

# Tutt's Pills

After eating, persons of a bilious habit will derive great benefit by taking one of these pills. If you have been **DRINKING TOO MUCH**, they will promptly relieve the nausea, **SICK HEADACHE** and nervousness which follows, restore the appetite and remove gloomy feelings. Elegantly sugar coated. **Take No Substitute.**

### NUMBER OF TREATIES TO BE GIVEN SENATE

WASHINGTON, Dec. 13.—(By the Associated Press)—It now appears likely that there will be four or more treaties to be sent to the senate when the conference is over, and some of the Democratic leaders want to see all of them before they decide on a course of action. There is a growing impression that the naval ratio and the far eastern declaration, and perhaps also the agreement on naval bases in the Pacific, will be written into formal treaties which may be pending in the senate simultaneously with the four-power pact and that relating to the mandated islands. President Harding also hopes that some sort of an agreement will be reached before the conference adjourns, for future meetings to talk over international problems. It is not proposed to write such an agreement into treaty form, but it may be communicated to the senate as part of the general accomplishments of the conference.

# Hemenway School News

By THE SCHOOL EDITOR

Mrs. Christie's room gave a party last week in honor of Lillian Sallings, who won third prize at the spelling match in Raleigh. The room is very proud of its pupil, and together with the school they gave a present. Every one present at the party enjoyed himself and all were sorry when the occasion came to a close.

Hemenway wishes to give the Isaac Bear school credit for the part it played in preparing Lillian for the honor she received at Raleigh. Lillian was a pupil at the Bear school before coming to Hemenway, therefore the Bear school can justly feel proud of her also.

Hemenway has been observing "Safety Week" during the past few days and much information was given to the pupils. Several speakers gave the pupils advice concerning their welfare, and all received it with open mind.

Posters were made by the pupils and each poster taught a safety lesson. Four hundred of the posters were made, and many original ideas were given.

In the race between the fire department and our school we wish to say that all pupils were out of the building when the fire department arrived. The entire school was out of the building in fifty-three seconds. We consider this a record since there were 715 pupils present on that day.

During the Junior Red Cross drive for funds Hemenway school contributed \$104.65. We are preparing to equip a first aid room which will be called the Junior Red Cross room. This room will be used for pupils who are injured at any time during school hours. The Hemenway drum and bugle corps is practically organized and the

members practice regularly on Wednesday afternoon. Uniforms will be made in a short while. The corps will be glad to help any organization at any time.

The Hemenway parent-teacher association will meet at 8:30 on Wednesday afternoon in the school auditorium. Every parent is requested to be present, so that they may become acquainted with the parents and teachers. A special program has been prepared and all will enjoy the meeting. Classes will be conducted for the benefit of the parents. Do not miss this meeting. It is very important. Let every parent show loyalty to the school by being present.

The pupils will make an effort to give a Christmas entertainment on Wednesday night before Christmas. We want all to come and join in the Christmas spirit. It will be an enjoyable occasion, it will do all parents good to attend.

### WHITEVILLE PREPARES FOR CHRISTMAS TIME

#### Stores and Homes Taking On Holiday Attire

(Special to The Star)  
WHITEVILLE, Dec. 13.—Christmas preparations here are going merrily on at home, in business, in school and churches. The stores have their laden Christmas trees already on display, and their attractively decorated windows. Roland Hill's has a dozen new stores are being rapidly occupied, while the three large buildings built by the Thompson Hardware company are also

being filled. The hardware company occupies one with a complete stock. E. Nealy & Son are putting a big stock of dry goods in the store, and the third has been rented by the Vineland Dry Goods company, and it is understood that this company will move its stock of goods from across the street and occupy the building until they can build for themselves.

It is rumored that a number of new business ventures are under contemplation for the new year. The contract for the new high school building has been awarded and the splendid new structure is promised in time for the fall session of next year.

S. E. Memory is making improvements on the property surrounding his residence. A number of families of the men connected with the highway construction are moving here. Mr. Bowers and family are rooming with Postmaster George Hill. W. L. Waters and family have rented part of W. N. Rouse's home.

The new public library has been opened for but a few weeks, but the results are most gratifying. A large number of books are in circulation all the time; and as a by-product, this renewed interest is being felt in the school library, from which more books are being taken just now than has been the case for a long time.

Road building is most certainly booming in Columbus county. The first survey of the road to Tabor has been completed and some of it permanently laid out. Grading and building towards Lake Waccamaw is actively going on. At some places the line of the road has been changed, notably at Hallsboro, eliminating the railroad crossing. The first hard surfacing on the Charlotte-Wilmington highway in this county will probably be done in the near future and will doubtless be between Whiteville and Chabourn.

High school students are busy with last-minute rehearsals for their minstrel show, to be given on next Friday night in the school auditorium, for their athletic fund. A large audience is predicted for this up-to-date show. Miss Bertha Pierce, trained nurse in Wilmington, is at home with her

parents here, Mr. and Mrs. Bruce Pierce, convalescing from a recent operation for appendicitis.

Col. Walker Taylor was a visitor in our city on last Saturday. Christian Endeavorers are looking forward to a visit from Mr. Frank P. Wilson, secretary for North Carolina, which will take place on next Thursday. Mr. Wilson will speak on Thursday night in the Vineland Presbyterian church and the public is cordially invited to hear him.

Friends of Mr. W. B. Hobbs will regret to learn of her illness and hope for her a speedy recovery. The manse of Vineland Presbyterian church is being repainted.

### AUSTRIA RATIFIES TREATY WITH AMERICA

BUDAPEST, Dec. 12.—The national assembly tonight ratified the treaty of peace between the United States and Hungary.

Count Albert Apponyi, chairman of the committee in charge of the peace agreement, in an address in the chamber after the ratification said:

"Though we are not yet acquainted with America's future world policy this separate treaty is proof of her disinterestedness and her sincere wish to help in the reconstruction of eastern Europe. This single peace, which was not dictated, recognizes Hungary as an equal."

### EXPECTED IN U. S.

WASHINGTON, Dec. 13.—(By Associated Press.)—Ratification of the treaty of peace between the United States and Hungary had been momentarily expected here for sometime. When ratifications have been exchanged, it is expected that a proclamation of peace will be issued in Washington as in the case of the other former enemy powers, thus completing the peace status. Diplomatic machinery will then be established through the appointment of diplomatic and consular officers.

AUTOS GIVEN ROAD TEST IN THE GARAGE  
Giving a car a road test without taking it out of the garage is a great advantage to the repairman. This is easily done, as shown in the January Popular Mechanics Magazine, with a new testing rack, at first glance, looks like the old greasing and repair rack. At the end of this rack, however, are friction wheels which fit against the rear wheels of the auto. These wheels can be adjusted to give different resistances, so the equivalent of a regular road test can be given.

## Kiwanians to Play Santa Claus For Poor Children

With yuletide joy permeating the atmosphere, arrangements are being made by committees from the Wilmington Kiwanis Club and the Boys' Brigade Armory to "play" Santa Claus to the less fortunate children of the city on Christmas eve.

With the close of the first half of the basketball season at the Boys' Brigade armory this week, the announcement that the second half of the schedule will be opened between the first and tenth of January will awaken renewed interest among the players and fans who have contributed so much to the success of the venture.

Details of the program have not been worked out but committees have already been named and it is probable that a definite announcement of the plan may be issued at the regular weekly meeting of the club today at the armory.

The close of the season finds four leagues of four teams each competing for trophies. These clubs have a total of 96 players and are divided into the Senior group, the junior, school boy, group and the younger business and working men's group.

The collection of articles with which to stuff the Christmas stockings placed in anticipation by the poorer little ones of the city and which might otherwise be empty when their little owners arise with the sun Christmas day, has already begun and indications are that there will be more than enough to go the rounds.

Games are to be arranged with university teams, for the leading senior club, while the junior clubs will play various school teams of the city and county. A silver cup is to be given to the winning club in each of the leagues.

A list of the really needy families, the worthy kind, is being prepared by the Associated Charities for the Kiwanis and Boys' Brigade committees, and all the articles, fruits, candies and other presents will be "pooled" for distribution at the armory. They hope to play Santa Claus to between a hundred and two hundred families this year.

Interest in bowling is growing at the Boys' Brigade armory and plans are being made to have a 50 game schedule with several teams participating. A silver cup is to be awarded to the winning club. Details of the bowling program are not complete and no definite announcement can be made for several weeks yet, it is said.
