#### The University Idea.

A pamphlet has been issued by Frofessors E. C. Branson and J. A. Dickey, of the University of North Carolina, afer investigating certain farm tenacies in Chatham county,

which we can not allow to pass without notice. Certain recommendations are made with reference to taxation designated as "Constructive suggestions;" we would designate some of them as destructive suggestions. The authors inform us that the recommenlaws of the State as rapidly as practical wisdom may dictate." We will have to accept the invitation to enter this discussion, because it is clear

that the authors do not expect any "immediate adoption" of such radical proposals, but only hope by process of propaganda to get these ideas into thé public mind.

There are some suggestions in the pamphlet which are commendable; for instance, where property is covered by a mortgage the authors would tax only the equity in the hands of the owner and the mortgage in the hands of the mortgagee. We have al-

erated by landlords thereof; definitely higher tax rates on unused town lots and farm lands."

improved farm land to turn it loose upon to press its claims as more imto be picked up by those who in our portant than the claims of others. opinion would make no better use of However, this is always true because per work was done on every one of it. To show the further purpose of everyone feels a personal duty and re those pages and they portrayed in this plan we quote as follows from sponsibility in connection with the articles and illustrations a real rothe pamphlet:

"Estate or inheritance tax, transfer ested, and with which he may have ax or increased sale values, progressive land taxes and the like are But this policy results in overwhelm- ment of its own in producing a magsocial ways of calling into question ing the legislature and budget comthe rights of provate property in mittee with demands which in the to for Robeson county and its thriving land," and the authors cite certain countries adopting this view.

The authors admittedly question present tax levies have been made the rights of private property in land upon the broad plan of the present adand refer to the twenty-two million idle acres of farm land in North Carolina. This land is owned by farmers timber, and for other uses. They have the state's affairs are economically years of toil and hardship, and it is by this proposed system of taxation creased tax levies at this time, and that these twenty-two million acres of

land would be prized away from its heretofore utilized the oportunities given them. The fact that New Zea-

land and other foreign countries have adopted such "progressive land tax" system does not appeal to us in the slightest; and we believe that an effort to put such a system in effect in than revolutionary. This pamphlet

we regret to see the University of operating expenses. It is simply bad North Carolina promoting such doctrines.

#### Inviting Capital. -0-

We noticed in one of the big New York dailies recently a story with ref. erence to a big venture of J. B. Duke, dations are efforts "not so much for a native of North Carolina, who proimmediate adoption af for popular dis. poses big water power development have to be confined to the receipts them to let the world know that they cussion aimed at changes in the tax for Canada, and we quote from that story as follows:

> "In that part of the Province of Quebec where the waters of Lake St. John find their outlet through the Saguenay Riverthat is in a section where a quiet farming community has existed for many years-men are busy on a development scheme which will have a far-reaching influence upon the Industries of Canada, and quite possible upon those of the whole It is hoped that within a world. comparatively short time this tiny and hitherto insignificant backwoods district will be transformed into a vast hive of industry, the seat of great manufacturing enterprises.

spiritual responsibilities towards

Freedom is the realm of charac-

ter. By the choice a man makes

for his free time on Sunday, as on

other days, he makes the measure

for himself. It is what a man

does when he can do as he pleases

that tells the story. It is the same

with time as with money. We all

have to pay the grocer and the

coal man. The spending of the

surplus lets the whole world know

what a man is really interested

in, and what he would like to be

So the spending of a Sunday is

no unimportant matter. What-

ever may be the exceptions, it is

your rule to do on Sunday what

you really like best to do. If you

take the summer Sundays for an

all-day game with the surf, it is

because you like that better than

anything else to be had. If you

stay away from God's church hab-

itually, however, much you may

profess to esteem the church and

worship and religion, it is simply

because you do not care enough

about it to go. Sunday is your

own, and you are spending it as

The Sabbath was made for man.

He can use it as he will. How

are you going to spend it to-

vou will.

day?

-that is; what he is.

SPENDING A SUNDAY "The Sabbath was made for man." Mark 2:27.

For most of us, the manner of spending a week day is fixed. One must be at his desk, in office, shop, store, school room, home or field. From Monday until Saturday, it is the grind and toil of the job. This is not saying that there are no joys in work; merely that busness is business, and one has to be at it for six work days.

But it is different with Sunday. There is-except for those who are so unfortunate as to have to work on Sunday-but little compulsion for this day. One can order his life and fill his hours much as he will.

So, if he be inclined, he' can take the rod and reel, and hie away for the shore for sport. He can take the Packard or the flivver, as the case may be, and go for what he calls an airing and a picnic with the wife and kiddles. He can take a hook-of whatever quality he may choose-and spend long, quiet, delightful hours with a favorite author. He can don the golf togs and be off for the green and the sun. He can make himself of some use for once in his life about the house, relieving in a measure and for a little good, patient woman, whose routine, if he had to sumbit to it, would soon land him in the penitentiary or the insane asylum. Or he can sleep the hours away, and make believe that he is resting from very arduous labors. And then, many to the contrary notwithstanding, he can, along with a great many other very useful things, spend some very profitable hours remembering that he is a living soul, who has to do with God, and has some

#### Community Chest Campaign.

Wilmington's community chest campaign is now on in earnest, and by zation is welded in the course of time the end of the week it is hoped to raise a total of \$51,505 to cover the people in this favored land who still annual needs of such local organizar we are entirely self-sufficient. ## **About Income Tax**

Anomalous as it may seem, a person may be married and yet single for the purposes of the income-tax law, taxpayer's status with regard to exemptions and credits is determined as of the last day of the taxable year becember 31, 1922, if the return is made on the calendar year basis, as most are. If on that day a man and his wife were living together they are entitled to an exemption of \$2,000 or \$2,500, according to the amount of their net income for 1922. If, how. ever, they were separated by mutual consent or were divorced, each is al. lowed only the \$1,000 exemption granted a single person.

In the absence of continuous rest. dence together, the question of whether man and wife are living together in the eyes of the income-tax law de. pends upon the character of the separation. If, occasionally the husband is away on business, or if for any necessary reason a temporary separation exists, the full exemption is allowed. The presence of a wife at a sanitarium, or her unavoidable absence because of ill health does not change the marital status, and the husband is entitled to the full exemption. But when the husband deliberately and continuously makes his home at one place and his wife at an other, they are not, living together for the purpose of the income-tax law. The law works both ways. A man may wed on December 31, yet he is granted the exemption allowed a married person for the full year. bride's income for 1922, however, must be considered with that of her husband in filing a return. A widower whose wife died before the end of the taxable year is classed as a single man and allowed only an exemption of

\$1.000. Similar conditions exist with respect to the head of a family. If during the year his support of relatives in his home ceased, he is entitled only to the \$1,000 exemption. A man who has a dependent child, not mentally or physically defective, that attains the age of 18 years just before the close of the taxable year can not claim the \$100 for a dependent. Likewise if a de pendent dies before the end of the be efactor's taxable year, the \$400 cred is not allowable.
