

Forrest Lanier, Capt. Willis Wed In Post Chapel

Miss Forrest Lanier of Taylorsville, Ga., became the bride of Capt. Willis Wed of Kirwin, Kas., at 11 o'clock Saturday morning, July 11, at the post chapel, Camp Davis. The vows were spoken before the Rev. Hoyt, chaplain at Camp Davis.

The chapel was decorated with baskets of gladioli, fern, and standards bearing cathedral candles. A program of nuptial music was present prior to the ceremony by Cpl. Francis Lazenby, organist.

The bride entered with Major Sneed of Camp Davis, by whom she was given in marriage. She wore a street-length dress of aqua blue, trimmed with lace. Her hat was of white straw. Her accessories were white and she wore an orchid.

Miss Elizabeth Mobley of Thomson, Ga., attended her as maid-of-honor. She wore a printed silk dress of pastel colors. Her corsage was of pink rosebuds.

Attending the bridegroom was Capt. John Gaumer of Wamego, Kas., as best man.

Shortly after the wedding the bridegroom's sister, Mrs. John Gaumer, entertained the couple at an informal luncheon at the Gaumer's home in Wilmington, later the couple left for a short wedding trip.

The bride is the daughter of Mr. and Mrs. John R. Lanier. She graduated from Rockmart High school in 1935, attended Grady hospital school for nurses in Atlanta, Ga., and became a registered nurse. For the past year and a half she has been a lieutenant in the Army Nurse Corps. She has been stationed at Camp Davis since May, 1941.

Capt. Willis is the son of Mrs. Grace Willis of Kirwin, Kas. He graduated from the Kirwin High school in 1935 and from Kansas State college at Manhattan, Kas., as an electrical engineer in 1940. He is now stationed at Camp Davis as an instructor in the Anti-aircraft Artillery school.

Capt. and Mrs. Willis will be at home in Wilmington.

GEORGE WASHINGTON TRICORN

Appropriately patriotic is this dashing headpiece designed by John Fredericks. It is brown felt, trimmed with heavy black wool fringe. The high crown is adjustable, the whole sensational.

Housework Drudgery Vanishes If You Work In Play Clothes

By RUTH MILLETT
NEW YORK, July 14. Housework really isn't any easier than it used to be, but it certainly looks a lot less drudgery like the young women are dressing for it in the summer, 1942.

It's just as hard to do the family washing as it ever was but a slim young thing wearing shorts makes hanging out clothes look as carefree as a game of golf.

And there is something very jaunty about the sight of a slacks-covered housewife pumping a bike to the nearest grocery.

A woman pushing a baby buggy with two kids tagging along beside her doesn't even look weighed down with the responsibility of child care if she is wearing a play suit instead of a house dress.

Maybe there is a psychological reason why women—doing more of their own house and yard work than they have done in years—have substituted play clothes for work clothes.

It may be that they feel less like household drudges and more like gay young things if when they get ready to wash a stack of dirty dishes they are wearing what they would have worn if they had been starting off for a tennis game.

But psychological reason or not, the house dress is certainly being replaced by slacks and shorts—which may do something for the poorly thought of job of housework.

It may give the job a little glamor if the girls can manage to look like chorus girls ready for rehearsal instead of scrubwomen.

Who Am I?

Wide World Features

1. My ancestors were Pilgrims. I was born at Saco, Maine, but when I was still a child my father, a textile mill operator, moved to Lowell, Massachusetts. I am a graduate of Rogers Hall School in Lowell and of Madame Julien's School, Paris, France.
2. I nursed overseas with the Red Cross in 1917 and from 1918-22 took care of returned disabled veterans, part of this time at Walter Reed General hospital in Washington.
3. President Harding appointed me inspector of hospitals for veterans in 1922. I covered them again as personal representative of President Coolidge and President Hoover.
4. I am over sixty years old but my many interests have kept me fit and trim. I take daily walks and frequent swims. I like dainty clothes, colors and flowers.
5. I am a Republican. My political career began in 1925 after the death of my husband; I completed his sixth Congressional term. I have been reelected the ninth time as Congresswoman from Massachusetts.
6. Because I fought against the establishment of shoe manufacturing "schools" by a Czech concern, I received many letters threatening my political career and my life. I had received similar threats two years earlier when I criticized Adolf Hitler for his remarks about American womanhood.
7. Although I hate to get up in the morning, I introduced the House bill to set the clocks ahead an hour so that more tanks and planes may be turned out. I also introduced the bill which established the new women's army.

Liquid Hosiery Costs So Little

By SUSAN BARRETT
How would you like to buy—all at one time—42 pairs of the sheerest stockings you ever saw? In any one of five fashionable and really flattering shades?

You wouldn't mind? We don't think you would, either. And we think you will be splurging like this on a stocking wardrobe any minute now—at 3 cents a pair!

Latest Development
For this is the latest development in cosmetic hosiery—a new liquid, different from synthetic stocking effects that have appeared so far. This pleasantly scented liquid has a glycerine base which acts as a softener so it's not drying to the skin. Put it on exactly as you would a hand lotion. It doesn't streak, and it doesn't come off on clothing, no matter how much the hem of your skirt brushes against it. But it does effectively conceal freckles, scars and veins and flatters your legs as the prettiest dull finish stockings would.

You can't tell this new leg makeup up from the real thing. In fact, besides solving the silk stocking shortage, some of the girls who have been testing it, find the dull mat finish makes a grand suntan makeup for arms and shoulders.

It Won't Come Off
No, it won't come off until it's washed off, then it just slides away in plain water. So—no more runs, except those you might get in the rain—in which case you merely smooth your hands over your skin, and our "stocking" is whole and foolproof again.

Light, medium and dark, tropic and sunbark are the shades you can choose from.

Budget Will Benefit
This new cosmetic will double your pleasure in wearing ankle socks this summer. And how your budget will benefit, for a bottle adequate for 42 pairs of "stockings" costs so little.—Chicago Sun.

Wooden Tires Now Used By Minneapolis Papers
MINNEAPOLIS, July 14.—(P)—Wooden tires developed by the Twin Cities newspaper service are now being used to deliver Minneapolis newspapers.

Originator of the idea, the newspaper service has applied for patents on the new style wooden tire which they said makes the trucks steer easier although they are noisier than rubber.

Trucks equipped with the tires can be driven no faster than 15 miles per hour, the company said, but by using the wooden tires multiple deliveries to news stands are possible instead of the one delivery per day permitted under defunct transportation rules.

The tires are composed of 36 wooden blocks bolted together and held in place by an iron band.
