SAVE 20 PER CENT to 75 per cent on Auto Parts, Bearings and gears of all kinds, axle and propeller shafts, valves, piston pins, Universal joints, carburetors. SECOND-HAND parts for all cars; satisfaction guaranteed or money refunded. W. D. MacMillan, Jr., Fifth and Wright Sts. Phone 213.

DOES THE OLD BUS SKIP, KNOCK ON HILLS, USE EXCESSIVE GAS AND OIL, LACK LIFE AND PEPP? If so, it's not to be wondered at when you stop to figure out that the pistons on your car travel up and down 1,000 to 3,000 times per minute.

180,000 PER HOUR Just imagine what that means in going 45,000 miles. Other parts on your car wear under such usage, why not the cylinder walls? It's just "horse sense."

Two surfaces in constant friction with one another—result: Wear. New oversize rings without grinding the bore are useless for you cannot fit a ring in a worn hole. THE ONLY LASTING CURE is to regrind the cylinders and fit with new pistons and rings. We are experts at this work. Call us on the phone or drop by our shop and we will give you all the dope.
