

City Draft Board Plans To Reclassify 3-A Men

Many Are Expected To Be Called Into Service In June, Says McClelland

Selective Service will extend its way into the family life of many more Wilmingtonians next week when about 2,000 men now in the 3-A group with city draft board No. 1 will be reclassified.

Many of the 3-A men may be called to service in the Army in July, Chief Clerk Glean McClelland said Saturday.

On Saturday, 400 men of the Third registration received questionnaires, and they too may be called in the July call for men, Mr. McClelland said. The city board will mail the questionnaires at a rate of 500 a week. A total of 2,566 men, between the ages of 35 and 45, and 20 and 21, were registered with the city board on February 16.

Beginning Monday the draft board will begin mailing occupational questionnaires at the rate of 100 a day to men of the Third registration.

The 3-A men, or those married or with dependents, will receive a supplementary type of questionnaire this week. The questionnaire will deal with the number of dependents, if the wife works, and if she has any other source of income than from the husband.

The city board's advisory committee will meet each Monday, Wednesday, and Friday from 5:30 to 9:30 p.m. in the council room at the city hall to assist men in filling out the regular and occupational questionnaires.

Preparations for the Fifth registration of young men between the ages of 18 and 20 years on June 30 are expected to be made soon. Approximately 1,200 are expected to register with the city draft

Mileage Restrictions May Be Imposed On Cabs

WASHINGTON, June 6.—(AP)—Specific operating mileage restrictions soon may be imposed on taxicabs, trucks, buses and government-operated automobiles throughout the nation, it was reported today in informed quarters.

Details of the program were not disclosed, but it was understood that several methods of curtailing taxicab operations were under consideration.

One would involve a flat order to make a certain reduction in mileage; another would limit the uses to which taxicabs could be put; a third would bar inter-city taxi operations and limit the distance a cab could travel from its garage. Sightseeing trips by cabs also will be prohibited, it was reported.
