Why Good Grooming requires keeping DARK ARCS DRY. If you still are tolerating perspiration under the arms, just listen to facts about hygiene in these dark arcs: that any doctor can give you: It's uncleanly! That repellant underarm odor signals decay! That perspiration which damages gowns is decomposed! Because the dark arcs are closed to purifying air and light, perspiration decays before it evaporates. Perspiration, carrying cast off body wastes, pours out on the skin, mingling with dead skin scales, and micro-organisms. Decay begins. Acids form. Fungus may grow and bacteria multiply. Rancid odors appear. "It's shocking" say lovely women of today! They prevent it, by using Arrid to safely check perspiration. Arrid keeps underarms dry, odorless, 1 to 3 days. No perspiration, no decay, no odor. Arrid, which safely checks perspiration, is a pure, white, greaseless cream. Harmless to skin and fabrics. Use it any time, after shaving, as you dress... 10¢, 35¢, 59¢—at stores which sell toilet goods.

Apple Preserves Will Set Off A Ham Or Pork Dish

BY MRS. GAYNOR MADDOX NEA Service Staff Writer

For serving with ham, pork, lamb, duck or chicken, you'll find nothing better than these old-fashioned apple preserves. In making them, it is important to select tart apples that hold their shape when cooked. In most localities, the Winesap, Spitzenberg, Jonathan and Northern Spy are excellent varieties for these recipes. Apples must be cut in uniform pieces to insure even cooking. Drop the pared apple sections into cold water to prevent discoloration. To prevent breaking the apple slices, carefully place both the syrup and slices in jar with a large spoon. Tilt the kettle when cooking rather than stir so that the syrup will flow over the apples and the apple sections will remain unbroken.

AUNT JO'S APPLE PRESERVES (Five Half-Pint Jars) Two quarts (2 pounds) prepared apples, 3 cups water, 4 cups (1 3/4 pounds) sugar, 1-2 teaspoon salt, 4 sticks (4 inch) cinnamon. Wash and pare about 9 (3 pounds) firm, tart apples of uniform, medium size. Cut into eighths and carefully remove cores. Weigh or measure into large, flat-bottom preserving kettle. Add water. Bring to boil and simmer, covered, about 4 minutes, or until almost tender. Add sugar, salt and cinnamon. Bring slowly to a boil without stirring. Simmer about 35 minutes, or until apples are clear and syrup sheets from spoon. To prevent scorching and obtain glaze, occasionally tilt kettle. Skim. Pack in clean, hot, sterilized jars and seal.

OLD-FASHIONED GINGER APPLE PRESERVES (Five Half-Pint Jars) Follow directions for Aunt Jo's Apple Preserves, only omit cinnamon. Add 1 tablespoon grated lemon rind (use only yellow part of rind) and 3 tablespoons chopped crystallized ginger after sugar has been added. Drained preserved ginger may be substituted for crystallized ginger.

TOMORROW'S MENU BREAKFAST: Blackberries, dry cereal, whole-wheat toast, coffee, milk. LUNCHEON: Broccoli souffle, minced tongue sandwiches, baked peaches, tea, milk. DINNER: Broiled ham, Aunt Jo's Apple Preserves, boiled potatoes, succotash, water-cress salad, chocolate cake, coffee, milk.
