News of Markets—Cotton-Money-Grain-Stocks

COTTON

NEW ORLEANS COTTON
NEW ORLEANS, June 30—Under persistent liquidation of the long interest, the cotton market, was easier practically from the opening. On the first call the July position rose 6-points to 27.48 cents a pound but almost immediately re-acted and led the remainder of the list to lower levels. Lowest prices came late in the day when the list was 24, to 41 points under the close of yesterday. July fell as low as 27.01 and October as low as 25.65. The close was at net declines on the day of 21 to 30 points with July at a range of 27.13 to 27.20 and October at 23.86 to 23.91.

The early selling appeared to come from longs who wanted to even up their commitments over the government's condition report Monday but in the latter trading the selling appeared to be stimulated by the weakness in the stock market. Market comment was that this continued weakness causing selling of cotton for short ac-counts. The early session saw the selling pressure heaviest in July but in the late trading the new crop months were feeling the most pressure.

Low night temperatures in sections of the belt were considered unfavorable but the week end and the mearness of the bureau report appeared to prevent much support developing from this feature. Temperatures of as low as 54 degrees were reported at several points last night. Both east

and west of the Mississippi river.

STOCKS

STOCKS NEW YORK, June 30.—Prices of a large number of standard industrial and railroad stocks dropped to new low levels for the year in today's brief but active session of the stock mar-

There was nothing new in the day's news to account for the heavy selling the bulk of which again originated from professional sources. Except for some liquidation by tired and discouraged holders of long stocks there was a marked absence of public in-

terest in the day's trading.
One of the most interesting developments of the day was the establishment of a new low record by United States Steel common. The stock rallied later. Several railroad shares also established new minimum prices including Pennsylvania, Lehigh Valley, New Haven and Ann Arbor preferred. Canadian Pacific, Southern Pacific, Balti-more and Ohio, Chesapeake and Ohio, St. Paul, and Union Pacific registered

There were a few bright spots in the list. Steel and tube preferred ad-vanced to a new top in anticipation of the stocks being retired soon at 110 and accrued interest dividends. Gains were registered by United Fruit, American Beet Sugar, Virginia-aCrolina Chemical preferred and a few others. Foreign exchanges were irregular demand sterling advanced nearly a cent to \$4.57 and 11-16 but French francs dropped 4½ points to 6.03½ and Italian lire dropped 3½ to 4 38½ cents. German marks touched a new low at

Days total sales 396,100 shares. Twenty industrials averaged 87.85; net loss 55 High 1923, 105.38; low 87.55.

Twenty railroads averaged 76.85; net

D. L. GORE CO.

LOWELL, MASSACHUSETTS

W. R. Klander & Co., 12 South Second Street, Wilmington, N. C.

Gentlemen:-

On April 27, a Duesenberg Straight Eight five-passenger tourng car, completely equipped, made a non-stop 3,155mile run on the Indianapolis Motor Speedway at an average speed of 62.63 miles per hour. This stock car was on the track 50 hours and 21 minutes. This is a record endurance run and this stock car was equipped with a CAR-TRIDGE RADIATOR.

The Duesenberg Automobile and Motors Company have written us a letter of congratulation, stating that the radiator functioned absolutely 100 per cent during this test and that this performance was really a revelation to them.

It is simply another instance where the CARTRIDGE CORE has performed magnificently where any other type of core would fail.

When service and efficient cooling is required, CAR-TRIDGE CORES are always specified. The trade has found that it is folly to try and substitute a sheet ribbon or fin and tube type where severe service is demanded,

Very truly yours,

U. S. CARTRIDGE COMPANY. H. E. Jenkins, Sales Manager-Radiator Division,
