

Chairman Hull Terms Late Congress Failure; Adams Gives Is Splendid Record

(Continued from page one)
 existing republican congress, the press quotes Republican national leaders in control as stating that they propose to assume an aggressive and not a defensive attitude during the fall campaign.
 "Does this mean an 'aggressive' attitude in support of the so-called farmers emergency tariff bill enacted in May 1921, under the operation of which wheat went from \$1.47 to below \$1 per bushel and corn in proportion, while the purchasing power of farm products went to a level lower than it has been within 15 years, where it still remains."
 "Does this mean an 'aggressive' attitude with respect to the long list of solemn Republican promises made in 1920 and complete failure thus far to redeem same—such as the failure to reorganize and consolidate the government departments; to establish free Panama tolls; to adopt the Ford Muscle Shoals proposal for the benefit of the farmers; to create a sound merchant marine policy; to enact a workable foreign debt refunding act; to effect a solution of the transportation problem; to prosecute criminal profiteers and suppress profiteering; to establish a permanent workable immigration policy; to establish an international credit and international exchange policy; to bring all American troops back from the Rhine; to collect the \$246,000,000 due for expenses on the ram on the Rhine; to enforce the Jones shipping law, after threatening to impeach Wilson for his refusal to do so; to settle claims against Germany growing out of the war; to make disposition of enemy property seized during the war; to provide better farm co-operation in transportation and distribution; to conceive and adopt any permanent policy in settlement of any phase of our industrial problems; to restore sound reciprocal foreign market conditions; to work out and promulgate any foreign policies whatsoever?"
 "No, the Republican national administration will have to explain all these colossal failures before assuming the aggressive on any subject."
 "The outstanding events in the record of the administration thus far are: The unprecedented Republican industrial panic of 1921-'22; the unparalleled luxury deficit of more than \$50,000,000; the highest level of taxes and transportation ever known in peace time; the long series of public scandals, economic and social demoralization, and utter lack of any definite permanent foreign or domestic policies."

the Original Aces orchestra. Handsome souvenir programs were distributed.
 Prior to the dance the giant searchlights of the cutter played across the skies, and were visible at a distance of 21 miles from Wilmington. Telephone calls were received from Hemphstead and other points equally distant, asking the cause of the unusual lights.
 The searchlights crossed and crisscrossed each other through the night for more than an hour, presenting a beautiful spectacle.
 An old colored woman in the rural districts, frightened by the lights, is reported on the word of a prominent citizen, to have become hysterical, believing the last day had arrived.
 All those participating in the affair on board the Modoc last night came away glowing with praises for the officers and men of the ship.

OBSERVANCE OF ROSH HASHANAH IS BEGUN

Observance of Rosh Hashanah, or the Jewish New Year, began in the Temple of Israel last night at sunset, and will continue until the same hour today. A special feature of this year's observance locally is the formal installation of the Rev. Dr. Harvey Wessel as rabbi of the Temple of Israel, succeeding the venerable Dr. Mendelsohn, recently retired after 47 years continuous service.
 The Jewish New Year initiates the ceremonial calendar of the Synagogue and is interpreted in a purely spiritual sense. This holiday is regarded by the Jews as one of the most significant holy days in their religion, ranking with the day of Atonement, which falls due ten days later in sublimity of concept and significance of intent.
 Unlike the secular New Year, which is designated to mark time, Rosh Hashanah is an occasion for each member of the fellowship of Israel to put himself in harmony with God and fill his soul with new and better resolves for guidance in the future.
 In this conception, the New Year becomes a Day of Judgment also. In fact this is one of several designations attributed to it. For Judaism does not place the Day of Judgment after death, but in the midst of life and at the beginning of the religious year in order that each one may by self-examination and a new orientation obtain a better conception of his place in society and the duties incumbent upon him as American and Jew.

DANCE ON CUTTER A CHARMING AFFAIR

Spectacle Made By Giant Searchlights playing in Skies Visible 21 Miles
 Wilmington surrendered to the coast guard cutter Modoc last night without the firing of a single shot, the entire city capitulating before the barrage of hospitality laid down by the officers and men of Uncle Sam's newest and biggest coast guard vessel.
 The quarterdeck presented a scene of gaiety and charm that enthralled the visitors, who swarmed up the gang plank, and participated in the dancing, and utter lack of any definite permanent foreign or domestic policies."
 The event was staged by the officers and men of the Modoc as a return courtesy for the social attentions shown them since their arrival here a month ago to replace the cutter Seminole, transferred to Detroit.
 Music for the event was furnished by

Delicious Beyond Compare
 What a tempting treat they are, these beautiful biscuits! Piping hot, with light, fluffy centers of finest white and crusts of golden brown, they are incomparably delicious.
 For they are baked with Valier's Dainty Flour, which comes from the choicest soft winter wheat of America's great granaries. The perfect product of master millers, every sack of it measures up to the high standards of quality set by Valier.
 Naturally, you pay a little more for this finest of flour. But then you are sure of better baking—and you use less lard. Ask for Dainty Flour by name, when next you order from your good grocer.

PRICE 35c
Announcing
 To Wilmington Housewives a remarkable discovery—long sought by the world's best chefs—a homemade, fresh egg (uncooked), mayonnaise, packaged in attractive glass jars and one that would keep indefinitely—namely Duke's Mayonnaise.
 Not even in your own kitchen can you make such delicious mayonnaise—flavored so perfectly—as Duke's—and of such consistency.
 Mrs. Duke personally directs the preparation of her mayonnaise in her factory at Greenville, S. C., just as she did before it had gained such fame in the Carolinas and now throughout the entire South. It is indeed the only genuinely home-made mayonnaise on the market. In few places over the entire country are there cooks whose mayonnaise comes up to the standard of Mrs. Duke's.
