

STATE EXAMINATIONS FOR TEACHERS HERE ON JULY, 10 AND 11

Will Be Held in Superintendent's Offices of Board of Education

State examinations for public school teachers will be held in the offices of the board of education July 10th and 11th. The schedule of examinations and subjects are as follows: July 10th Tuesday morning, 9:00 Required of all applicants: Grammar and Composition 9:00 English and American Literature 10:00 Hygiene 11:00 Tuesday Afternoon July 10 Arithmetic 1:00 Geography 2:00 Wednesday Morning, July 11 American History 9:00 North Carolina History 10:00 Civics 11:00 Wednesday Afternoon, July 11 Electives: Two subjects selected from following list: 1:00; 2:30 These subjects should not be selected from the same group. History—English History, General History, European History, Foreign Language—Latin, French, German, Science—General Science, Chemistry, Physics, Biology. 1. Academic credits only can be obtained by examination. The applicant for the Elementary Certificate can obtain the professional credits either by securing credit for an approved summer school or four courses at a county summer school. 2. In order to obtain academic credit for an Elementary Certificate, the applicant must stand an examination on the following subjects: Grammar and Composition, English, and American Literature, Hygiene, Arithmetic, Geography, American History, North Carolina History, and Civics. In addition to the above, applicants must select two subjects from the following three groups. These two subjects must be selected from different groups. History—English History, General History, European History, Foreign Language—Latin, French, German, Science—Chemistry, General Science, Physics, Biology. 3. The group plan will no longer be used. Applicants must stand on all subjects at the same examination period. Individual subjects will not be credited but the examination as a whole must be passed at the same examination period. 4. The applicant must make an average of 75 percent on the eleven subjects, and must not fall below 70 on any subject. A grade below 70 on one or more subjects indicates failure on the entire examination.

BRITISH SCHOONER MAID OF SCOTLAND COMES WITH CARGO

Brings 2,100 Barrels of Molasses From Barbadoes For American Molasses Co.

With 2,100 barrels of molasses in her hold from Bridgetown, Barbadoes, consigned to the American Molasses company, the British schooner Maid of Scotland arrived in port yesterday and is now discharging at the upper warehouse of the molasses company. Capt. H. A. Haughan is skipper of the British sailing ship, and he reported at the customs house yesterday that his trip to Wilmington from Bridgetown was uneventful. The Maid of Scotland is a three-masted schooner of 371 tons register. The craft is consigned to C. D. Moffitt and company, ship brokers. Although there are but two ships—the Maid of Scotland and the American schooner T. J. Cherry—discharging at the port of Wilmington at the present, Captain Moffitt said on yesterday that there are a number of vessels due to arrive here during the present month. Among these crafts are a steamer to take on a part cargo of cotton at the Champion Compress of Alexander Sprunt and Son, Inc., two steamships with cargoes of cement from abroad, a schooner with cement from New York, a steamer with sulphur from Texas, and a cargo of fertilizer material from abroad.

Geodetic Survey Officers Find Big Change in Shoals Off Cape Fear River Mouth

Shift of Sand on Ocean Bottom Will Necessitate Complete Re-visual of Charts of Frying Pan Shoals, Officers of Government Survey Steamer Lydonia Declare

Drastic changes and massive movements of sand in the ocean's bed on the southwest edge of Frying Pan Shoals at the mouth of the Cape Fear river, were reported last night by officers of the United States geodetic survey steamer Lydonia, here on a bi-monthly visit to its summer port. A complete revision of maps of the coast line and coast bed of the Cape Fear river, and of the Atlantic Ocean's bed for fourteen miles along Frying Pan Shoals was forecast by the Lydonia's officers last night. The maps, in use since the middle of the eighteenth century, are to be completely altered, due to changes wrought by sand spits affected by ocean currents over a period of nearly seventy-five years. Drastic changes in the ocean's bed were found by the Lydonia's surveyors during the last two weeks trip, according to preliminary surveys conducted during the last trip have revealed the changes. Results of investigations of the southwest edge of the coast have brought to light heavy shifts of ocean

bottom sand, according to the officers. Whether or not the changes that have been found are menacing steamer traffic near the mouth of the Cape Fear river or whether or not the lights on about eighteen miles out, was located in a spot safe for steamer passage near the shoals was not announced. The boat's officials believe that no serious shifts have taken place. The shifts, while heavy, are not expected to interfere with the usual traffic. Detailed reports will not be available, it was said, until more extensive investigation of the ocean's bottom between the mouth of the Cape Fear river, where the Frying Pan Shoals begin, and the lights, eighteen miles out in the Atlantic at anchor, can be undertaken. Further investigation of the sand shifts is to be made throughout the summer. The Lydonia left early this morning for the southwest edge of the Frying Pan to delve deeper into the changes that have been made since the old maps, now being revised, were first drawn up back in 1850.

CUSTOMS RECEIPTS IN JUNE OVER FOUR HUNDRED THOUSANDS

Makes Collections For 12 Months Nearly Six Million Dollars. Collection Cost

Customs receipts for the month of June in the 15th district, which includes the entire state of North Carolina, amounted to \$459,384.34, according to official figures available at the office of Collector of Customs A. L. McCaskill yesterday. Although the fiscal year of 1922-23 ended on June 30 the total collections for the 12 months have not yet been compiled, but Assistant Collector of Customs S. F. Highsmith is confident that the aggregate for the year just ending will amount to approximately \$5,700,000, the highest figure ever before attained in this district. Speaking of the cost of collecting a dollar in this district during the past fiscal year, Assistant Collector Highsmith declared yesterday that he was not in position to give much of an idea as to what the figure will be, but is hopeful that it will be approximately what it was during the fiscal year 1921-22, five mills. If the collection figure can be lowered a small figure when the annual customs report is completed within the next few days it will show a two percent record for the North Carolina record will be the most important money collected during the past 12 months, and the other will be the small cost of collecting each dollar reported.

DEATH RATE SHOWS DECLINE FOR MONTH OF JUNE IN COUNTY

Number Year Ago Was 58, This Year It Is Only 45 the Health Board Says

A recent compilation of records by county health officer, Dr. John H. Hamilton, shows that New Hanover county and the city of Wilmington that the death rate is on the decrease. For the month of June just ended there were 40 deaths against 58 last year for the month of June. Of this number 40 were residents of the city and county, while five were non-residents. The records show that in the city of Wilmington for June there was a total of 32 deaths, 10 whites and 22 negroes. In the county there were a total of 8 deaths with 2 whites and 6 negroes.

According to Dr. Hamilton, the death rate for the county and city combined, for the month of June, is 11.1, while for the same month last year it was 14.0. In the city of Wilmington the death rate for white was 5.1, while that of the negroes was 19.7, making a total of 10.7. For rural New Hanover county the death rate was, for the white race 5.2, and for the negro race it was 26.6, making a total of 12.8. During the past month the statistics of Dr. Hamilton show that there were 10 deaths of those that had not attained the age of 1 year. Under 2 years and more than 15 there were three deaths. Under 15 and over 5 years, there was one death, and over 15 and under 25 there were five. Under 45 and 25 there were also five, while under 65 to 45 there were six deaths and 10 deaths to those over 65. The principal cause of the deaths in New Hanover county and the city of Wilmington for June was attributed to cerebral hemorrhages and the second disease causing death was organic heart attack.

DIED
MRS. IDA JANE WILLIAMS, wife of Captain Edgar D. Williams, at her home in East Wilmington, Thursday, July 5th, 11:15 a. m. Funeral will be conducted this afternoon at 5 o'clock from Fifth Avenue Methodist church.

PROGRAM COMMITTEE WILL CONFER ABOUT SECRETARIES' MEET

Louis T. Moore and Other Committeemen to Hold Conference on Sunday

Program plans for the annual session of the North Carolina Commercial Secretaries' association, to be held in Asheville July 27-28, are to be completed on Sunday, when the program committee gathers for a conference at Wrightsville Beach or Goldsboro, according to information received yesterday by Louis T. Moore, secretary of the Wilmington chamber of commerce, who is a member of the convention program committee.

Secretary Moore on yesterday received a long distance telephone call from Walter Denmark, secretary of the Goldsboro chamber of commerce, notifying him that the committee would meet on Sunday in Goldsboro or at Wrightsville Beach to complete the program for the Asheville convention. The meeting place of the committee is to be definitely decided upon by C. W. Roberts, secretary of the Greensboro chamber of commerce, who is chairman of the committee. It is thought that the conference will be held at Wrightsville Beach. The personnel of the committee includes C. W. Roberts, chairman, of Greensboro; Walter Denmark, of Goldsboro; F. L. Wentman, of Asheville; and Louis T. Moore, of Wilmington. The committee for some time have been considering a number of speakers of national repute who will be available for the convention, and invitations will be extended to them immediately following the conference of Sunday.

County Commissioners Checking Jury Lists

A complete check of the jury list is being made at the courthouse and, according to Auditor Orrell, it will take several days yet to complete it. The commissioners are going over several thousand names. Practically every poll tax payer in New Hanover county is in the list. When complete it will comprise the men eligible for jury duty for the next two years.

BRITISH CEMENT IS IMPORTED HERE FOR SOUTHERN POWER CO.

Steamship Emergency Aid Coming From London With Initial Cargo—Other Ships

When the steamship Emergency Aid arrives here from London about the middle of the month she will bring to the port of Wilmington the first cargo of cement ever imported here from England.

The steamship will dock and discharge at the terminals of the Wilmington Compress and Warehouse company, and it was stated on yesterday by one of the terminal officials that this will be the first of several cargoes of cement to be imported into Wilmington from England for the Southern Power company. In fact it was said that the importation of cement from England into Wilmington for distribution to points in North and South Carolina is new business, which is expected to increase to large proportions.

In addition to the cement cargo of the Emergency Aid there is also enroute to this port another such cargo aboard the Danish steamship Indanic from the port of Aalborg, Denmark. This cargo is also for the Southern Power company and is to be discharged for distribution at the Wilmington terminals. The freighter is expected to arrive about the middle of the present month. There is also expected at the Wilmington terminals soon the United States steamship C. A. Snider with a cargo of sulphur from Sabine, Texas. Other vessels with cargoes are expected at the Wilmington terminals during the later part of the month.

Quotations

Your idea of "quotations" as applied to printing is probably a matter of prices. We are always glad to "quote on a job" when the buyer is seeking something more than merely the lowest price. Intelligent handling, skilful operation, a sincere desire to interpret your wishes, and a constant effort to turn out better looking work at moderate cost do not inflate our quotations, but they are just as much a part of the job as the ink and the paper. In twelve years we have learned a good many things about printing. So add "experience" as one of the Wilmington Printing Company features which the quotation does not show.
