.

CONVENTION MAY CHANGE CHARACTER OF HOTELS

American Association Contemplates Radical Move

CHICAGO, July 9.—The character of the American hotel business may be affected in marked degree by action taken at the annual meeting of the American Hotel Association opening here Monday, according to Secretary J. K. Blatchford. He reported these proposals coming up:

Recommendation of the federal board for vocational education that the hotels set aside \$150,000 to establish training schools for employees.

Reorganization of the National Hotel Association to put in on a delegate basis.

Suggestion that a travel bureau be established in the department of the interior to encourage travel in this country.

Endorsement of "right name" legislation making false registration punishable by law.

Secretary Blatchford said that one of the leading universities of the country was considering a course in hotel management.

"Since the passing of the hotel law with prohibition," he added, "the public regards the hotel business in a better light, and fathers and mothers are more inclined to view it as a field for their sons and daughters. The need for the development of hotel executives and employees is urgent. I think if the recommendations of the vocational board are acted upon the hotels will attract some of the best talent to be had."

Other allied conventions to be held here next week include those of the Hotel Men's Mutual Benefit Association, the Great Lakes Hotel Association, the American Caterers' Association, the International Stewards' Association, the American Association of Dining Car Superintendents and the Greeters of America.

AMERICAN LEGION TO ACT TO PREVENT MISUSE OF BENEFITS

INDIANAPOLIS, July 9.—National headquarters of the American Legion has taken steps to prevent misuse of government benefits for ex-servicemen, according to a statement made today by Lemuel Bolles, national adjutant.

"It has been brought to our attention that a few men have deliberately falsified claims for compensation, vocational training and medical treatment," said Mr. Bolles. "Considering the large number of wounded veterans who are entitled to every benefit the government can give, the number of imposters is not large. But, few as they are, their action works a hardship on the disabled."

"Cases of deception have been numerous lately, due to the rush of claims, following the legion's fight for government efficiency. However, the legion will find time and means to expose any imposters who come to us for assistance in pressing their claims." All legion posts have been instructed to furnish government bureaus with information they obtain about men concerning whose disability any doubt exists. The post activities in favor of the genuinely disabled will continue.

"The passing of the hotel law with prohibition," he added, "the public regards the hotel business in a better light, and fathers and mothers are more inclined to view it as a field for their sons and daughters. The need for the development of hotel executives and employees is urgent. I think if the recommendations of the vocational board are acted upon the hotels will attract some of the best talent to be had."
