DAILY COTTON TABLE. Port Movement. New Orleans: Middling 26.88; receipts 1,132; exports 1,350; sales 965; stock 246,121. Galveston: Middling 26.75; receipts 6,655; exports 2,023; sales 1,263; stock 382,284.

THE Odd Fellows Office Building, ten stories in height, is designed to meet the pressing need for office space in Raleigh. Concerning this need, Governor Morrison writes, "I feel sure that this project will add much to the attractiveness of the business district, and also help to fill the very urgent demand for office space in Raleigh."

These bonds are similar in every respect to those we have been creating for years, secured by income-earning properties in a score of Southern cities. The valuation placed on the building, \$514,750, and the annual net earnings, estimated at \$42,000, are based on independent appraisals furnished by real estate and construction experts residing in Raleigh.

There was no apparent reason for the further decline of St. Paul Hens although weakness of the general list was ascribed in some quarters to the competition provided the flood of new securities that have been put on the market since the first of the year. Other weak spots in the railroad list were Frisco 5s, Norfolk and Western 4s, and Seaboard Air Line 5s.
