The Household

WORDS THAT ARE TABOO

Some men and women have been put down as ill bred, impossible, not for anything ill bred or impossible that they have actually done, but because of some word they have used that is regarded as ill bred or impossible. It is a fact that an older person may use taboo words without being so severely criticized as the younger person who uses the same words. We are prone to excuse the older person, feeling that the words used may have been in better form in days gone by.

If a young woman, with good manners and dressed in perfectly good form, went to a party in some sets and seriously used the expression "keeping company" or "young gentleman friend," she would undoubtedly experience an immediate falling below par of her social stock. It is an interesting thing how words rise and fall in social usage. A few years ago a young man who spoke of "pants" would have been put down as utterly uncouth. Now in a very small set of society it is considered rather smart to speak of pants, insistently to be preferred to the word trousers. Breaches was once regarded as very inelegant, but now it is in quite good form to speak of riding breaches. Only of course you must be careful to make it breaches and not britches.

If you were describing your experience at a house party or visit out of town you would do well not to say you had a grand time or an elegant time. Yet a swell time, nor a classy time. These adjectives may all have done at one time or another. Now you might say that you "had quite a gay time," or a "merry time." That seems to be the way the up-to-date well-bred young person seems to prefer to express enjoyment in good times. But tomorrow that may be quite out of date.

HAT BRIMS ARE OF IRREGULAR LINE

In millinery, medium or very large hats are being shown for spring, this in distinction to the fashion of the winter season in which either small or very large shapes were favored. Tricorne, four-cornered hats, and high-crowned cloche shaped walking hats in straw or covered with taffeta or satin are shown. The cloche shape still holds its own, an is much emphasized in the medium sizes. Many of the new cloche shapes are featured absolutely brimless at the back, with the cloche brim broadening from the sides of the back across the front.

Generally speaking, brims this year are very irregular in line, but other than this, no one general trend dominates at present. Brown, black, green and orange are the leading shades. Brown is featured in tete de negre, as well as in the warm reddish tones of nut brown and shell. Green is featured in shades of sage and emerald. Black hats, while much emphasized, are generally worn with a multi-color trim. In trimmings, flowers promise well, make in silk and in lacquered effects. Ribbons also are in great demand, used in narrow, also in six to eight inches width. Moire, taffeta and shaded velvet ribbons are chiefly employed in the wide widths and fall in the narrow widths.—Dry Goods Economist.

B. C. TROUTON, well known Atlanta, Ga., manufacturer, who declares Tanlac restored him from an apparently hopeless state of health.

That permanent benefit comes from taking Tanlac is demonstrated in the case of B. C. Trouton, 426 Whitehall St., Atlanta, proprietor of the Trio Mattress Co. Six years ago Mr. Trouton publicly testified to the relief he obtained from Tanlac, and recently declared he is still hearty, again praising the medicine.

"It is remarkable how a few bottles of Tanlac ended my sufferings," he said. "I had rheumatism so bad I could hardly walk, and scarcely get any sleep. I lost weight, had no appetite and apparently was in a hopeless state."

"But since taking Tanlac I eat hearty, sleep soundly and feel like a new man. I wouldn't give Tanlac for all other medicines."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.—Adv.

For Raw Sore Throat
At the first sign of a raw, sore throat rub on a little Musterole with your fingers.

It gets right to the spot with a gentle tinkle, loosens congestion, draws out soreness and pain. Musterole is a clean, white ointment made with oil of mustard. It has all the strength of the old-fashioned mustard plaster without the blister. Nothing like Musterole for croupy children. Keep it handy for instant use. 35 and 65 cents in jars and tubes; hospital size, \$3.
