RUSSIA IS GIVEN LEND-LEASE DRAFT

Neither Hull Nor Litvinoff Discuss Contents Of Proposed Agreement

WASHINGTON, May 26.— (AP) — The United States today communicated to Soviet Russia the draft of a proposed lend-lease agreement between the two countries.

The draft proposal was handed to Soviet ambassador Maxim Litvinoff by Secretary of State Hull in the course of a 45-minute conference during which it was understood other matters also were discussed.

Neither Litvinoff nor the Secretary disclosed the contents of the proposed agreement. It was authoritatively learned, however, that its purpose was to bring lend-lease arrangements with Russia into line with agreements already reached with Great Britain and other United Nations governments.

This, in effect, would align Soviet Russia with Britain and the United States in post-war efforts to restore world trade on the principles long advocated by Secretary Hull.

The Anglo - American lend-lease agreement announced last February, it was recalled, provided that the precise and detailed terms of settlement should be postponed until the war is won and that repayment for goods and services rendered should be in such form as not to burden world commerce but to encourage it.

It provided for the return to the United States of "such defense articles transferred under this agreement as shall not have been destroyed, lost or consumed and as shall be determined by the President to be useful in the defense of the United States of America or of the western hemisphere."

It provided also that in the final settlement full account should be taken of "services, information, facilities or other benefits or considerations provided" by the recipent of lend-lease aid from the United States. 3

Local Boy Enlists For Naval Aviation

ATLANTA, Ga., May 26—John D. Wood, of 1815 Market St., Wilmington, North Carolina, has enlisted for Naval Aviation training, joining the increasing ranks of young Americans signing up to man the nation's powerful warplanes of attack.

Wood, 19, was enlisted Wednesday, May 20, at the Naval Aviation Cadet Selection Board in Atlanta, for the Navy's V-5 program of officer pilot instruction now open to high school graduates who are single, 18 to 27, physically fit and mentally alert. He is a student of the University of North Carona, where he played football

Along with hundreds of other young men who have enlisted for this training, Wood will soon be ordered to begin his preliminary instruction at one of the Navy's new indoctrination centers at the Universities of Georgia and North Carolina. Following will be further instruction at one of the Naval Reserve Aviation Bases. Successful cadets will then be transferred to one of the three great Naval Air Stations at Pensacola, Fla., Jacksonville, Fla., and Corpus Christi, Texas for advanced training. Completion of this advanced training qualifies them for their "Navy Wings of Gold" and commissions as Esigns in the U. S. Naval Reserve or Second Lieutenants in the U. S. Marine Corps Reserve.

Private Wm. Walton Is With Army Show

Word has been received by Mrs. W. B. Walton, 611 South Sixth street, that her son, Pfc. William Walton of Fort Meade, Md., will be in Co. H, 175th Infantry, one of the two companies soon to tour the nation with the Army War Show.

The Army War Show is to make its first appearance in Baltimore Stadium June 12 and will then show in practically every large American city east of the Mississippi river, winding up its tour at New Orleans late in the summer.

The "circus," as it is referred to by the soldiers, is expected to bring the Army much information on the movement of large bodies of troops, encumbered with all types of transport and fighting equipment, and proceeds from its appearances will swell the coffers of the Army Relief Fund.

Pfc. Walton, employed by the Baltimore News-Post prior to induction, received his training during the past year in Co. K, 29th Infantry Division.

More Leeway Planned For U. S. Wire Tapping

WASHINGTON, May 26.—(AP)—Legislation giving federal agencies more leeway in the use of wire-tapping to prevent and prosecute crimes against the national security was approvevd unanimously today by the House and sent to the Senate.

Intended as a war measure expiring six months after the termination of the war, it authorizes the Federal Bureau of Investigation, the Army Intelligence division and the Office of Naval Intelligence to do these things:

Require that telegrams, cablegrams, radiograms, or other communications be delivered to authorized agents when there is reasonable suspicion that an offense against the national security is about to be committed.

HELP IS VOTED SMALL BUSINESS

House Passes $200,000,000 Measure Designed To Utilize Their Facilities

WASHINGTON, May 26.— (AP) — The House showed today its sympathy for the plight of the "little fellow" in the nation's economic system, voting 344 to 0 to pass a $200,000,000 measure designed to utilize the facilities of small business for production of war and essential civilian goods.

The unanimous approval sent the measure back to the Senate for a vote on two major House changes, chief of which was a requirement making it virtually mandatory for government war agencies to award contracts to small enterprises certified as capable of handling them.

The other change doubled the Senate-approved $100,000,000 which would be available as the working capital for a "smaller war plants corporation" for loans to convert small plants to production of essentials in the war program.

In addition, the Smaller War Plants corporation, which would be set up in the War Production Board, could serve as the prime contractor for government work, splitting up its assignments among small business.

The mandatory clause inserted in the bill by the House provides that when the chairman of the War Production Board has certified a small concern, or a group of small concerns, as equipped to handle a "specific government procurement contract," that specific contract must be awarded to that company.
