the war to complete victory.

Public Port Terminals. Perfected Truck and Berry Preserving

and Marketing Facilities. Seaside Highway from Wrightsville Beacn to Bald Head Island.

Extension of City Limits. 35-Foot Cape Fear River channes, wider Turning Basin, with ship lanes into industrial sites along Eastern bank south of Wilmington.

Paved River Road to Southport, via Orton Plantation.

Development of Pulp Wood Production through sustained-yield methods throughout Southeastern North Carolina.

Unified Industrial and Resort Promotional Agency, supported by one countywide tax.

Shipyards and Drydocks. Negro Health Center for Southeastern

North Carolina, developed around the Community Hospital. Adequate nospital facilities for white.

Junior High School.

Tobacco Warehouses for Export Buy-

Development of native grape growing throughout Southeastern North Carolina. Modern Tuberculosis Saratorium.

TOP O' THE MORNING

Arise and meet the daylight, Be strong and do your best, With an honest heart and a childlike trust, And God will do the rest. -MARGARET E. SANGSTER, JR..

### Plea For Sales Tax

. There is no more reason to suppose the people of the United States would not ultimately accept a national sales tax than the people of this state have failed to accept the same method of raising revenue for state needs. Probably its introduction would stir a quick storm of protest-just as happened in North Carolina-but it would subside as quickly. And it would distribute the tax load among all the people more equitably than any other system.

Representative Robertson's declaration that congress should have the courage to approve a sales tax in the emergency, without rgard to political expediency, is commendable, not only because the tax is needed but as exhibiting the type of courage he urges upon con-

"The only way of meeting this emergency." he says, referring to the treasury's \$8,700,-000,000 revenue goal, "would be to include some suitable consumption tax." No truer word has been spoken since the war created escape, even though his purchase were only than walk to church as they did in childhood.

### **High School Orchestra**

An important event happened in Wilmington Sunday afternoon, but for the most part Wilmingtonians knew nothing about. There was nothing spectacular about it, but the handful of people who were present realized that something new has been created and that its exis- tainly hordes of them did not make their custence constitutes another cultural asset in the tomary Sunday expenditures for gasoline.

term a group of pupils was assembled to form which previously depended chiefly on week-end an orchestra. Rehearsals have been held reg. trade for profits. Life's like that at every ularly. Gradually the members have been welded into a unit. Improvement has come harm. Every rose, as we used to sing, must not only because each player has been benefited by individual practice upon the instrument of his or her choice but through con- appears to have been worthwhile, whether racerted playing. Finally they were gathered tioning is necessary or not. It is gratifying to music lovers to know that the Germans. the start has been made.

### **Expert Evidence**

With the arrival of American correspondents Richard G. Massock, chief of the former AP ply carts, 12 various dumps and 147 planes. bureau in Rome, have filed interesting dispatches from their Lisbon quarters.

Mr. Chanke declares the morale of the German civilian population is slipping, but hastens to add that this does not indicate Nazism is near internal collapse.

Mr. Massock says the Italian people, "ridden with hardship and unrest" are "ripe for defeatism and disillusion," but adds that collapse from a food shortage or an economic breakworth to the 'Axis."

This is evidence gathered on the ground by its continued advance. men eminently fitted by their long raining to look below the surface and weigh all factors in an equation. It must have the weight that belongs to expert testimony in any court.

When Mr. Shanke says, therefore, that Gerdoes not say cracking) we may be sure that man civilian morale is slipping (note that he a revolution in the thinking of the people of Hitlerland is undergoing a chance which is in no way to the Fuehrer's advantage. A very slight shove is all that anything already slipping needs to send it quickly to whatever bottom it can hit. It would seem that only a little push, something like a definite victory over the Nazi armies in the field, is all that is needed to make the German people, like the Italians, "ripe for defeatism." A second Argonne would deflate German morale beyond

But we must not kid ourselves into thinking that anything less than a major victory on any of the many battlefields of this war will do

With Hitler telling Mussolini what he may or may not do, and 200,000 Nazis in Italy to see that he obeys, no particular reason exists to fear any positive Axis action from that country. A Hitler defeat will end Italy's war participation and her people's misery.

#### 30 Ships

The launching of 30 cargo-carrying ships as part of the program arranged for Maritime day is significant on many counts. Perhaps the most important is that it will demonstrate the increasing speed with which American shipyards are turning out merchant craft, specifically Victory ships, to keep war materials istration action, but if it does get into the picture, it won't be behind Senator O'Daniel. The moving to our own forces abroad and to the Allies who with us, are fighting the world threat of despotism as represented by the

On September 27 last, 14 Liberty ships were launched, up to that time the greatest mass launchings on record. In seven months American shipyards obviously have more than doubled their production as the 30 scheduled to slip down the ways on Friday indicates.

The completion of no single ship has been delayed to swell the total launchings on that day, Admiral Land, head of the Maritime Commission, assures us. They represent the new stride in production, and will mark the beginning of the two-ships-a-day program inaugurated, with the goal set for 23,000,000 dead tons of shipping set afloat this year and

Another feature of the Maritime day program is the record set by the North Carolina Shipbuilding Company in Wilmington which is launching a ship a week in a plant which was non-existent a short year and one-half ago.

### Different Kind Of Sunday

The first Sunday under gasoline rationing produced expected and unexpected results. Among the latter may be mentioned a fal-

ling off in church attendance. As the automobile in its earlier life was widely blamed for decreasing congregations, this suggests either that the blame was misplaced or that the people generally have become so dependnt the need for tremendously increased national upon their cars that they would rather stay revenue. If it were imposed, no buyer would abed when they can't use them for junketing

> On the other side of the record, there was a sharp decrease in highway accidents, with ambulances idle in Albany, N. Y., and Atlanta, Ga. Neighbors, previously strangers, discovered the good points of each other and even members of families who seldom met together became reacquainted. Traffic was greatly reduced on the highways.

Presumably car owners saved money. Cermeals and general recreation, a situation vast-With the beginning of the present high school ly to their own benefit but hard of businesses turn. One man's good invariably is another's

### **Counting Spoils Of Battle**

Russian accounts of the fighting in the Kharkov area continue to claim increasing advantage for the Reds. They would be more credible if they did not specify German losses in such minute detail. They share this fault with

We read, for example, that between May 12 and 16, "by incomplete reports," the Russians captured 365 guns, 25 tanks, 188 mortars, 379 machineguns, 46,413 shells and 89 cases of shells. In addition it is said, "other trophies" at Lisbon, following their concentration-camp were 23,384 mines, 1,000,000 cartridges, 13,000 experiences in Germany and Italy, something hand grenades, 90 trucks, 29 radio stations, of the true situation in these enemy countries 38 artillery and supply dumps. Among "tools" is coming to light. Edwin A. Shanke of the old destroyed are 400 German tanks, 210 guns, 33 Berlin bureau of the Associated Press, and mortars, 217 machineguns, 700 trucks, 100 sup-

To have counted and listed these articles the Russians must have a force of auditors with adding machines in the front line.

Heaven knows we want to believe the Russians are doing a marvelous job around Kharkoy. We want to believe that Timoshenko is mopping up on Hitler and his minions. And we certainly do believe that Hilter can be crushed in Russia this summer.

But for the life of us we cannot see how it down is not imminent, although "elements are is possible for an advancing army, or any of lacking to make Italy an ally of predictable its soldiers, to pause long enouugh to make such tabulations as these without jeopardizing

## Washington Daybook

By JACK STINNETT

WASHINGTON, May 18. - Oddly enough, Washington, as a city, doesn't pay much at tention to house and senatorial eelctions until Ask a hundred persons how this race or that

is going, before it's run, and unless the person questioned has some particular affinity for the state or district under discussion, you will only get a blank look or raised eyebrows. There are, however, exceptions - and the senatorial race coming up in Texas is A-I this year. There are good reasons why.

The three leading candidates are all twoterm governors. The oldest living politician here can't remember when that ever happened before. In the second place, one of the candidates is incumbent Sen. W. Lee (Passthe-biscuits-Pappy) O'Daniel, who was considered pretty much of an amateur politican until he tromped on the Administration-sponsored Rep. Lyndon Johnson and much publicized Rep. Martin Dies in the election that seated him in the upper house.

His opposition in the coming election is composed of former Gov. Dan Moody, who has been in the political thick of things in Texas ever since the forced abdication of the Fergusons, Ma and Pa; and of former Gov. James V. Allred, the Wichita Falls attorney, who not only made his political mark very young in life, but who has stepped out of a life-time job as federal district judge to make this race.

There is another factor. In the last senatorial To The Editor: campaign, the Administration threw its weight behind young Johnson, Apparently a certain sector of Texas voters resented this Adminis- public service I have seen ren- our public affairs, he might do tration interference in local politics. In spite dered by volunteer workers, I reof that there is some possibility the Administration of the starting Red success, the well to let down his blood pressure.

# Interpreting The War

Russians Appear To Have Turned Tables On Germans

By KIRKE L. SIMPSON Wide World War Analyst

A grim possibility that his prom-"annihilation" offensive in Russia will turn into a Nazi rout on a wide front south of Kharkov confronts Herr Hitler. For seven days he has been outguessed and outfought by Russian armies he once told his people he had destroyed.

The exact contour of the 100-mile wide Russian front around the Kharkov bastion of German com. munications is not clear.Russian seizure of Krasnograd junction 60 miles west-southwest of Kharkov s imminent, according to reports from Moscow and London. Its fall would put Red forces within three score miles of Dniepropetrovsk, site of the rail bridge upon which main supply lines of German forces in a rapidly developing Stalino-Taganrog pocket depend.

With Krasnograd under Russian gunfire, (London observers go far. ther and intimate it is already in Russian hands), the vital German communication link east of the Dnieper river at the north elbov of the stream's great Eastern bend would be broken. Even Kremenchig, the next major river cross ing northward and 80 miles farther west, would be threatened

South of Krasnograd, the Rus sians are already reported astride one rail line to Stalino at Lozovava junction and threatening the direct Stalino-Dniepropetrovsk route and its Taganrog and Mariupol connections on both sides of Staling If that is true the whole southern mainland flank of the German line to the sea of Azov coast, from which the main attack on the Caucasus was to be launched, is in deadly peril.

So far as the breach in the Nazi lines south of Kharkov can be traced on the maps, it seems to represent a huge bulge with a front of 50-mile width or more from Krasnograd to Lozovaya bearing down on Dniepropetrovsk from the east and northeast. It is far from clear yet, however, whether Marshal Timoshenko's objective is confined to reaching the Dnieper at the Dniepropetrovsk crossing of aimed at sweeping its eastern banks clear to Kremenchug. At Krasnograd he would be in a po sition to strike on westward to ward Poltava, then southwest Kremenchug, or turn his whole strength southward on Dniepropetrovsk and the closure of the Salino-Taganrog pocket to prevent a Nazi escape.

Whatever his purpose or the forces he has available to exploit gone far to nullify German victories on Kerch peninsula, Its comof Timoshenko in the Krasnogra Lozovaya breakthrough.

The Russian leader, not Hitler seems to have been the one to tremendous power in men. guns, tanks and planes for the Kharkov gence officers discovering the fact.

Timoshenko also appears to have fooled his rivals completely as Volchansk line east of Kharko from which he jumped off on a 49mile front seemed aimed at regaining the city by frontal attac The real thrust fell to the south of that line, however, once Nazi re serves had been sucked in to bols-

ter Kharkov defenses. Even more important than and adroit staff work. Timosherko has so far beaten Hitler and his generals at their own game.
