POISONED HUSBAND, CHARGED.
GREENSBORO, Ga., Aug. 21.—Mrs. W. W. Williams will face trial here tomorrow morning in Greene county superior court on a charge of murder in connection with the death of her husband last March. A. L. Campbell, a railroad foreman, also named as one of the principals in an alleged poison plot is in a hospital in Augusta. Dr. Edgar Everhardt, chemist, of Atlanta, testified at the commitment hearing that he found poison in the stomach of Williams.

NEW YORK, Aug. 21.—The Cleveland world's champions and their New York Yankee rivals are stumbling along in their efforts to cut distance each other in the American league pennant race, while Pittsburgh now has little to fear from the New York Giants in the National league chase. The Indians play host to the Yankees this week, and the Pirates visit New York.
The American league honors should go to the club whose pitching staff steadies for the final spurt next month. New York is outbaiting Cleveland at present, but there is little to choose between the pitching strength of the two teams. Washington is tightening its grip on third place by good twirling. Johnson displayed old-time form last week, Erickson shut out Chicago with three hits in 12 innings Saturday, and Mogridge whitewashed the White Sox today. Boston continued its good play of the previous two weeks and advanced to fifth place, close behind St. Louis. The pitchers of the other second division teams, on the whole, are being hit hard.
The Pittsburgh Nationals have a firm grasp on the pennant. If the Pirates win 20 of their remaining 39 games, New York could go into first place only by winning 26 out of 36. Pittsburgh has a marked edge on its rival in both pitching and batting. Since July 30, when the two rivals were tied for first place, the Pirates have won 15 games and lost five; while New York won 10 and lost 13.

With the Giants faltering, Boston sees home of capturing second place. The Braves' moundmen are not performing in the manner that carried the team along in mid-July, but the team batting partly is offsetting this weakness.
Brooklyn braced when St. Louis threatened its fourth place position. Although the Superba pitchers are doing well, it is too late for the team to advance. Cincinnati is doing the best of the second division teams. St. Louis and Philadelphia are hitting well, while Chicago is playing an in and out game. The Quakers fought hard before losing three out of five to Pittsburgh last week.

CHARLESTON IS NOT FAR IN REAR OF COLUMBIA LEADERS
COLUMBIA, S. C., Aug. 21.—With five weeks of play remaining in the South Atlantic association, Columbia has a lead of five and one-half games over Charleston in second place. The champions gained one-half of one game on the runner up during the week although both the leading clubs suffered reverses. Columbia won two games and lost four while Charleston won two and lost five. Augusta made the best record of the week and by winning six and losing but one game advanced to within one game of Greenville in third place. Greenville won four games and losing three. Charlotte secured an even break for the week with four victories and the same number of defeats while Spartanburg won three games and lost four.

The question of the divided season which created a sensation in the circuit and resulted in action by the Charleston club supported by Columbia, in the courts, seems to have been definitely dropped following Judge Memminger's order Friday, continuing the injunction by Associate Justice Watts of the South Carolina supreme court against Wash, putting the so-called "split season" into effect.

ACME DEFEATS LELAND AND BELLWILL IN DOUBLE BILL
ACME, Aug. 21.—Acme won two games on the Leland diamond Saturday, one being 9 to 0 against Leland, and the other 6 to 0 against Bellwill, of Wilmington. Leland used three pitchers to check the batting rally of the Acme boys in the fourth and fifth frames without avail. The game was called at the end of the fifth to allow the winner to play Bellwill.
First game:
Leland 000 000—0 5 6
Acme 000 36—3 14 5
Hines, Gainey, Skipper and Elori; Blizzard and Williams.
In the second game against Bellwill, called at the end of the fifth on account of darkness, Blizzard, after being batted out by Hallsboro Friday, came back strong, fanning 12 men and allowing five hits. Marks making a catch in center field, featured, robbing Harn of Bellwill of a home run. Both Bellwill pitchers were batted at will and had poor support.
Second game:
Bellwill 000 000—0 5 3
Acme 400 002—6 12 4
Gordon, Council and Shepard; Blizzard and Willamh.

HALLSBORO BEATS WILMINGTON.
HALLSBORO, Aug. 21.—Hallsboro romped on a combination of Wilmington City and W. W. league players to the tune of 11 to 4 here Saturday. Thornton, the local hurler, held his opponents at his mercy, and the Wilmington club would not have scored had his team mates played errorless ball. Gieschen was relieved of mound duty in the fourth and "Mountain Daw" came to his rescue with his sparkling curves, only to be hit to all corners of the field. Williams featured with the batters and a single out of four times up while Litgen played the best all round game for the visiting team. The game was called at the end of the seventh inning on account of darkness. Batteries for Wilmington, Gieschen, Dew and Dobson, Casten; Hallsboro, Thompson and Sharpe.

URBAN CHILDREN HAVE ADVANTAGE OF RURALS

Comparison by Columbia Professor of Country and City School Facilities

NEW YORK, Aug. 20.—Disadvantages of the country school child in comparison with the city trained child are pointed out by Professor Mabel Carney of Columbia university, following a series of conferences with country school superintendents from all over the nation.
"Almost half the school children of the United States, that is 8,000,000, attend one, and two teacher rural schools in buildings of the box-car type," Professor Carney said. "Many of these buildings are neglected beyond description."
"Their school term averages 137 days a year as against 187 days a year for city children. The average daily attendance for city school children is 80 per cent, while for country children it is 65 per cent."
"All this is greatly complicated by the question of child labor on the farm. It is estimated that one million and a half of country children are engaged in farm labor to their detriment and kept out of schools. For this reason illiteracy is twice as great in rural as in urban territory."
"The country boy or girl is getting only about one-half the teaching ability, less than half the supervision and not quite half the efficient administration of school affairs that is everywhere accorded the more fortunate city child."
"That country children prosper as well as they do is due more largely to the wholesome influence of the average country home than to any advantage gained in the one-teacher school. The one-teacher school is an archaic institution and should be abandoned and replaced by consolidation as quickly as possible."
"The wisest and most direct solution of our national country life problem is to be attained through proper attention to the rural schools of the country."

MEXICANS UNCOVERING A CITY
SAN JUAN DE TEOTIHUACAN, Mexico, Aug. 20.—A force of 300 workmen is engaged in pushing to completion the excavation of the buried city here in an attempt to make it one of the show places during the centennial exposition opening next month. The most modern scientific devices are being used to dig out the city which thousands of years ago before it disappeared, boasted of a population of at least 100,000, according to Manuel Gamio, in charge of the reconstruction.

CITY WILL ENTERTAIN WATERWAYS VISITORS
Upwards of 200 Men en Route to Savannah to Spend November 14 Here

At an early date Secretary Louis T. Moore and other chamber of commerce officials will begin to arrange plans for the entertainment of delegates to the fourteenth annual convention of the Atlantic Deepwater Waterways association who will pass through the city November 14 en route to the convention city, Savannah, Ga. The delegates, traveling in a special train, will arrive in Wilmington early in the morning and will spend an entire day in the city and New Hanover county and the chamber of commerce will arrange an attractive program for their entertainment.
The convention dates are November 15, 16, 17 and 18 and men interested in deeper waterways along the Atlantic Coast will be present for the sessions. Wilmington will be represented at the convention, but the delegates have not yet been designated, this being something else to be handled by the chamber of commerce in advance of the date of the meeting.
J. Hampton Moore, of Philadelphia, is president of the association, while the vice-presidents at large are John H. Small, North Carolina; John N. Cole, Massachusetts; Murray Hulbert, New York; Frederick W. Donnelly, New Jersey; and William F. Broening, Maryland. George T. Leach is the North Carolina vice-president, and C. E. Foy the North Carolina director.
Upwards of 200 delegates are expected to attend the convention from states located on the Atlantic coast to the north of Wilmington, and they will, of course, be among those spending the day in the city. They will be taken over New Hanover county's good roads, shown Wrightsville and other beaches, and will be made acquainted with the river front. It is likely, too, that some of a dinner or luncheon will be given for the visitors during their one-day tarry in Wilmington.

VIENNA DISCUSS CLOTHING
VIENNA, Aug. 20.—The offer of a British concern to sell in Vienna 400,000 ready-made suits of men's clothes at £1 and 10 shillings each, has been occupying more space in the newspapers than the disturbed political situation.
Master tailors and ready made clothing merchants are fighting it and thus far successfully as the ministry of trade has refused the import license.
The entire Vienna press, backed by the countless civil servants and workmen's co-operative societies, is demanding that the safety of Constantinople can be protected. My honest opinion is that the old arrangement by which the Turks, armed, guaranteed the neutrality of the straits, is the only working solution. It is patent

GREEKS MUST GO, SAYS TURK NATIONAL CHIEF

Mustapha Kemal Determined to Drive Them Out "If It Takes Years"

ANGORA, Aug. 20.—A reiterated determination to drive out the Greeks "if it takes years" is the keynote of conversations which a correspondent of the Associated Press has just had with the nationalist leader, Mustapha Kemal, at the latter's villa in the nearby village of Chankiri which dominates the Angora plains. "Turkey for the Turks" is the nationalist slogan.
"Although the allies appear to be unable to believe it, we will not bargain nor accept half measures," Kemal said. "We are prepared to go on fighting for what we deem our rights. It is not the first time in history that a war has lasted a century," Kemal said. "We are prepared to go on fighting for what we deem our rights. It is not the first time in history that a war has lasted a century." Kemal said. "It is just that the vanquished party shall pay for a lost war," he went on, "but it is not just to kill a nation. It is unjust to attempt to divide up Constantinople, giving part to the Greek and spheres of influence to the French, the Italians and the British. This is a form of political slavery."
"Our conception of peace for the mainland has often been stated," Kemal continued. "As for Thrace, eastern Thrace is an inseparable part of our homeland, because of the Turkish majority there. For the rest of Thrace, we are willing to agree to a plebiscite. Constantinople, too, is ours, but for the straits and the sea of Marmora we are willing to accept any solution by which the safety of Constantinople can be protected. My honest opinion is that the old arrangement by which the Turks, armed, guaranteed the neutrality of the straits, is the only working solution. It is patent
