DAVIDSON BEGINS GRADUATION FETE
 Dr. Tennis E. Gouwens Will Deliver Baccalaureate Sermon Today

DAVIDSON, June 6.—(AP)—The 102nd Davidson college commencement program opened today with the annual senior-alumni luncheon, class day exercises and a faculty reception.

Cameron Morrison of Charlotte, former governor and U. S. Senator and now Democratic nominee for Tenth district representative, spoke at the luncheon.

Dr. Tennis E. Gouwens, pastor of the Second Presbyterian church of Louisville, Ky., will deliver the baccalaureate sermon tomorrow.

The exercises will close Monday when 29 candidates will receive Bachelor of Arts degrees and 35 degrees of Bachelor of Science.

Dr. James A. Jones, pastor of the Myers Park Presbyterian church of Charlotte, was elected president of the Alumni association, succeeding Harlee Branch of Atlanta, Ga.

J. J. Barnhardt of Concord was re-elected vice-president. John Payne was re-named Alumni secretary and Frank L. Jackson, college treasurer, was re-elected association treasurer.

The following were introduced as new members of the Alumni council:
 A. C. Winn, president of the student body; J. M. Owens, president of the Y. M. C. A.; H. M. Darby, editor of the Davidsonian, newspaper; J. P. Rudolph, J. C. Caldwell, J. L. McCall and W. H. Sprunt.

Fire Insurance Industry Will Help War Damage Corporation

The fire insurance industry will act as fiduciary agents for the War Damage corporation in writing policies of protection against enemy attack to supplant the blanket protection now in force which, by law, expires June 30, according to an announcement by Secretary of Commerce Jesse Jones made public here yesterday by Rep. J. Bayard Clark of Fayetteville.

Persons desiring such protection may make application through local fire insurance agents and brokers, Jones said.

The necessary manual of rates, rules and regulations and application blanks will be distributed on or about June 20.

Policies will be issued for a 12-month period to cover physical loss of real and personal property which may result from enemy attack or action of our own forces in resisting enemy attack, he said. Blackout, sabotage, capture, seizure, pillage, looting, use and occupancy, rent, rental value, or other indirect loss or consequential damage will not be covered.

Effort has been made to provide reasonable protection at as low a cost to the insured as possible. Losses occasioned by the war are a national problem, he said, and Congress therefore specified in legislation that rates should be geographically uniform.

No protection will be given for accounts, bills, currency, deeds,

U. S. SINKS, DAMAGES 13 TO 15 JAP SHIPS
 (Continued From Page One)
 "Pearl Harbor has now been partially avenged. Vengeance will not be complete until Japanese sea power has been reduced to impotence. We have made substantial progress in that direction. Perhaps we will be forgiven if we claim we are about midway to our objective."

"The battle is not over. "All returns have not yet been received. It is with full confidence, however, that for this phase of the action the following enemy losses are claimed:
 "Two or three carriers and all their aircraft destroyed, in addition to one or two carriers badly damaged and most of their aircraft lost;
 "Three battleships damaged and at last one badly;
 "To claim a major Japanese disaster. His statement tonight that "substantial progress" had been made in the direction of reducing Japanese sea power to "impotence indicated that the repulse of the powerful enemy task force was fast resolving itself into a disaster for the enemy."

The assault on Midway, regarded here as Japan's first major move to occupy the Hawaiian Islands, crumpled with greater damage and casualties to the troop convoy and battlefleet than the Japanese inflicted in their peacetime cloaked attack on Pearl Harbor.

The Japanese invasion force, far from surprising the defenders of Midway, was engaged in battle before its advance raiding force could soften the defenses of the tiny westernmost bastion in the Hawaiian group, and before its troopships could come close enough to attempt a landing.

Just as in the battle of the Coral Sea, this invasion force was hit more than 1,000 miles from its probable ultimate objective—Oahu Island.

BRITISH BOMBERS RAID FRENCH COAST
 (Continued from Page One)
 ported over the English south coast today. Bombs were dropped but damage and number of casualties were declared small.

Bomb-carriers Hurricanes escorted by Spitfires scored hits on airdrome buildings and the perimeter of the track at Maupertus, on the Cherbourg peninsula, the news service added.

Hundreds of Britain's fighter craft appeared to rule the air over the enemy-occupied coast tonight as British quatters estimated that more than 3,000 bombers in the past week had dropped their destructive cargoes on cities of the Reich, beginning with Cologne.

There on last Saturday night, the air ministry said, photographs showed eight square miles of the most vital factory districts and thickly populated regions of that Rhineland city's 100-square-mile area had been razed in a single holocaust caused by 1,130 bombers.

This area was eight times that which the Nazis claimed to have burned out. London in their great fire had 12, 29, 1940.

Fires in the Ruhr, lighted by the RAF's third s. ng attack of the week last night, still fed tonight on the factories upon which Hitler had counted to equip his armies for mighty offensives.

This attack was not so great as that of Monday night when 1,036 bombers took for their targets the crowded resorts and blast furnaces of the Essen area in the Ruhr, but observers believed it was equal or almost equal to that of the following night when about 300 heavy planes participated.

Returning fliers said it would have been "big stuff before this week's bomber surge."

GREATER ATTACKS ON GERMANY SEEN
 (Continued from Page One)
 week from conferences in London to arrange for American air power to join the aerial offensive on a major scale.

"At least 3,000 planes must be in these flights to assure an average of 1,000 a night, since there will be some nights when weather will prevent flying, and the British are said to be planning on 30,000 planes a month," the periodical said.

"More than 120 'dromes would be needed, and Britons say this will be possible. But that is for British planes. When the United States gets into the fight, it will need probably 150 more air dromes.

"Since the United States is to assume charge wherever possible, this will mean a force of at least 400,000 Americans for duty in the British Isles. It must be remembered that 20 ground men are necessary for every one in the air.

"During the summer time when darkness lasts fewer hours than in winter, the sending away of 3,000 bombers would be a colossal task for airdromes.

"Yet the British have said they can handle this many, so why need there be any doubt that Americans can take care of at least that many? Turn any one of hundreds of American Knudsons on the job and see how they will work."
