EVERY
DAY

in this week of the Big Vote
Period of our Mammoth Gift
Distribution is your opportunity to

MAKE GOOD
ARE YOU DOING
IT?

This Is Your Opportunity—Make the Best of It While
the Big Votes Are Being Given

**BUT THREE MORE
Mighty Important Days**

The winning votes can be secured these next few days—between now and Monday, April 23. Remember—this first period will practically decide who the winners of the big prizes will be. You can't "dilly dally" with such valuable prizes at stake—you must get busy in earnest and let nothing stand between you and the winning of the prize you have determined to get. If you would be one of the big prize winners, you must work and work hard these next four days. This is the time to really "kick up some campaign dust—such as you have never done before." The way to win is to pile up the largest number of votes. It takes votes to win—votes, and votes alone. So the larger your vote score is at the end of the first period, the better for you. The time has now come to do big things—to "literally" cinch your choice of the prizes. Let this be your best and biggest week. Waste not one minute of it.

**VOTES
WILL
WIN!**

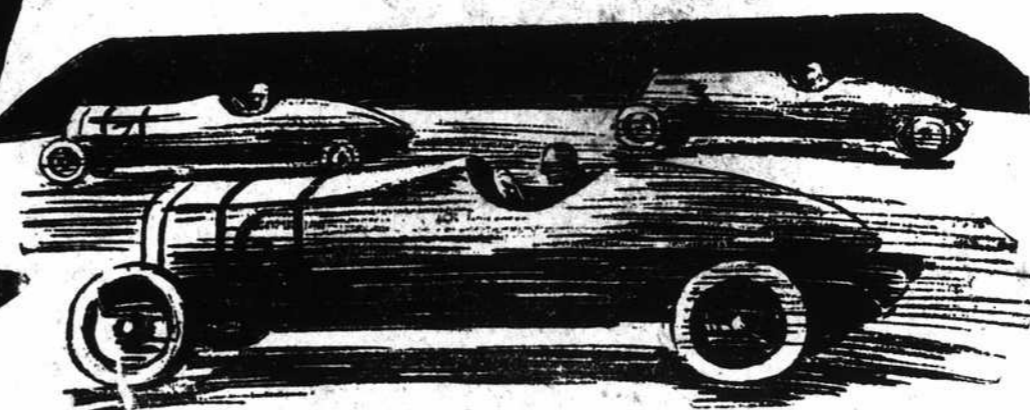

GETTING YOURS?

Now is the time! These Big
Vote Days—They won't last
forever; in fact, but three
days left.

DEVELOP AUTOMOBILE SPEED THIS WEEK, THAT
ONLY WILL WIN FOR YOU!

YOU
YOURSELF

GET
BUSY

It's Up to You
Entirely

The only thing that will keep you from winning is you, yourself. If you are working determined to be successful, you will be. It's entirely up to you. If you want the Packard Touring, the Hupmobile Sedan, the Nash Sedan, the Dodge Sedan, or to receive your rightful share of the hundreds of dollars in cash to be distributed—and we think you do—get into the campaign today with the real effort that is required to win. The time to win is getting shorter—your opportunity is growing less each day, too—unless you are keeping constantly at it these last few days. Wishing won't win for you—but determined effort will.

WINNING—

'TIS NOT A MAT-
TER OF LUCK—
IT'S ONE OF
HONEST
EFFORT

If You Want to
Win—Get Busy!

Work done these "Big Vote" days will easily bring success to contestants in the Star and News big gift distribution. The laggard, unwilling to devote time or thought to the big prizes, however, will reap no reward. This is a campaign for "live wires."

Your opportunity, then, to win a prize that will repay you many times for your effort is here. Don't lag in the campaign—don't hesitate or be timid about your race. Go right to it and keep right at it. Give your campaign as much attention during your spare time as you would any good business proposition. For right here is no doubt the greatest opportunity that will come to you in your life.
