Forty-nine Applicants Pass the State Medical Examiners

Result of Examinations Held by the North Carolina Medical Board at Raleigh June 20-25—Thirty-two Physicians Granted License by Reciprocity, Including Four Wilmington Practitioners—Lists

GREENSBORO, July 9.—Secretary K. P. Borer, state board medical examiners, issues the following: "Forty-nine applicants passed the examinations of the board of medical examiners of North Carolina and will be granted a license to practice medicine and surgery in the state. Those examinations were held in the city of Raleigh beginning June 20.

Dr. William A. Kirksey, of Morganton, made the highest average grade on examination, it being 95.7. Dr. Ernest H. Alderman, of Greensboro, was second highest with a grade of 94. Dr. Roy C. Mitchell, of Mt. Airy, was a close third with an average of 93.8.

The college graduate is doubtless puzzled when he learns that his book knowledge will get him a job at \$75 a month in an office, while his batting eye will get him a job at \$5,000 a year.

Ernest H. Alderman, Greensboro; Arthur C. Ambler, Asheville; Osbourne O. Ashworth, Asheville; Francis M. Ay-Law, Richmond, Va.; Maurice E. Baker, Winston-Salem; George E. Bell, Wakefield; James H. R. WAR GAS LESS FATAL AND LESS CRUEL THAN WEAPONS

LONDON, May 9.—(Correspondence Associated Press.)—Sir William J. Pope, professor of chemistry at Cambridge university and president of the Society of Chemical Industry, asserts in the Chemical Age that chemical warfare has come to stay and pleads for an open recognition by the government of poison gas research.

He says that in the war poison gas was less fatal and far less cruel than any other weapon; and points out that it would be simple to devise high explosive shells which would liberate large quantities of carbon monoxide, against which all known protective measures are useless.

"No reason," he says, "exists why a chemical should not be made which does not kill but produces local anesthesia, causes violent sneezing for a few hours or leads to some form of physiological intoxication which may prove of great military value."

DISCOVER VASE IN TOMB
ATHENS, June 18.—(Correspondence Associated Press.)—Excavations being carried on at Delphi by the French school in Athens have resulted in the discovery in a tomb of a vase believed to be of great value because it bears the signature of the noted ceramist Phasides, only two pieces of whose work have hitherto been extant.

HIS CONSCIENCE TROUBLED HIM
I have done wrong, please forgive me for not doing my duty and being true before. I am thankful to you for the good remedy He gave you. I would not take \$500 for the good that these gave me. I have been sick for many years with gas in my stomach and indigestion, but since I have used your wonderful Remedy two bottles I have had no such trouble. A simple, harmless preparation cleanses the catarrhal mucus from the intestinal tract and allows the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis, to subside. The dose will convince or money refunded. Write R. Bellamy and drug store everywhere.—(adv.)
