News of Markets—Cotton-Money-Grain-Stocks

COTTON

NEW YORK, March 8 .- Old crop deliveries made new high records for the season in the cotton market here this morning but heavy realizing sales were encountered around 31.47 for May contracts and there were sharp reactions in the later trading. May sold off to

tracts and there were sharp reactions in the later trading. May sold off to 30.88 or 59 points from the high level of the morning and closed at 30.90 with the general market closing easy at net declines of 25 to 37 points.

The market opened steady at an advance of 3 points on July but generally 7 to 14 points lower, under overnight selling orders which were supposed to represent realizing and the little hedging from the south. These initial officings were very readily absorbed, and the market soon sold about 5 to 20 points net higher on renewed covering by old crop shorts. Trade buying was also reported on the advance which carried March contracts up to 31.05 and July to 30.50 while October sold at 28.93. There was a good deal of scattered southern selling of the early new crop deliveries and reactionary sentiment became more general during the middle of the day owing to a less favorable view of the near eastern political situation, less bullish reports from the southern spot markets and a bearish interpretation of a statement on boll weevil emergency from hibernation. According to figures published here only 13 boll weevils have survived the winter to the ton of moss compared with 127 last year at the Tullulah experimental station. This promoted selling of new crop months and probably increased the disposition to liquidate old crop contracts on the decline which extended to 30.65 for March, 30.05 for March 30.05 for March, 30

STOCKS

NEW YORK, March 8 .- Re-adjustment of a weakened technical position was the reason generally given for today's reaction in the stock market. The

day's reaction in the stock market. The recent sustained rise of prices, particularly in certain individuals invited profit taking and short selling which the market was unable to digest except at a sacrifice of quoted values.

Other influences, which are believed to have aided the decline, were the withdrawal of a stock exchange house from the Fay Taxicabs, Inc., promotion, marking up of the call money rates from 4% to 5 per cent, just before the close, and a sharp break in the Durant issues on the curb.

The recession of prices was checked by the bidding up of the independent steel shares, which is now about \$2.75 above the 1922 high established last September.

September.

Equipments enjoyed a temporary period of strength but they soon yielded to selling pressure. American and Baldwin Locomotives dropped. Some of the other pouplar industrials which had the other pouplar industrials which had been strong recently but which yielded to pressure today were American Woolen, Stewart Warner Speedometer, Studebaker, Bosch Magneto, American Smelting, Kelly Springfield Tire, United States Rubber, Houston Oil, General Asphalt, Pacific Oil and California Petroleum.

Rails were again sluggish and reac-

troleum.

Rails were again sluggish and reactionary, New York Central, Pere Marquette, Great Northern preferred Lackawanna, Delaware and Hudson and Union Pacific dropping.

Trading in foreign exchanges was quiet and irregular, demand sterling selling slightly above \$4.70 and French francs hovering around 6.05 cents. The Norwegian kronen was under pressure, yielding 11 points to 18.0 cents.
