**HOME DYE FOR EGGS**

You can help in the war effort and have Easter eggs too. In place of the chemical dyes which the government prohibits, boil your eggs with vegetables and see the gay colors that result. A clear red can be produced by boiling the eggs with beets; pastel green, with spinach; pale yellow, with steaming onions skins and then boiling the eggs in this water.

### 'FEMS' AT DAVIS TAKE UP DRILLING

#### Women Workers Familiarize Selves With Manual Of Soldier

The feminine employees in the various offices of the Quartermaster section of Camp Davis stepped out in tune with the times Wednesday and began a series of drills through which they hope to gain complete familiarity with the foot drill of the army.

The idea apparently originated among the ladies themselves and found hearty sponsorship among the officers of the Quartermaster Office and its subdivisions.

The paved area in front of the Quartermaster Motor Pool was the scene of the first drill, staged from 12:30 p. m. until 1 p. m. yesterday under the direction of Maj. Leasard, and a number of the officers who head the various offices under the direction of the Quartermaster.

The drills are scheduled to be held daily during the lunch hour and are open to all feminine employees in the Quartermaster offices but are not compulsory.

The idea, the young ladies explain, is that they may be "one jump ahead" in the event Uncle Sam should decide to form a Woman's Auxiliary Corps.

Uniforms??? Well, that's a moot question at the moment. 2
