Start The Day Right With A Good Breakfast

WILMINGTON MORNING STAR, WILMINGTON, N. C.

Yoke Top Dress

# By MRS. GAYNOR MADDOX NEA Service Staff Writer ...

A good breakfast gets the day off to a good. start. And a good start is mighty important for a war worker. Yet, those who have been checking the eating habits of men in our heavy industries, report that an unbelievably large number eat little or no breakfast and that fatigue catches up with them too early in the day. Food is the fuel which supplies the energy to work. Skip breakfast and the body must work on what it has stored from previous meals, impairing efficiency.

War workers need good breakfasts, they need energy foods containing as many minerals and vitamins as possible. A bowl of whole-grain cereal, griddle cakes or hot breads made of whole grain flours, whole wheat, corn meal and buckwheat, are energy foods that are generously supplied with minerals and vitamins.

Sweets are also energy foods. New Orleans molasses has the plus quality of added iron, in fact it is one of the richest sources of the iron which the body uses. Eating molasses on hot cakes and on cereals adds this valuable mineral to the meal. Begin the meal with fruit and, for a real hearty breakfast, add such foods as bacon, sausage or eggs.

Corn-Meal Griddle Cakes One and one-half cups corn meal, 1-2 cup flour, 4 teaspoons baking powder, 3-4 teaspoon salt, 3-4 cup water, 3-4 cup milk, 1 tablespoon molasses, 1 beaten egg. 1 tablespoon melted butter.
