

BIG CROWDS SEEING PICTURE AT VICTORIA

"When Knighthood Was in Flower" Said to Be One of Best Movies Shown

If any doubt lingers in anyone's mind as to the ability of our screen producers to make a picture twelve reels in length that can be seen through without growing tiresome, the Cosmopolitan production, "When Knighthood Was in Flower," which opened yesterday at the Victoria, will dissipate it forever. This is the most worthy example of the heights to which the art of the silent stage has ascended that has yet been projected upon a local screen; nothing that has gone before can be compared with it in extent possibly one angle. It excels all past screen triumphs in gorgeousness, greatness of scenes, and expensiveness of settings, also in the mammoth cast which interprets its roles. "The Birth of a Nation," of course, will have to come in for comparison with this latest screen triumph, however.

Undertaking the adaptation of Chas. Major's famous novel, founded upon historical incidents, allied with the reign of King Henry Eighth was nothing short of a Herculean task at the outset. It stretched the imagination to visualize the possibility of reproducing the necessary background period of palatial requisites. Nevertheless, the efforts of all concerned have combined in delivering a motion picture accurately adherent to the thrilling tale of romance and adventure, overwhelming in suspense, an innovation that will win new followers of the screen and gratify the ambitions of the most altruistic patrons of the motion picture theatre. It should play to capacity audiences during its three day run at the Victoria.

Revaluation Will Begin in Lenoir Within Near Future

KINSTON, April 26.—Revaluation of Lenoir county property will be officially started Tuesday. Assessors will give nine weeks to the work, and their survey will be thorough. Twelve townships and three towns are to be canvassed. Officially expect a "nominal" reduction in values of some property. Any material cut of the total will cause an increased tax rate, according to authorities who are opposed to the re-assessment. Experienced assessors will conduct the work. Statements of thousands of property owners will have to be considered in connection with the canvass.

Warsaw Will Have a New School Building

WARSAW, April 26.—Warsaw is to have a new high school building to cost approximately sixty-five thousand dollars. The entire second floor will contain the auditorium, while the lower floor will contain class-rooms, science rooms and a comfortable library. The conditions at the present school building have been crowded for some time, and with the addition of the new building, facilities will be greatly improved. The present auditorium, while of good size is inadequate for the audiences, which at commencement and other times it attempts to seat, and this will be utilized as class rooms for the grammar grades. Mr. Blair of the state department of education was present at a meeting last week, and was accompanied by an architect, who submitted plans for the new building. The silver loving cup which was won by the Warsaw school at the recent field day exercises at Calypso, was presented Thursday of last week. The cup is given each year to the school winning out in athletic contests. This year Warsaw won the championships for Duplin county. Other prizes won by the Warsaw school was one in spelling by Miss Lewellyn Best, and in expression by Miss Grace Jordan. Both of these belonged to the grammar school.

WANTED BOLL WEEVIL; RECEIVED GOOD MANY

State Entomologist Now Has Number of Tarheel Specimens on Hand

RALEIGH, April 26.—Franklin Sherman, head of the division of entomology, wanted a boll weevil from somewhere in North Carolina. He issued a statement containing his desire and now he has several. But the weevil caught at the telegraph office, Dunn, while a cotton report was being received, holds the record for being the first real insect of its kind sent to the capitol this year. Bruce Mabey, an extension specialist for the division, sent in the weevil, which was found by a Mr. Primrose of Dunn, in the telegraph office. Mabey stated the weevil was attempting to obtain advance information on the cotton crop to carry back to the waiting hordes of other weevils, but that now they will have to get their information from other sources. Dr. R. W. Leiby, near Aberdeen, where he is conducting several experiments, also sent in a weevil. He was collecting peach insects on a sheet and by shaking the tree shook loose a "genuine boll weevil." Mr. Sherman said today the discovery of the weevils indicated they now are moving about and an early general exodus from hibernation quarters is expected.

American Consul Leaving the East

HARBIN, Manchuria, April 26.—By Associated Press.—S. Pinkney Tuck, American consul at Vladivostok, has announced he is leaving the soviet eastern capital in his steamer, May 1, and has advised all Americans in the country to do likewise, according to advices received today. It was also stated that Vice-Consul Edward B. Thomas, stationed at Chita, is leaving on the same date.

Salvaging Work is Underway in Lenoir

KINSTON, April 26.—Salvaging of odds and ends of cotton from the co-operative growers' warehouse in North Kinston destroyed by fire Monday, has been started. Pickers are expected to redeem thousands of pounds, but the total will be only a trifle compared with the more than 1,500 bales that were stored in the building. Many bales had been removed from the structure a short time before the fire. Estimates of the loss based upon current prices place the damage at a smaller figure than the original value of the total. Much of the cotton is said to have been stored when prices were materially higher than current quotations. Real estate and cotton men today were unwilling to place the loss at a lower figure than \$300,000. The Carolina Telephone & Telegraph Co., the municipal water and light and street departments are being put to considerable expense because of destroyed wires and damaged pavements. The firemen used more than 700,000 gallons of water in controlling the fire, while streams have been played upon the blazing ruins continuously since it was checked.

Lenoir County Will Buy Two Bloodhounds

KINSTON, April 26.—An unofficial agent of the Lenoir county commissioners at London will look over Scotland Yard bloodhounds with a view to procuring a pair for service with the sheriff's office here, it was understood at the courthouse today. The county authorities have been looking to England for dogs for some weeks. If a purchase is made veterans trained in the work of the famous British secret service department will be bought, it was stated. It is believed there will be no difficulty in making the deal once the selections are made. The price will be little higher than would have to be paid in this country. Some British-trained bloodhounds have pedigrees yards long, and are used both to city and rural work.

Senator Simmons May Speak in Nash

WASHINGTON, April 26.—Senator Overman has been assured by Hubert A. Votaw, superintendent of prisons, of all possible aid in investigating employment conditions of the federal penitentiaries. Senator Overman has been appointed a member of a special committee to investigate and suggest suitable employment at Leavenworth, Kansas, and McNeil Island, Washington. Senator Simmons has been invited to address the Edgecombe-Nash chapter of the American Institute of Bankers at Rocky Mount May 22, but has not decided whether he can attend.

LEADERS IN STAR-NEWS RACE EXCEEDINGLY HARD TO FIGURE

Continued from Page One
er today with positively no handicap whatsoever as far as the Essex Coach extra prize is concerned. Everyone has the same big opportunity to win the Essex and pile up votes on the double-quick for the other four big cars and cash prizes. Read the Star-News formal announcement of this new offer elsewhere in this issue. Here is a wonderful opportunity. An absolutely new candidate can enter and win the Essex prize by Saturday night, May 5, and at the same time get a running start for the other big automobiles and purses of gold and silver.

FLOGGING HEARINGS WILL CONTINUE INTO SATURDAY INDICATED

Continued from Page One
rightly, but that her husband had tried to raise them in a righteous manner. Mrs. Watson also testified that her husband told her on the morning after the alleged whipping that "they got what they deserved. She did not recite much about the time of the alleged assaults, claiming that she broke down during the ordeal and did not remember much about that phase of the affair. Admitting that her husband objected to her going with Mrs. Purvis, Mrs. Watson declared that her husband, had talked about her much and that he had been "running me down." Mrs. Watson asserted that if her brother, John Hedgepeth, was a member of the masked band, she failed to recognize him, and that neither did she recognize Julia Brogan in the party. She claimed, however, that she did recognize Mike Lawson, and explained the manner in which she did this, stating that she recognized Lawson because he had a policeman's club in his hand and also by his physique and the tone of his voice. Mrs. Watson testified that she told her brother on the Sunday following the affair that she did not recognize any of the band, except one, whom she charged was Mike Lawson. While there is high interest in the proceedings, no ill feeling has yet been engendered from either side, and no disorder is anticipated. Groups of men discussing the alleged whippings have different opinions, some for one side and others for the other.

DURHAM, April 26.—Accompanied by Student Manager M. L. Wilson, 18 Trinity college track athletes left today for a trip into Virginia. The team will meet Richmond university Friday afternoon and Hampden Sydney Saturday afternoon. The dope indicates Trinity to have a strong fighting chance against the Richmond outfit and an even match against Hampden Sydney.

FLIES TO DEATH
A puff of El Vampiro in the air and all flying insects die at its touch. The tiniest particle of El Vampiro touching any of their breathing pores is certain death. Don't depend on bugs eating poisonous, messy powder or pastes. Let them breathe El Vampiro and die. Effective for roaches, bedbugs, lice, fleas, moths, mosquitoes, or any other insect. Harmless to man or animal. El Vampiro is milled from a strange flower found in far foreign lands. The new, sure way of ridding the home of all insect pests. Comes in the original, handy hollow box. Only 10 cents for a generous supply at your dealer's. Milled by Allaire Woodward & Co., Peoria, Illinois.

What is a mile to gasoline?
Instances of service

IN frontier days a mile was the radius of a family's activities. Then came roads and carriages, pushing the horizon back a few miles. The next generation discovered the possibilities of the internal combustion motor carried on pneumatic tires. The Chinese wall that shut out so many alluring vistas of the land beyond the hill disappeared. Man had conquered distance.
This year 180,000,000 barrels of gasoline will drive trucks, tractors, launches, planes and motor cars. Every drop that is not converted into power is waste—a loss that cannot be recovered. This company, the pioneer in perfecting petroleum products, offers "Standard" Motor Gasoline as the eventual motor fuel—quick, powerful, uniform and complete-burning.
STANDARD OIL COMPANY (New Jersey)
